Tile Map of Maine

1

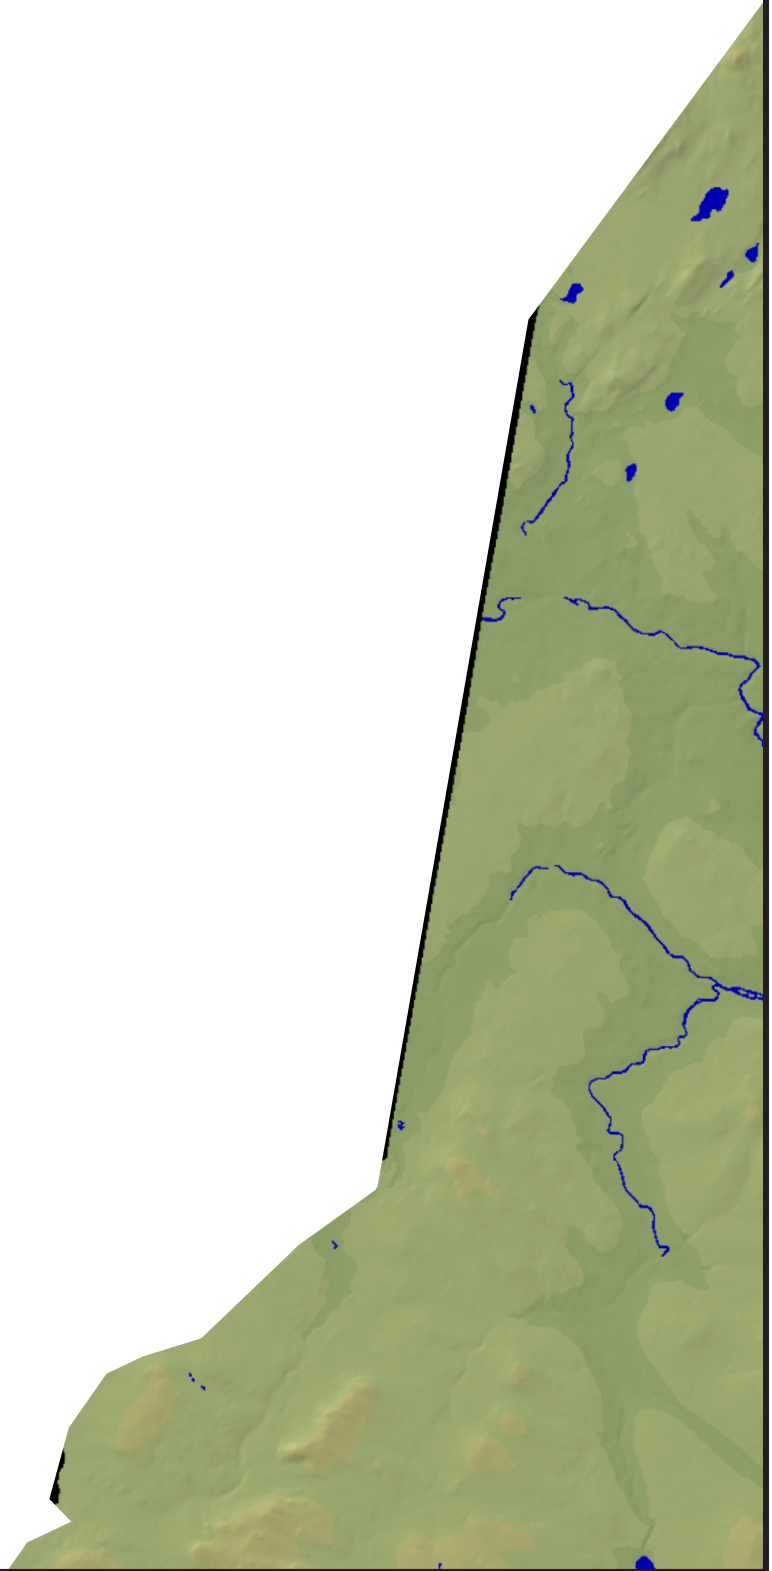

2

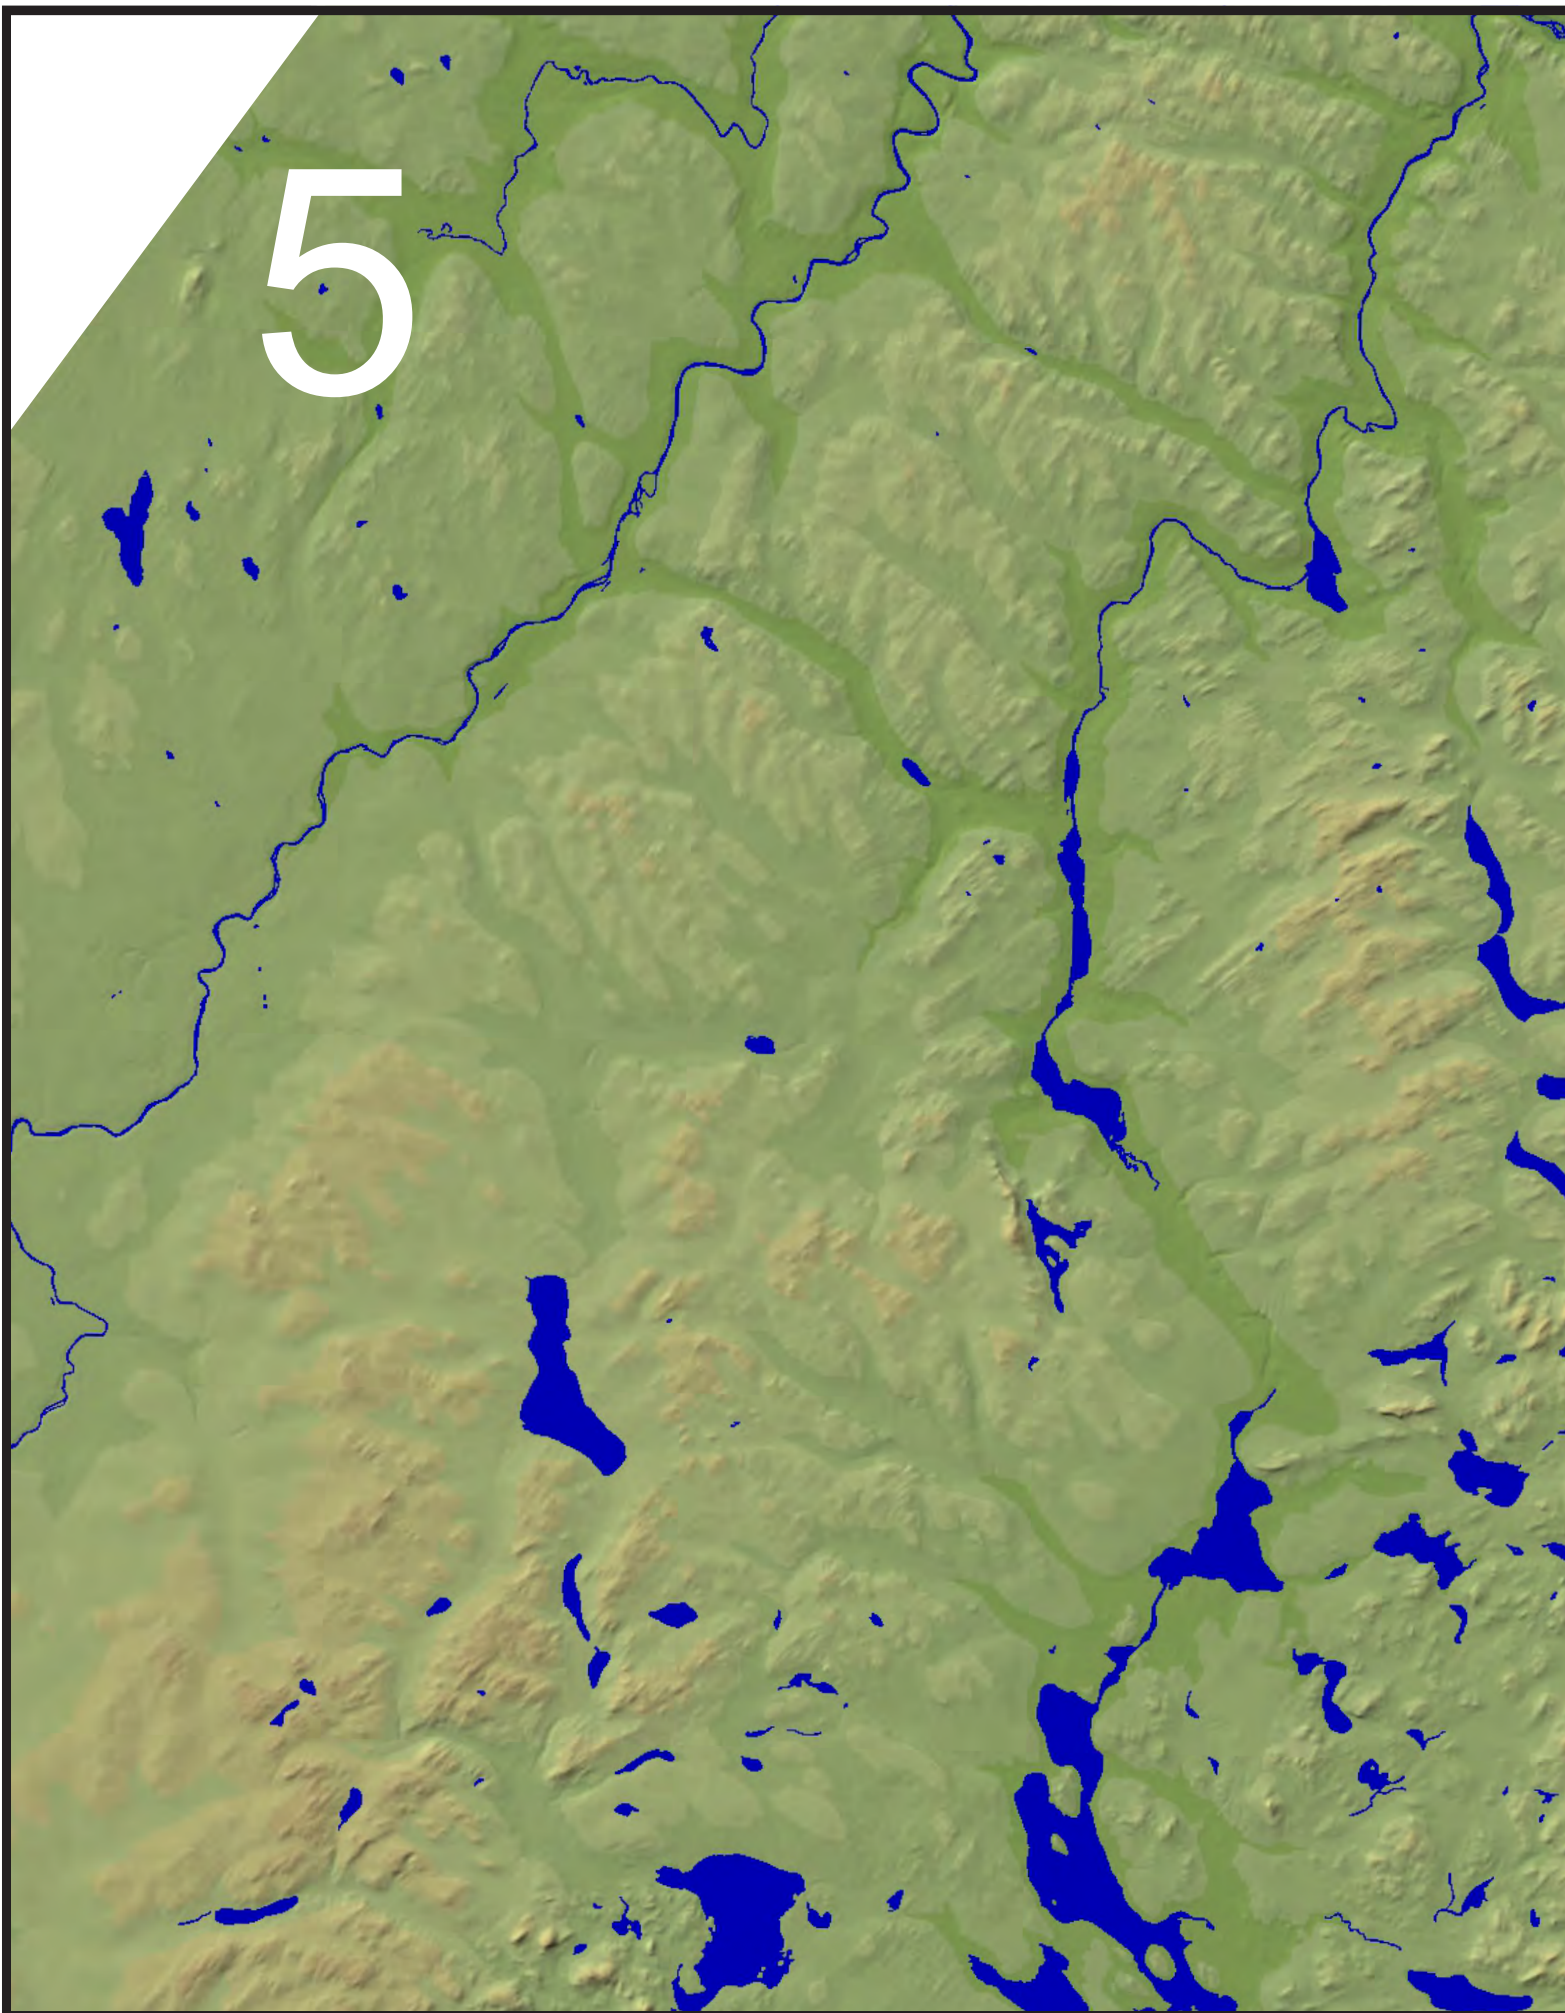

3

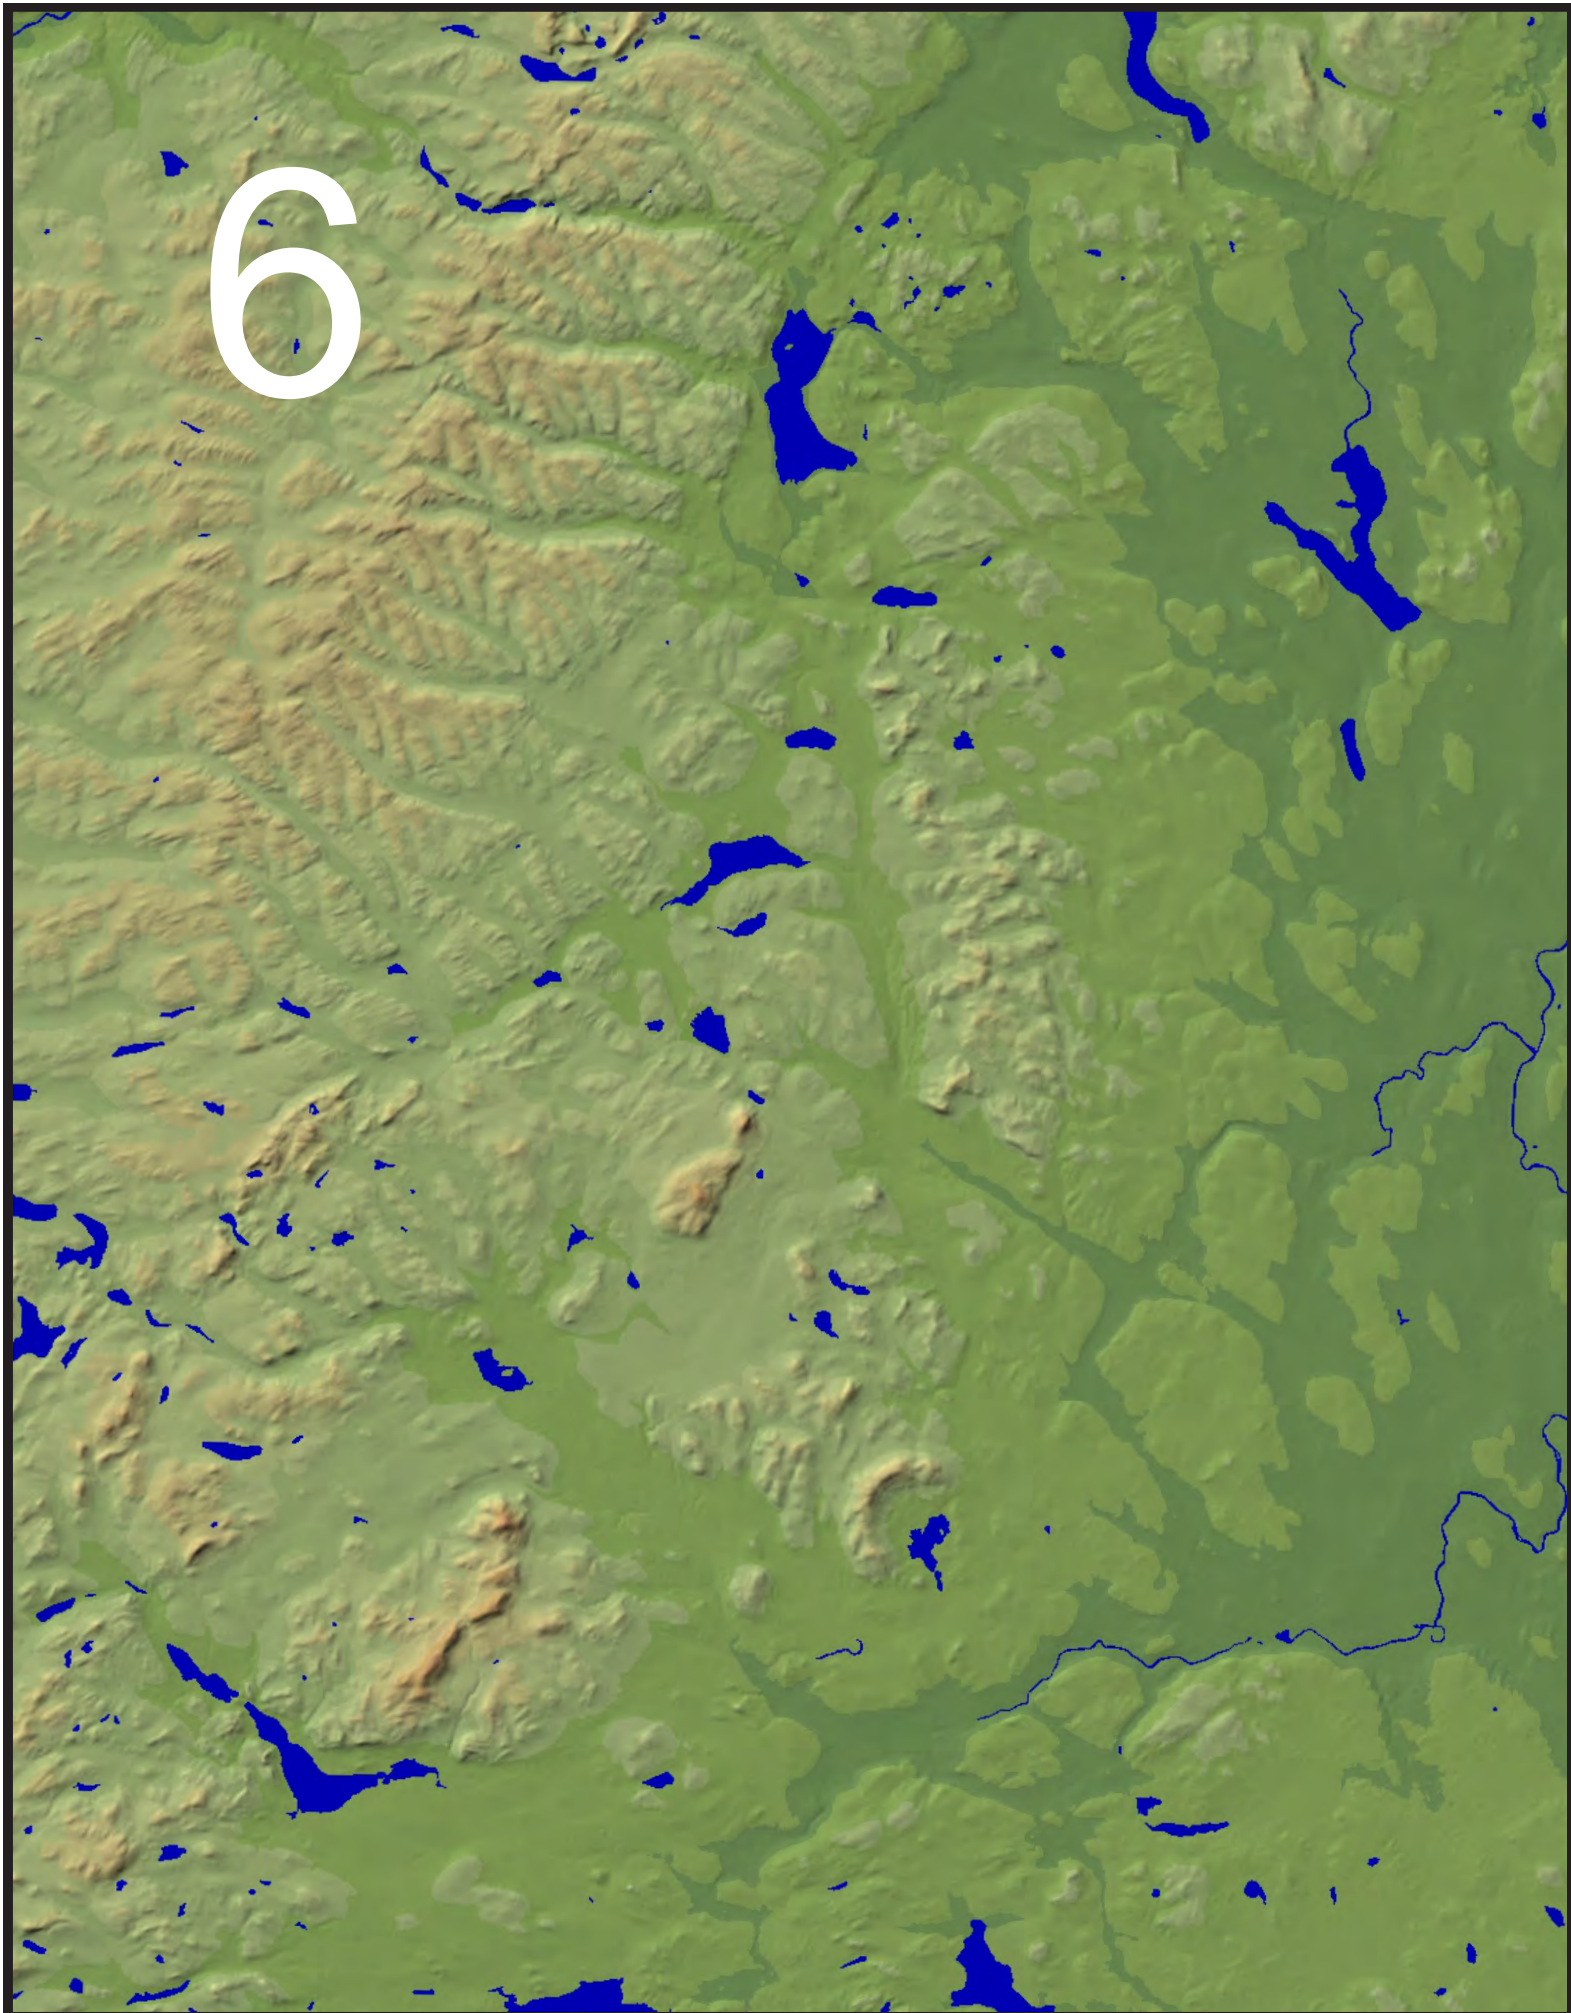

4

5

6

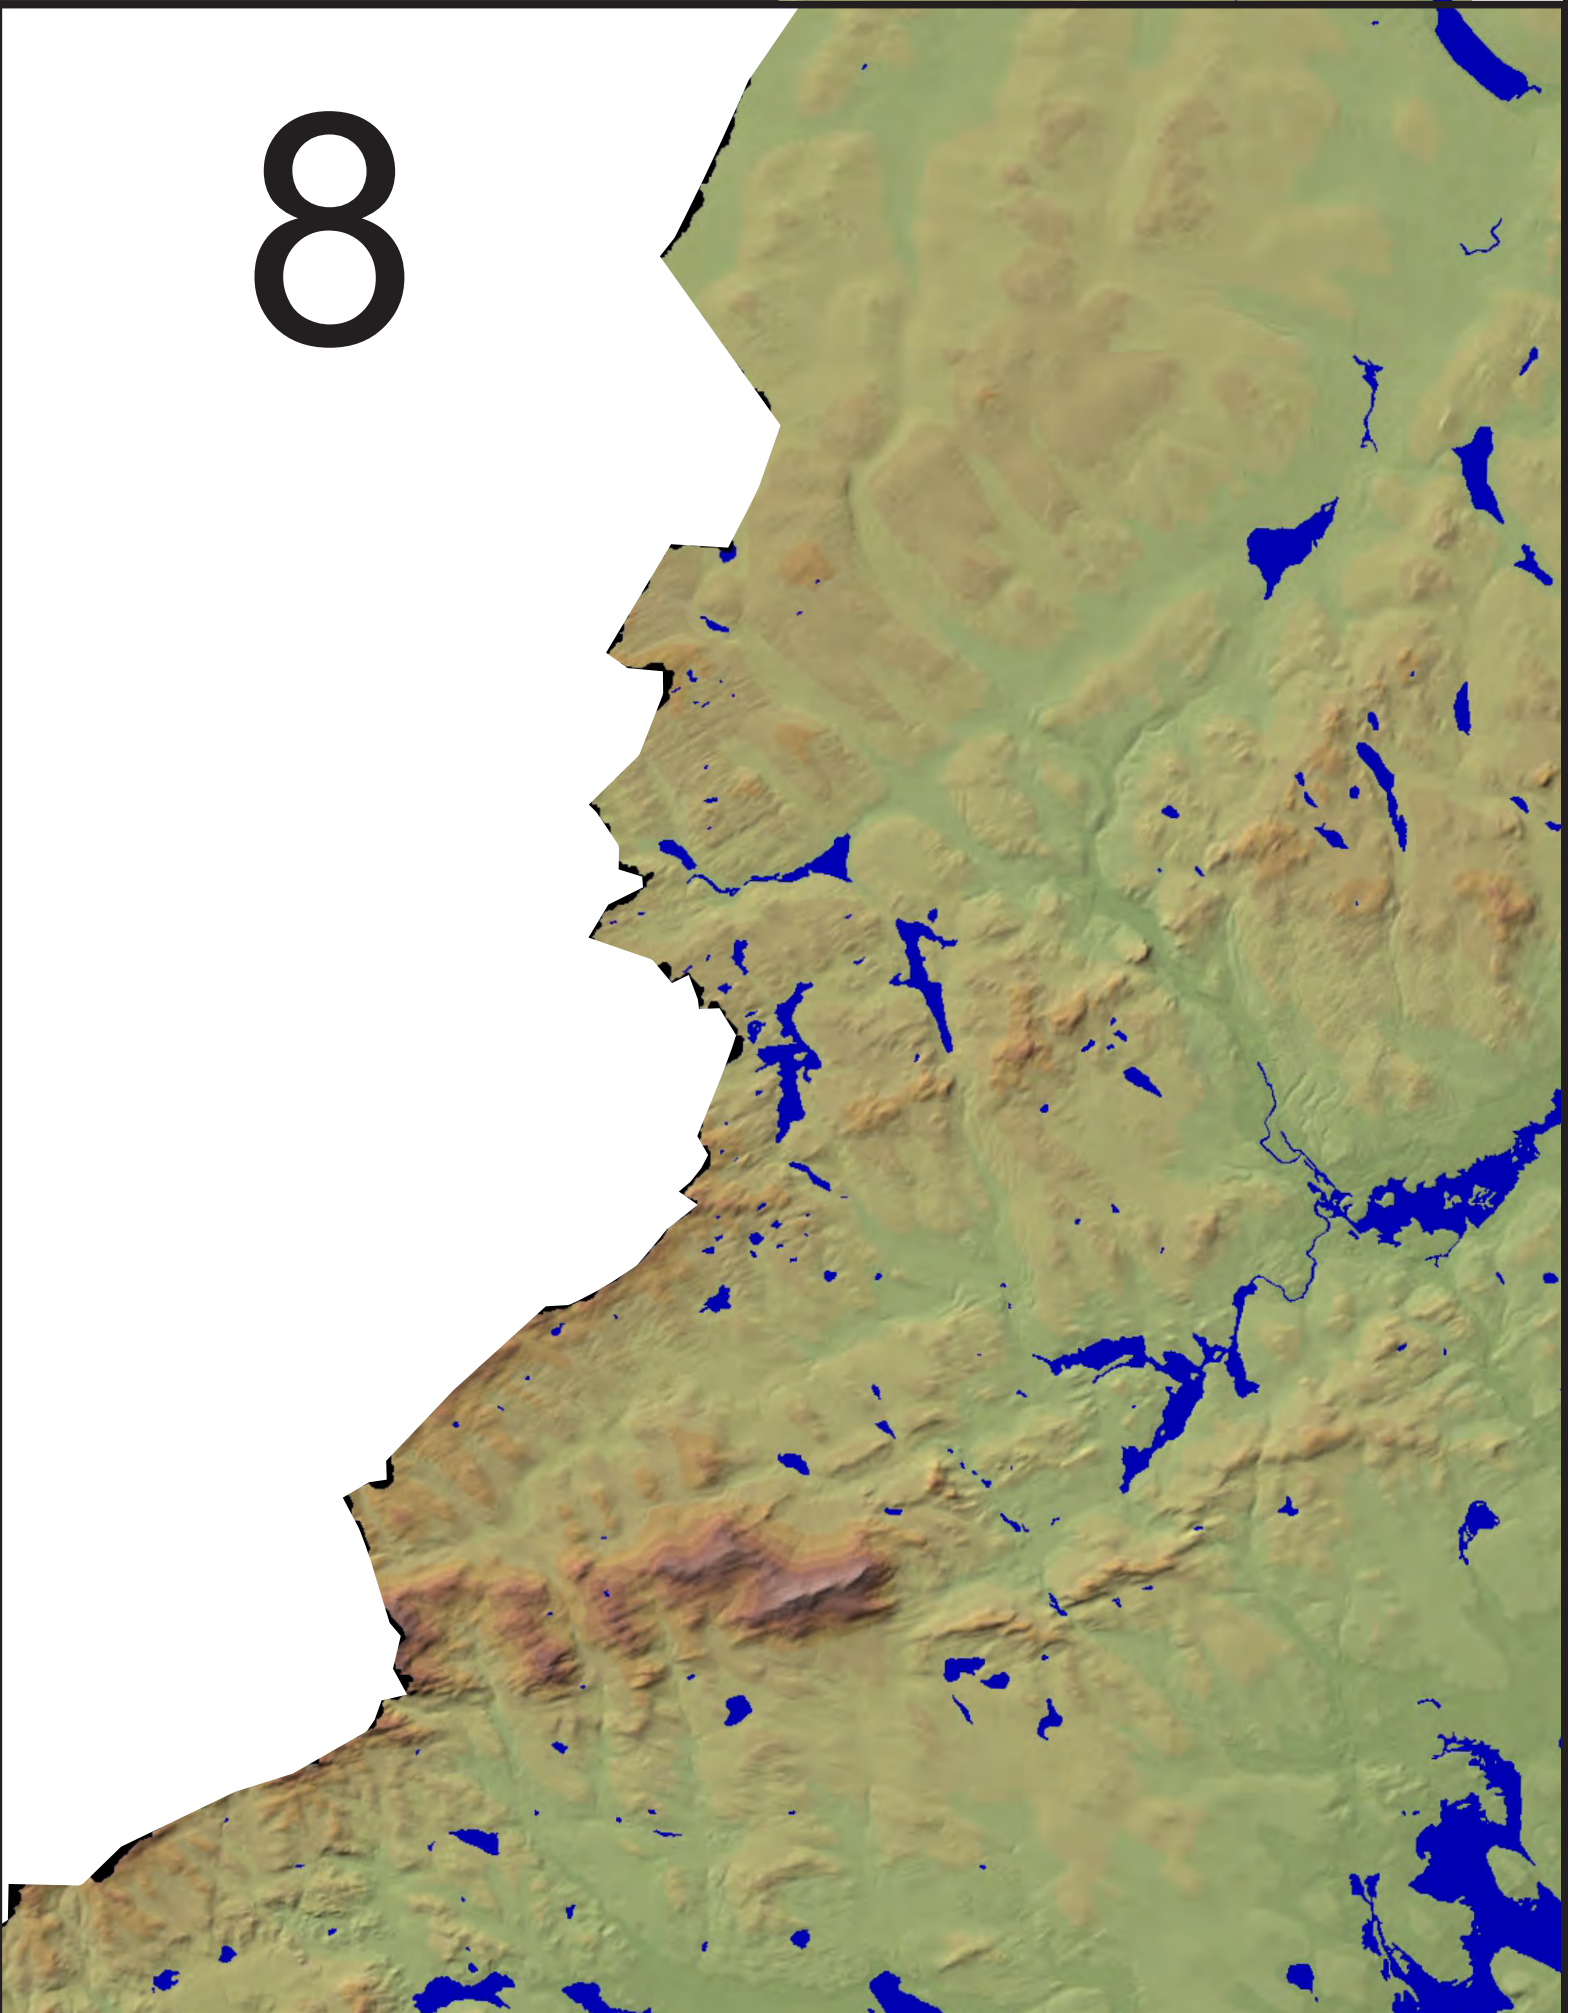

A topographic map of a region, likely a mountainous area, with a color gradient from light green to dark green. A prominent blue line, representing a river or stream, winds through the landscape. A solid black circle is placed on the map, indicating a specific location. The number '7' is printed in white in the upper left corner.

7

Presque Isle

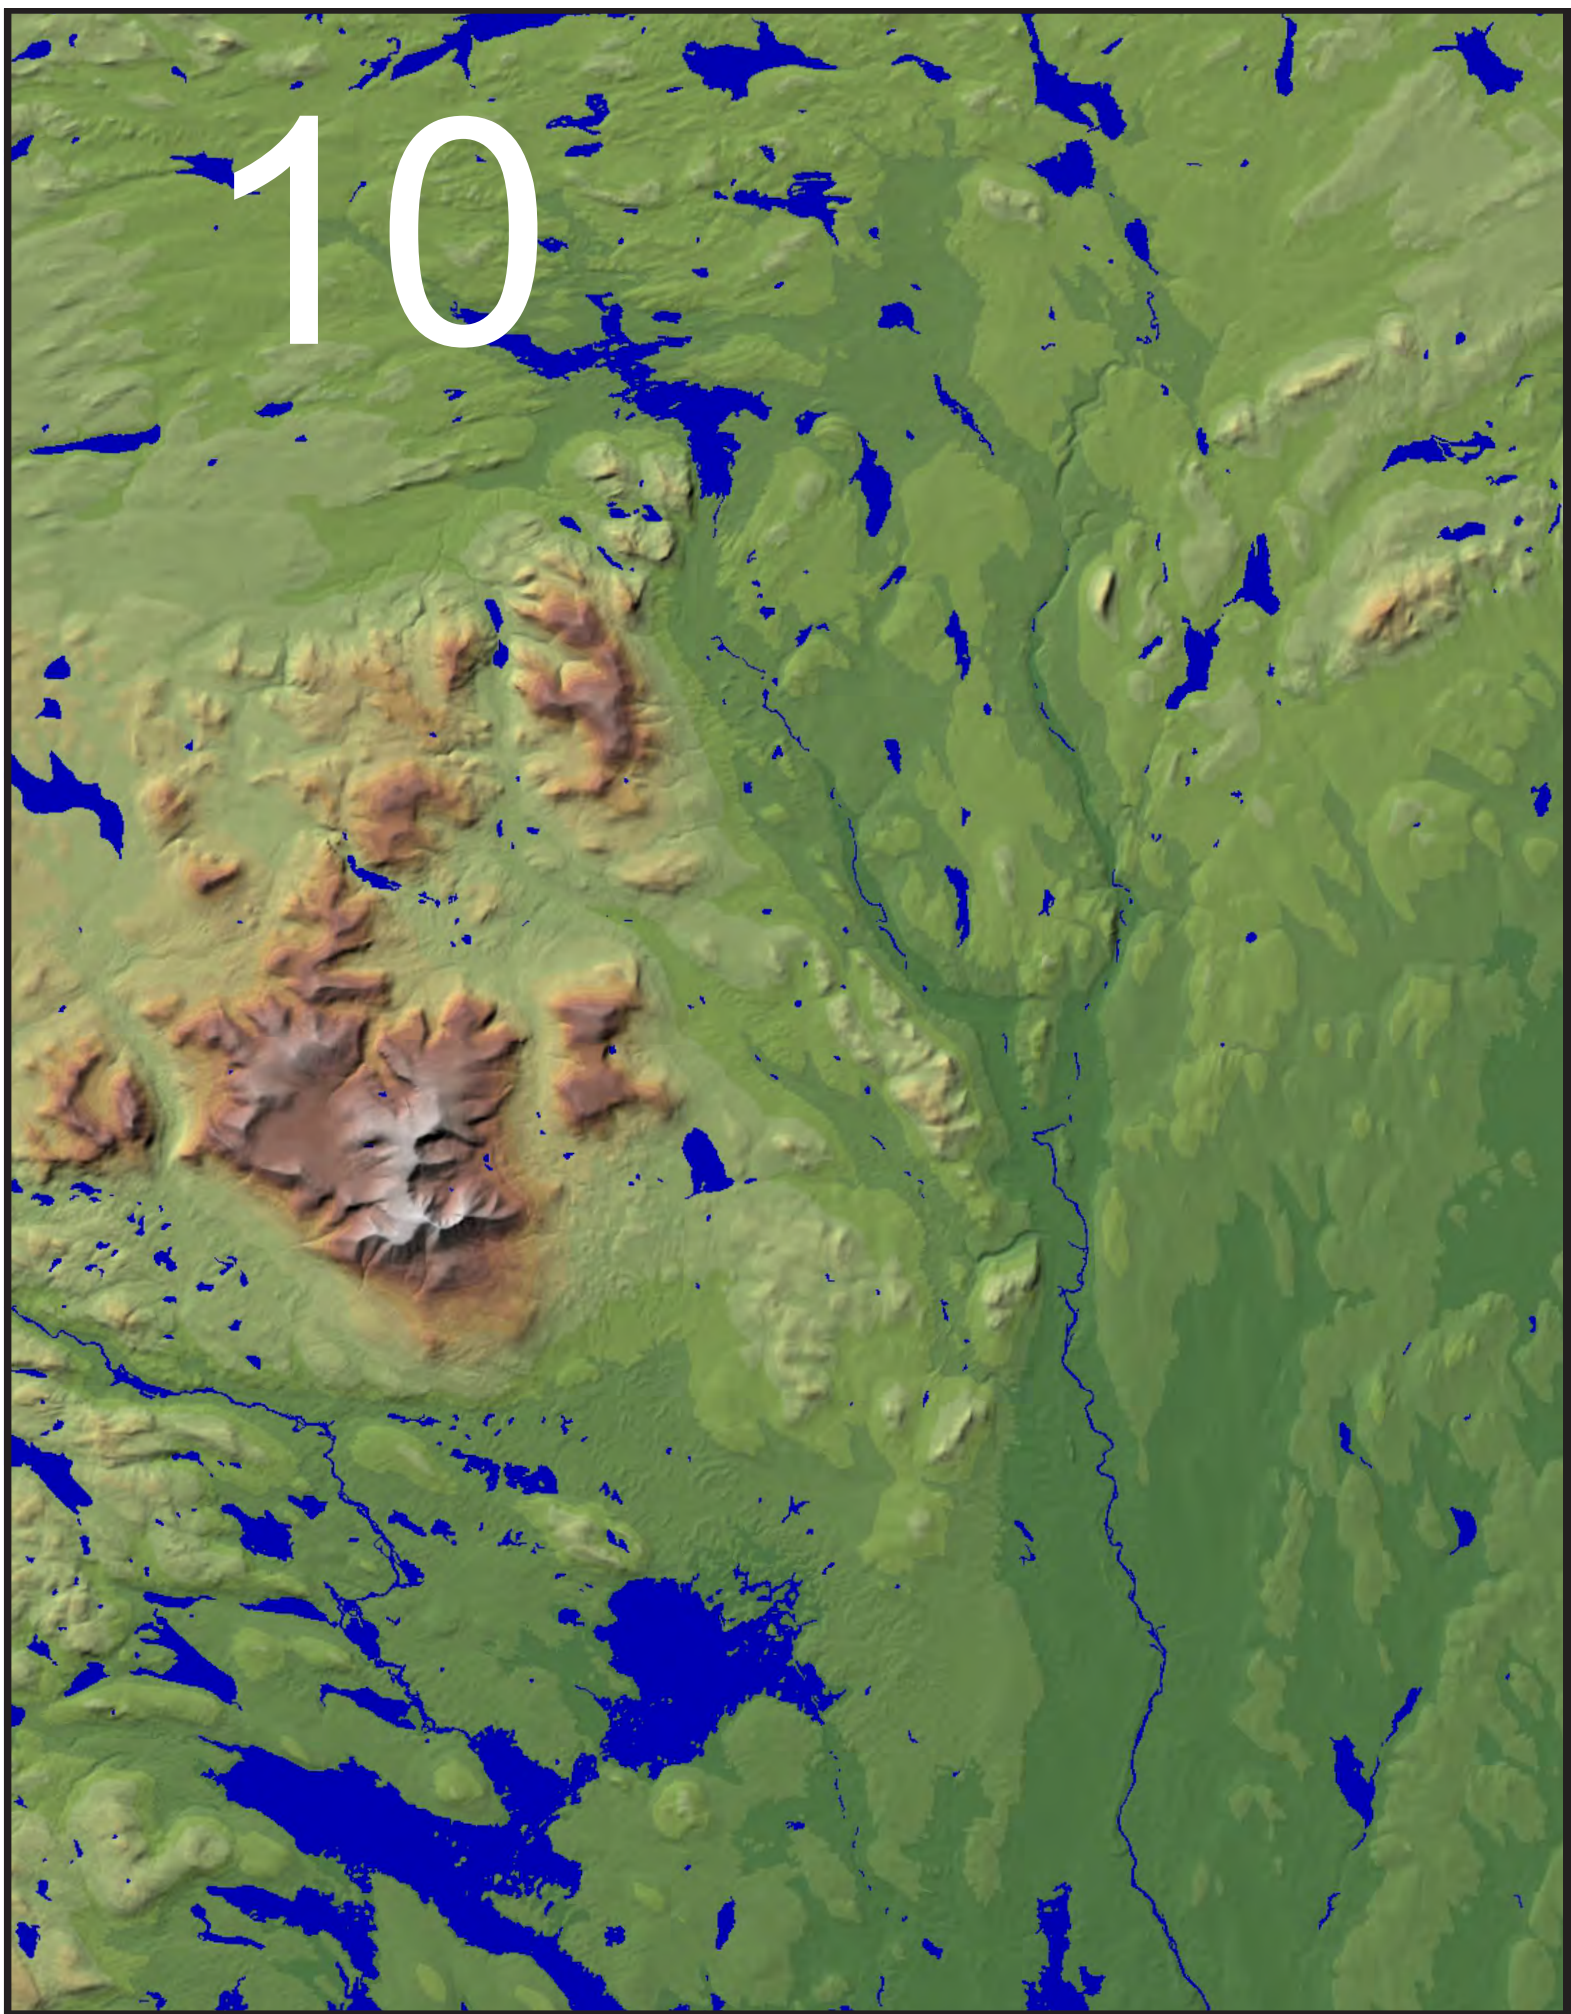

8

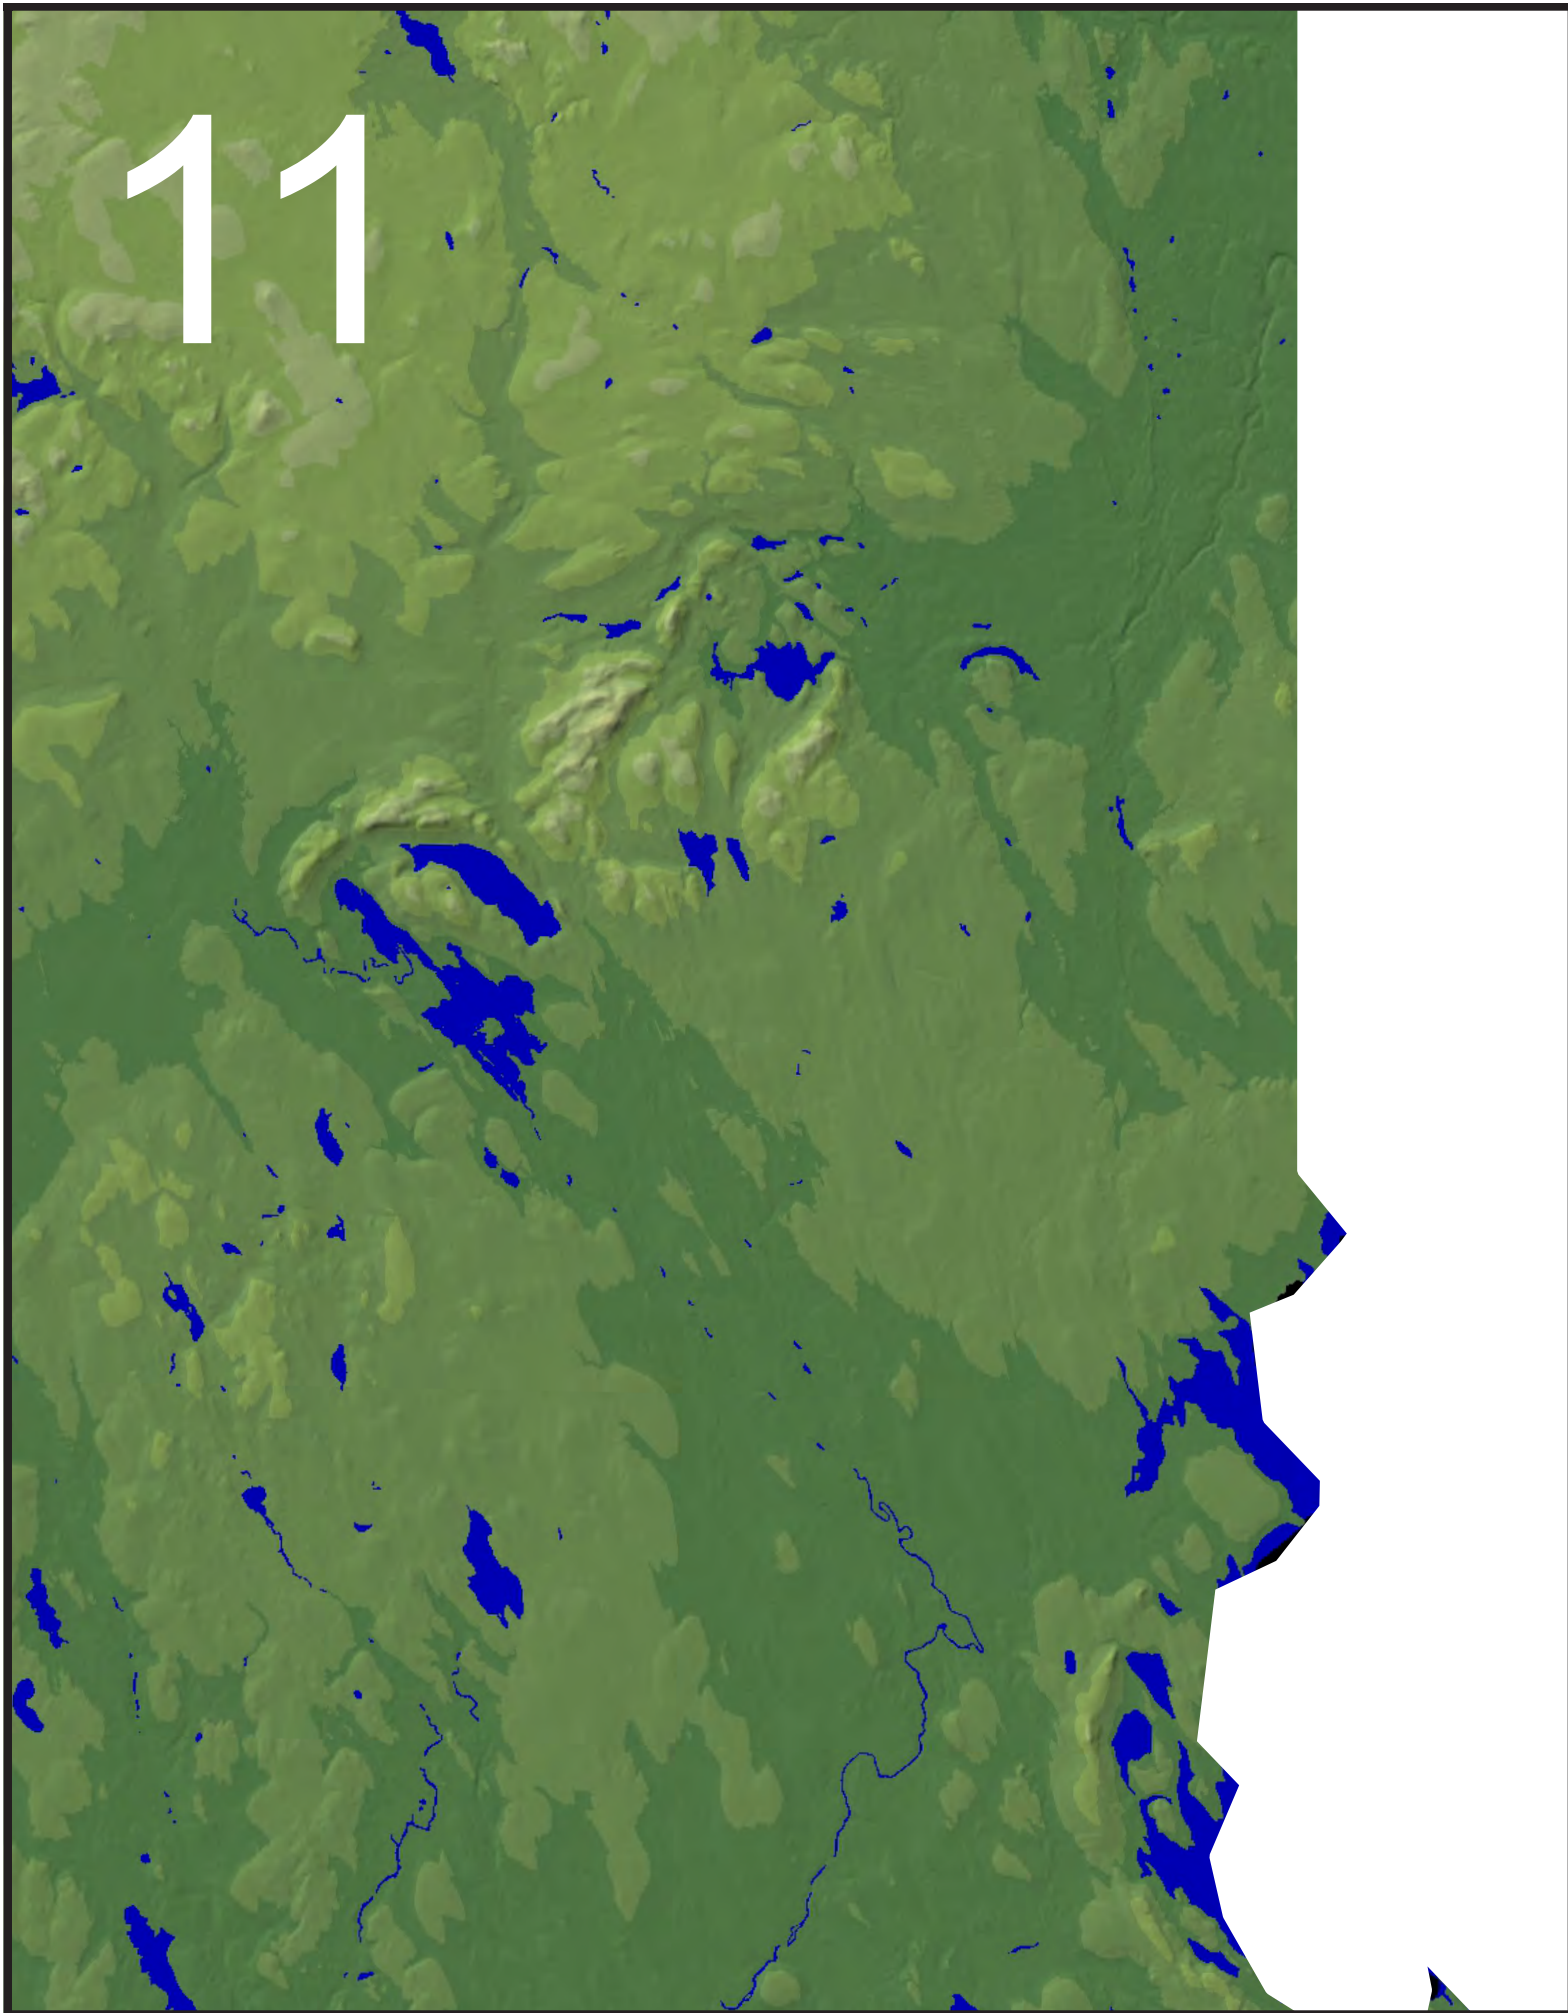

9

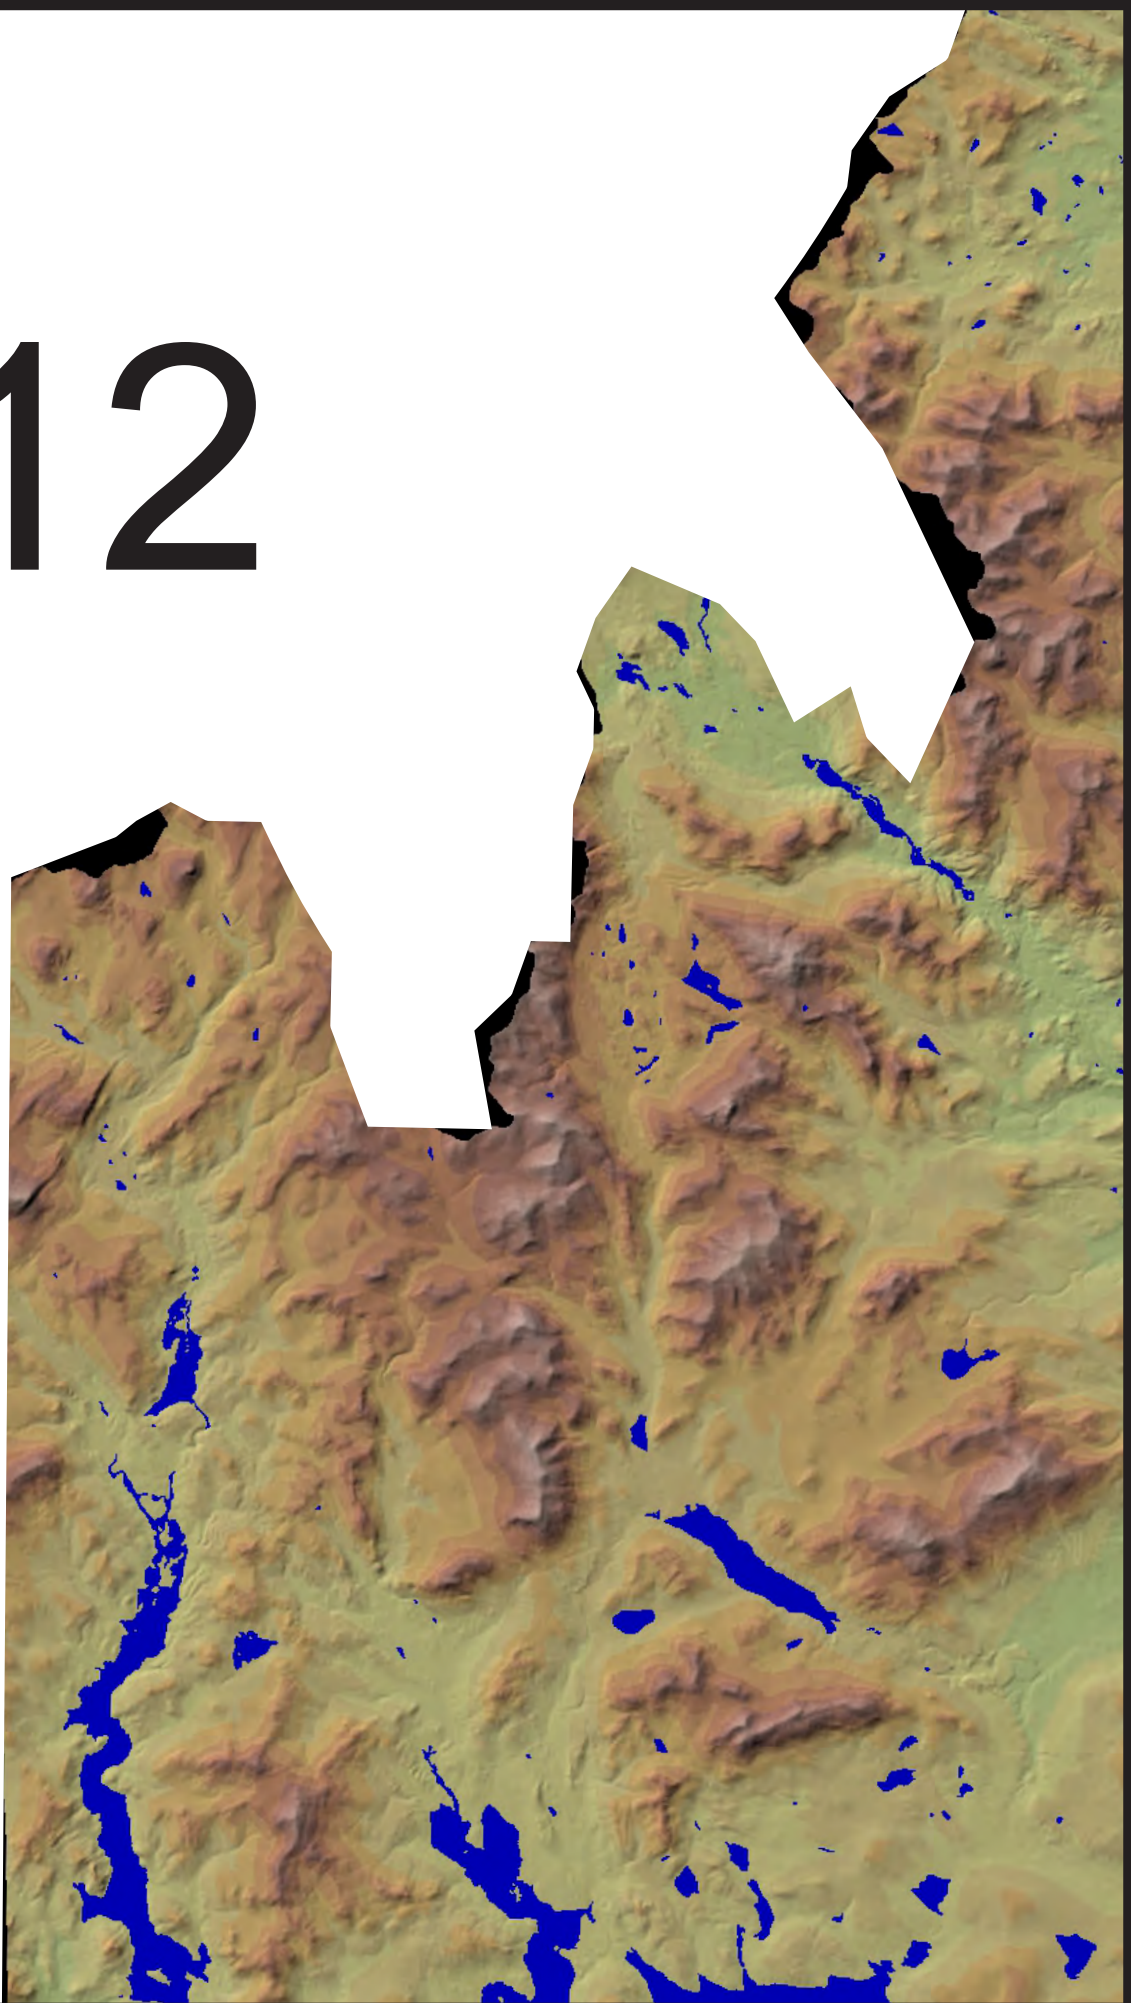

10

11

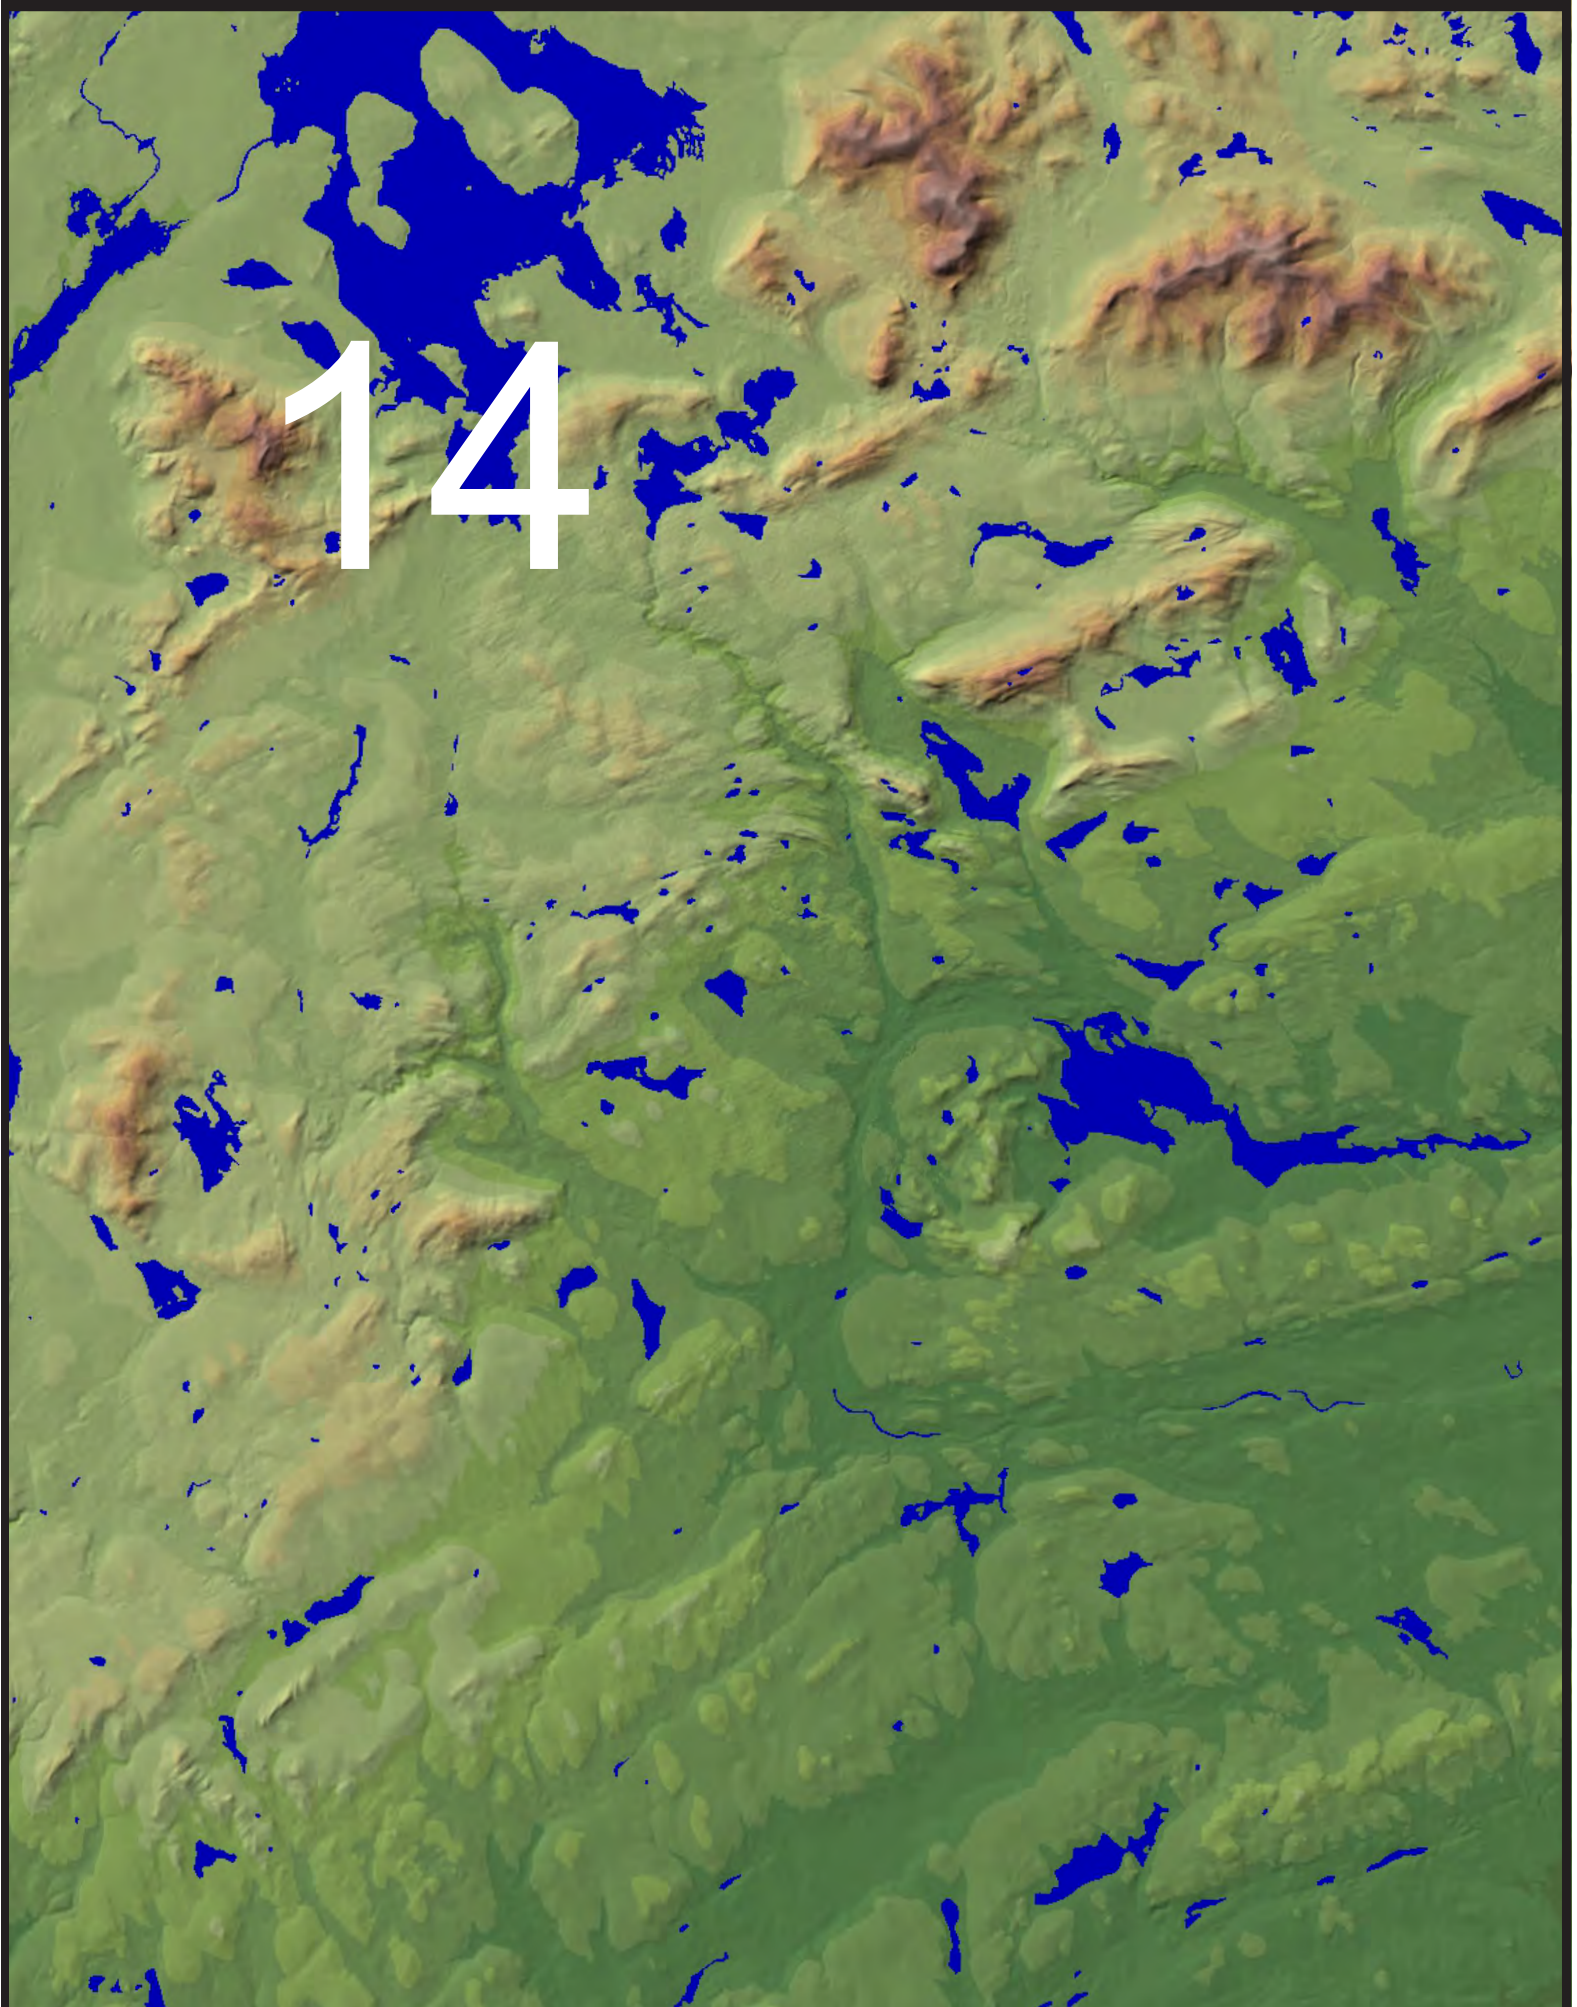

12

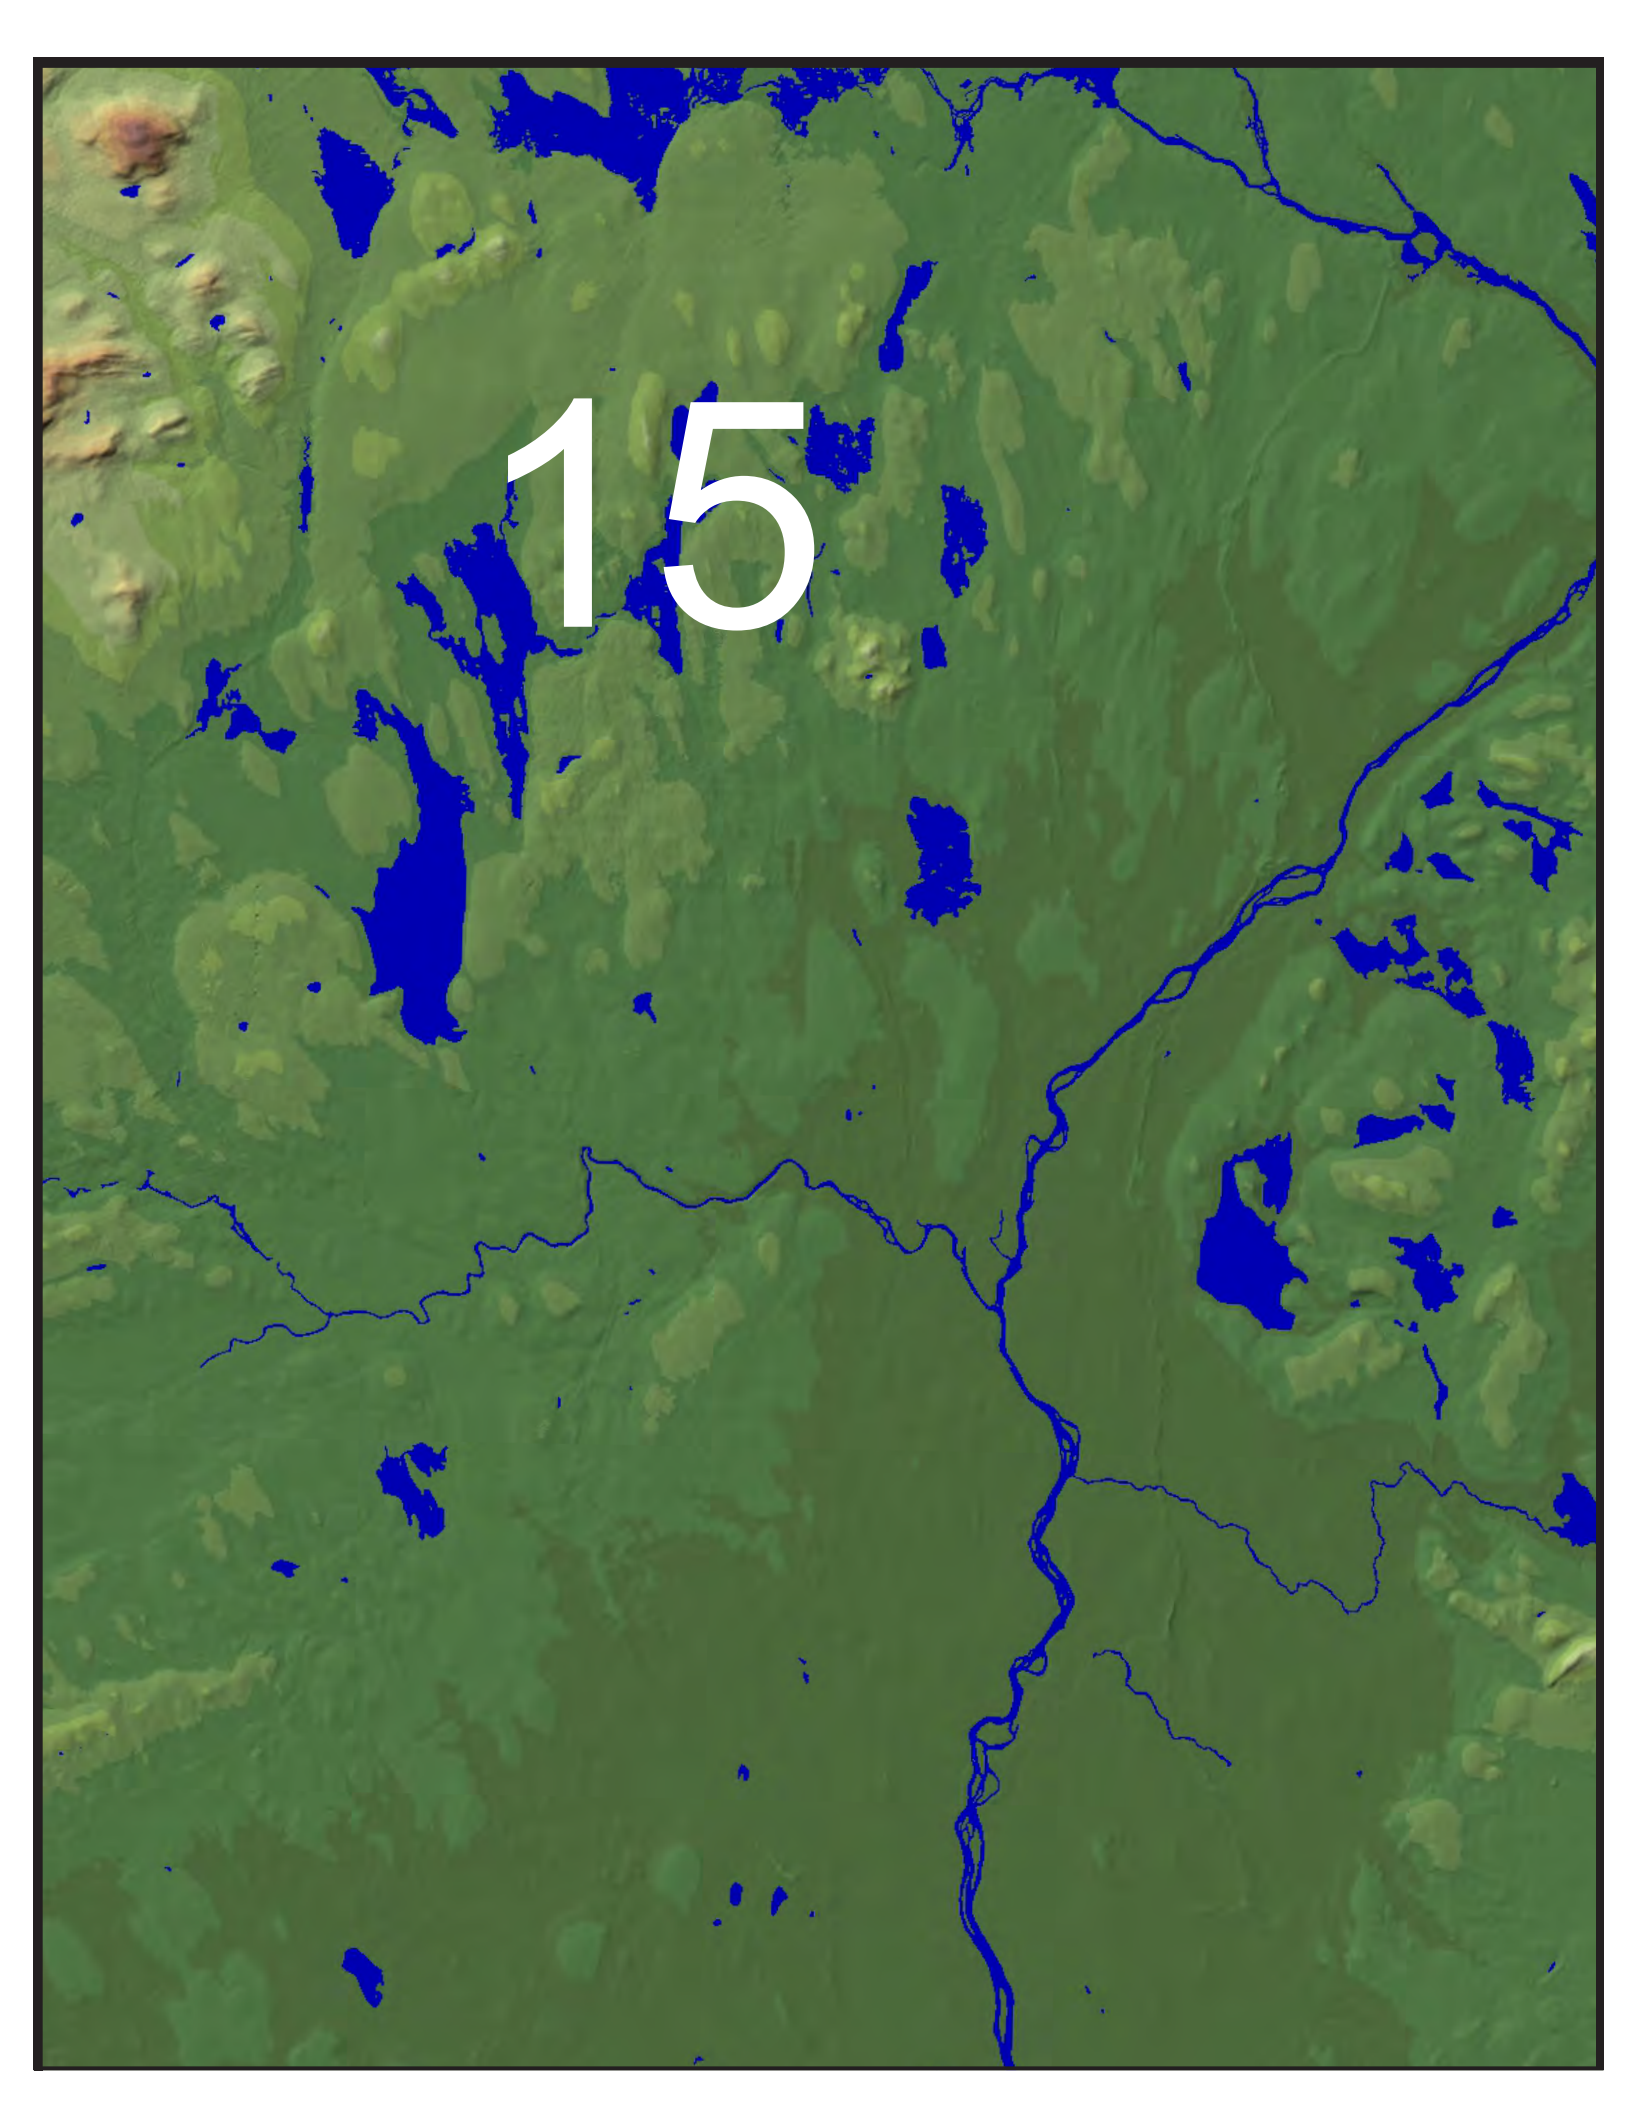

13

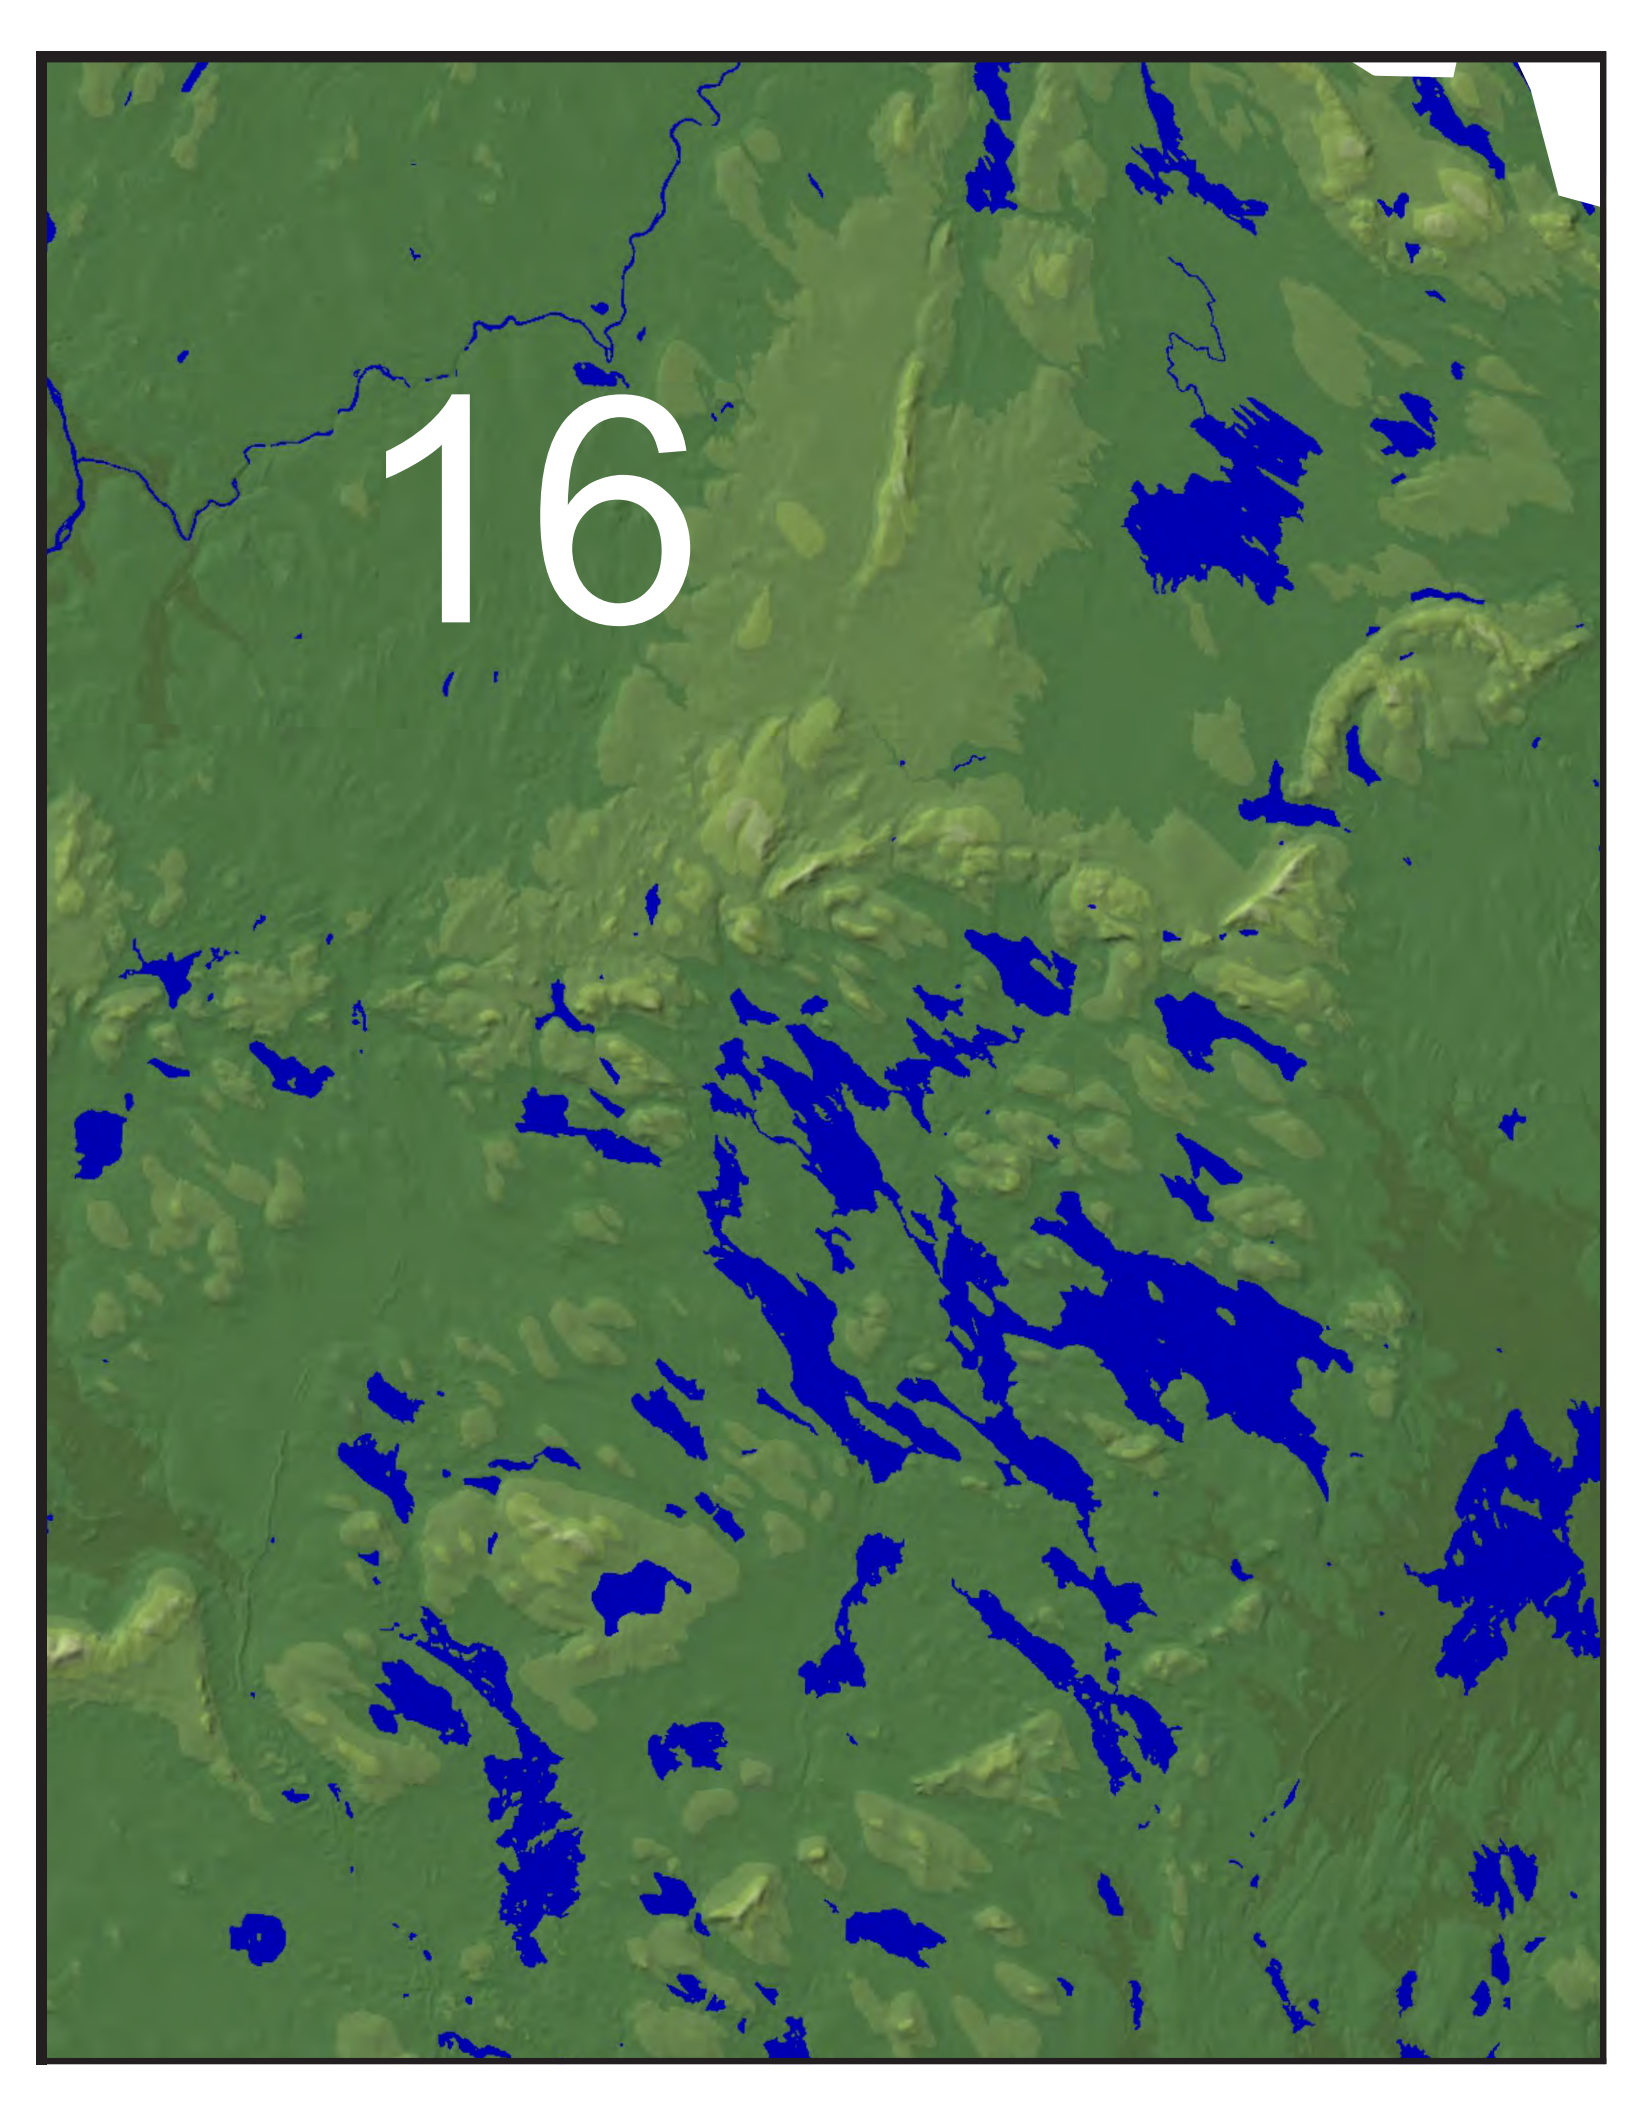

14

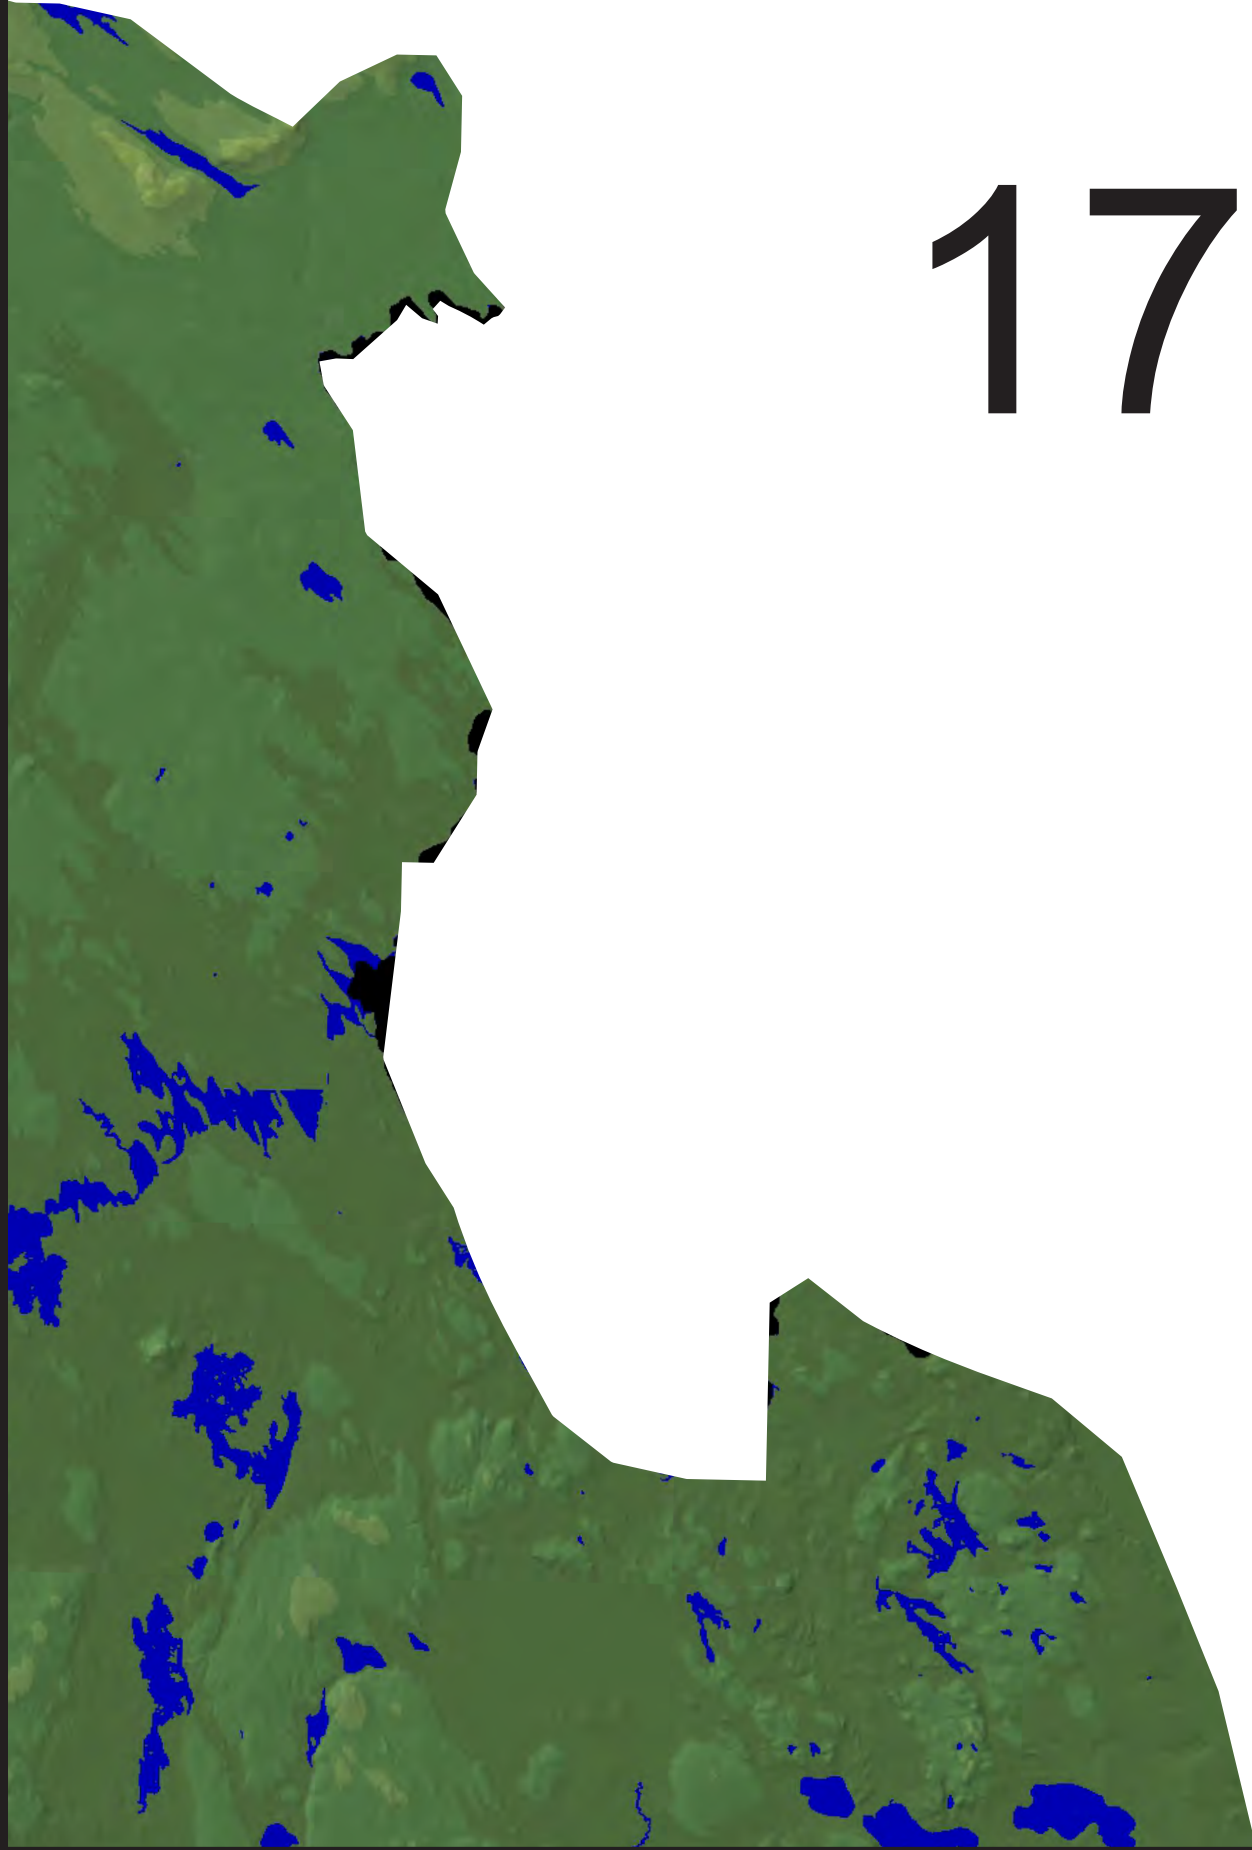

An aerial photograph of a forested landscape. A river flows from the top right towards the bottom center. Several lakes and ponds are scattered throughout the forest. The terrain appears to be hilly or mountainous, with varying shades of green and brown indicating different vegetation and elevation. The number 15 is overlaid in the center.

15

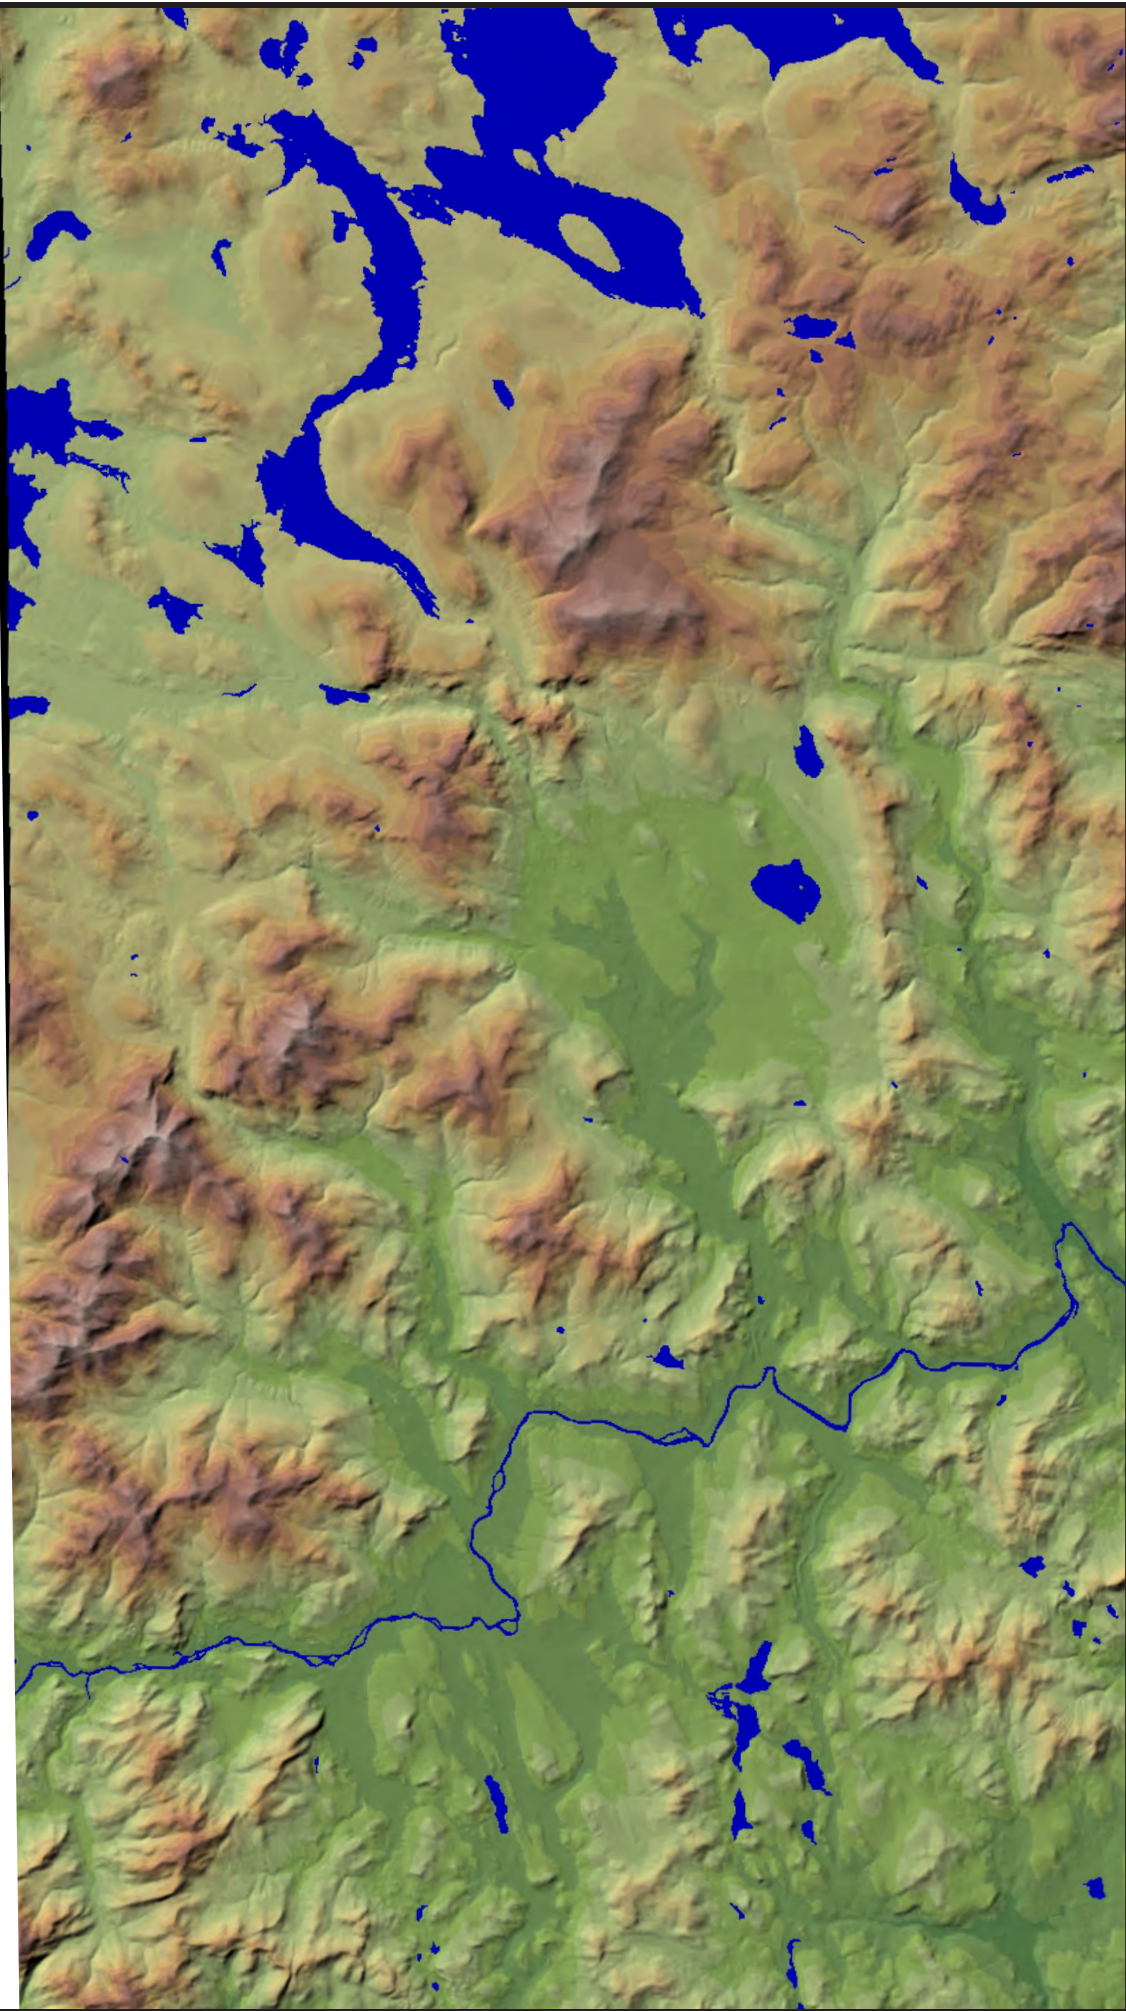

An aerial photograph of a forested landscape, likely in a mountainous region. The terrain is covered in dense green forest, with numerous small, irregularly shaped lakes and ponds scattered throughout. A prominent river or stream flows through the upper left portion of the image. The overall scene is a mix of green and blue, with the blue of the water bodies contrasting against the green of the forest. The number '16' is overlaid in the upper left quadrant.

16

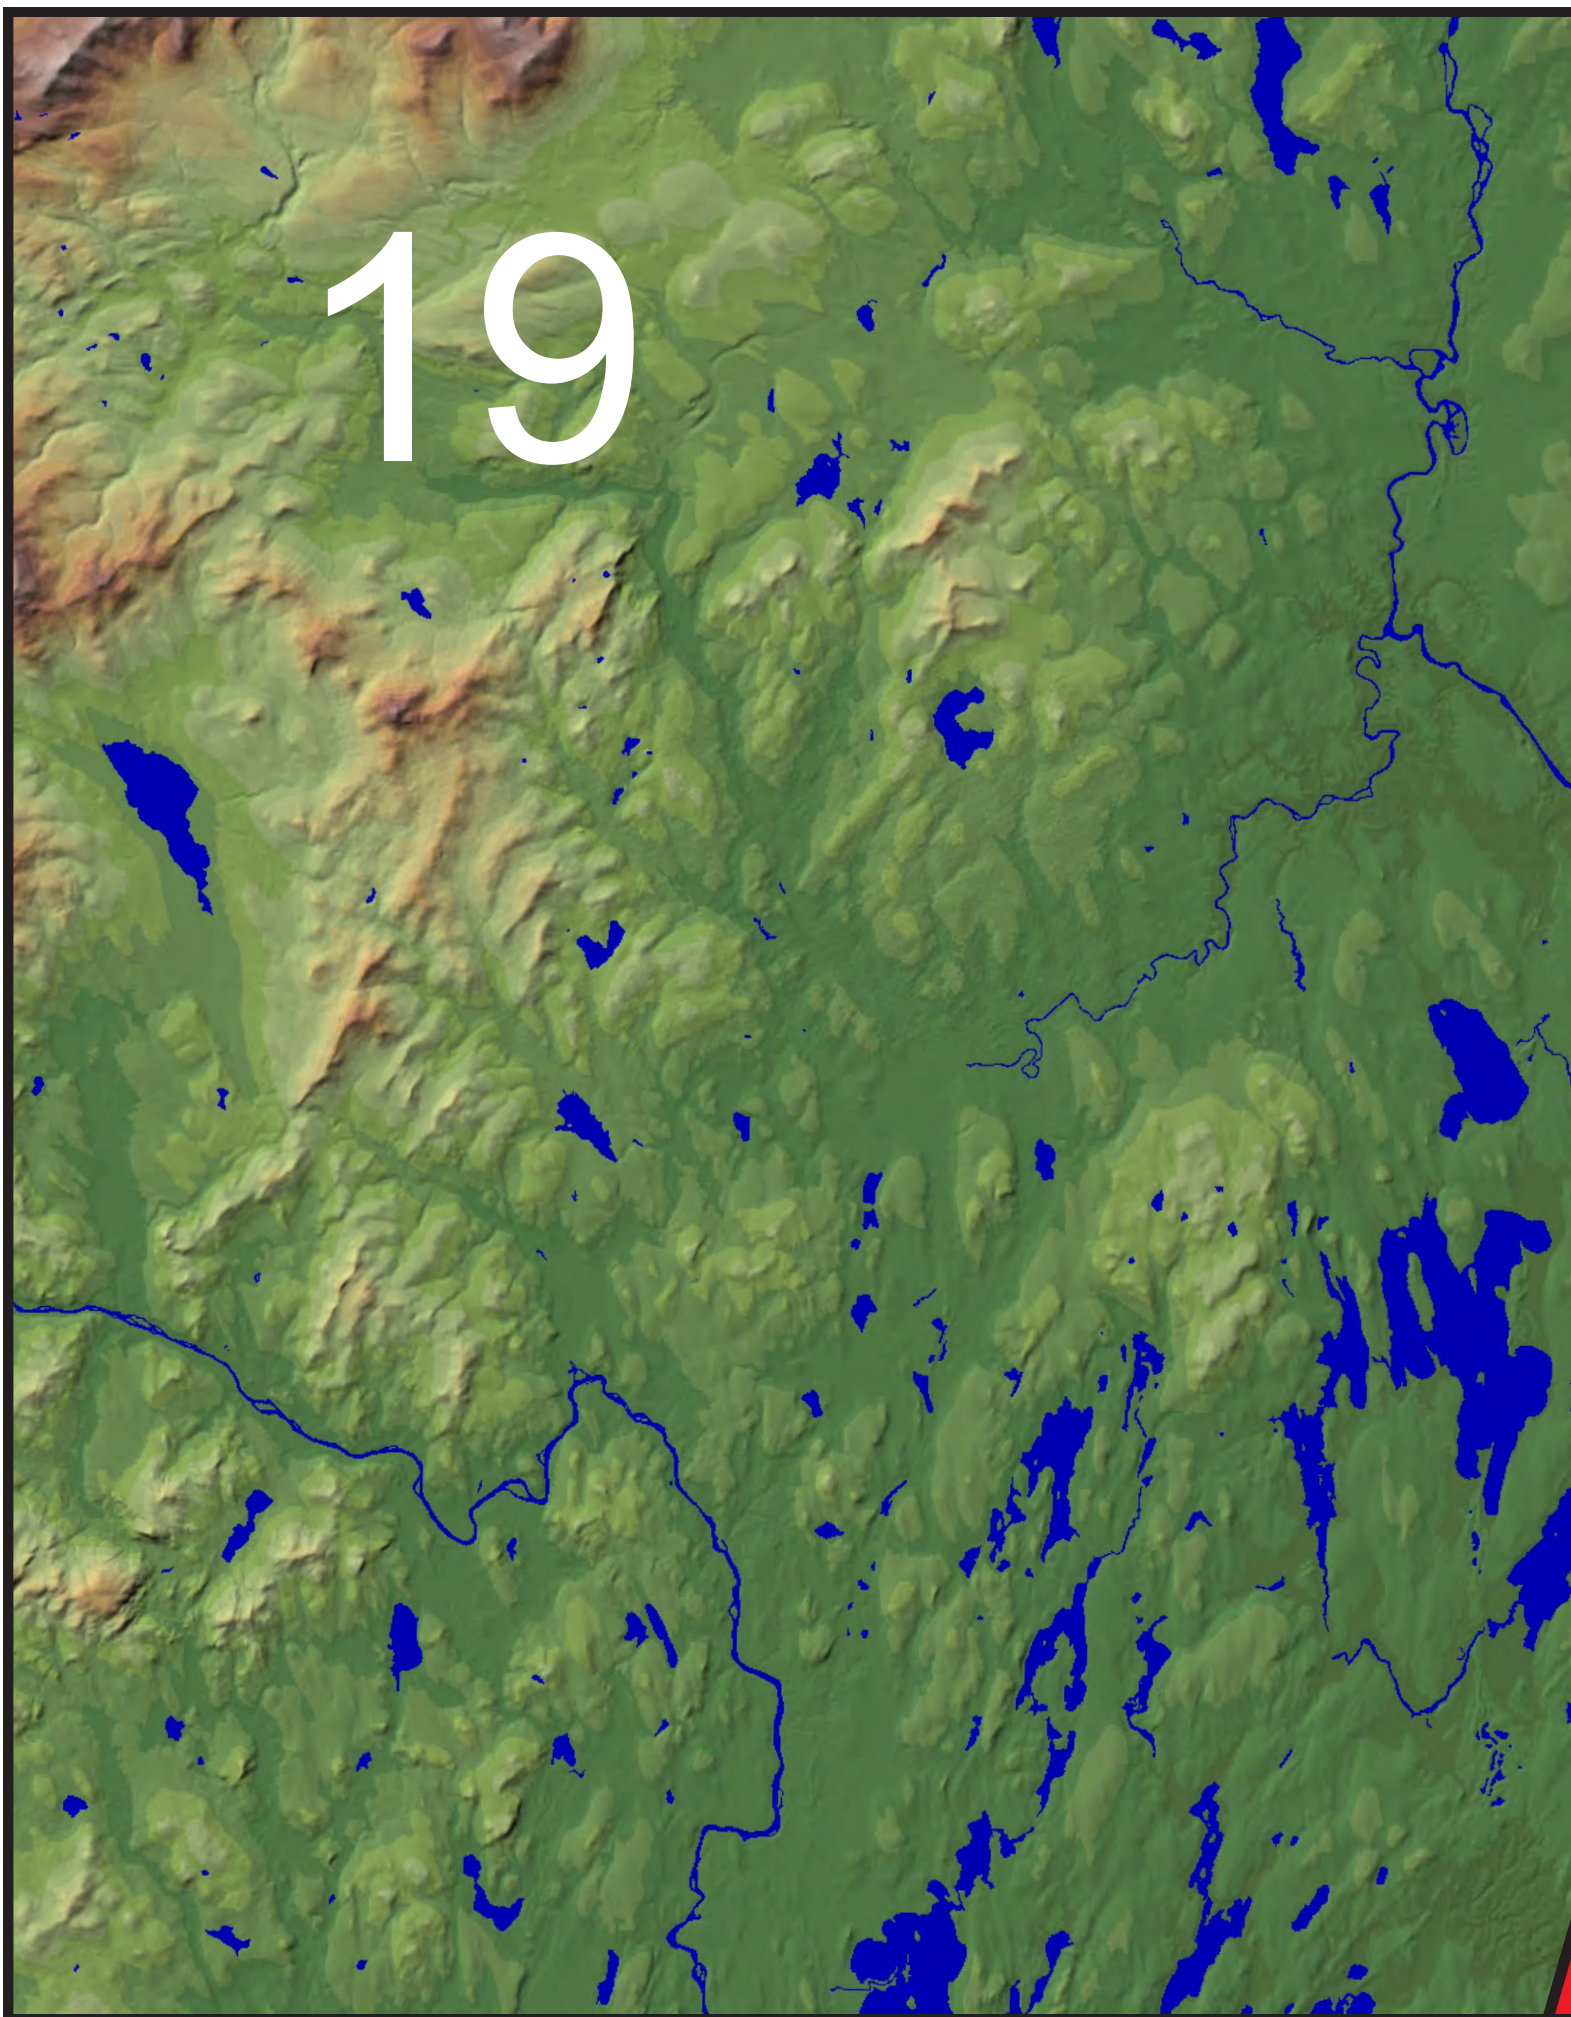

17

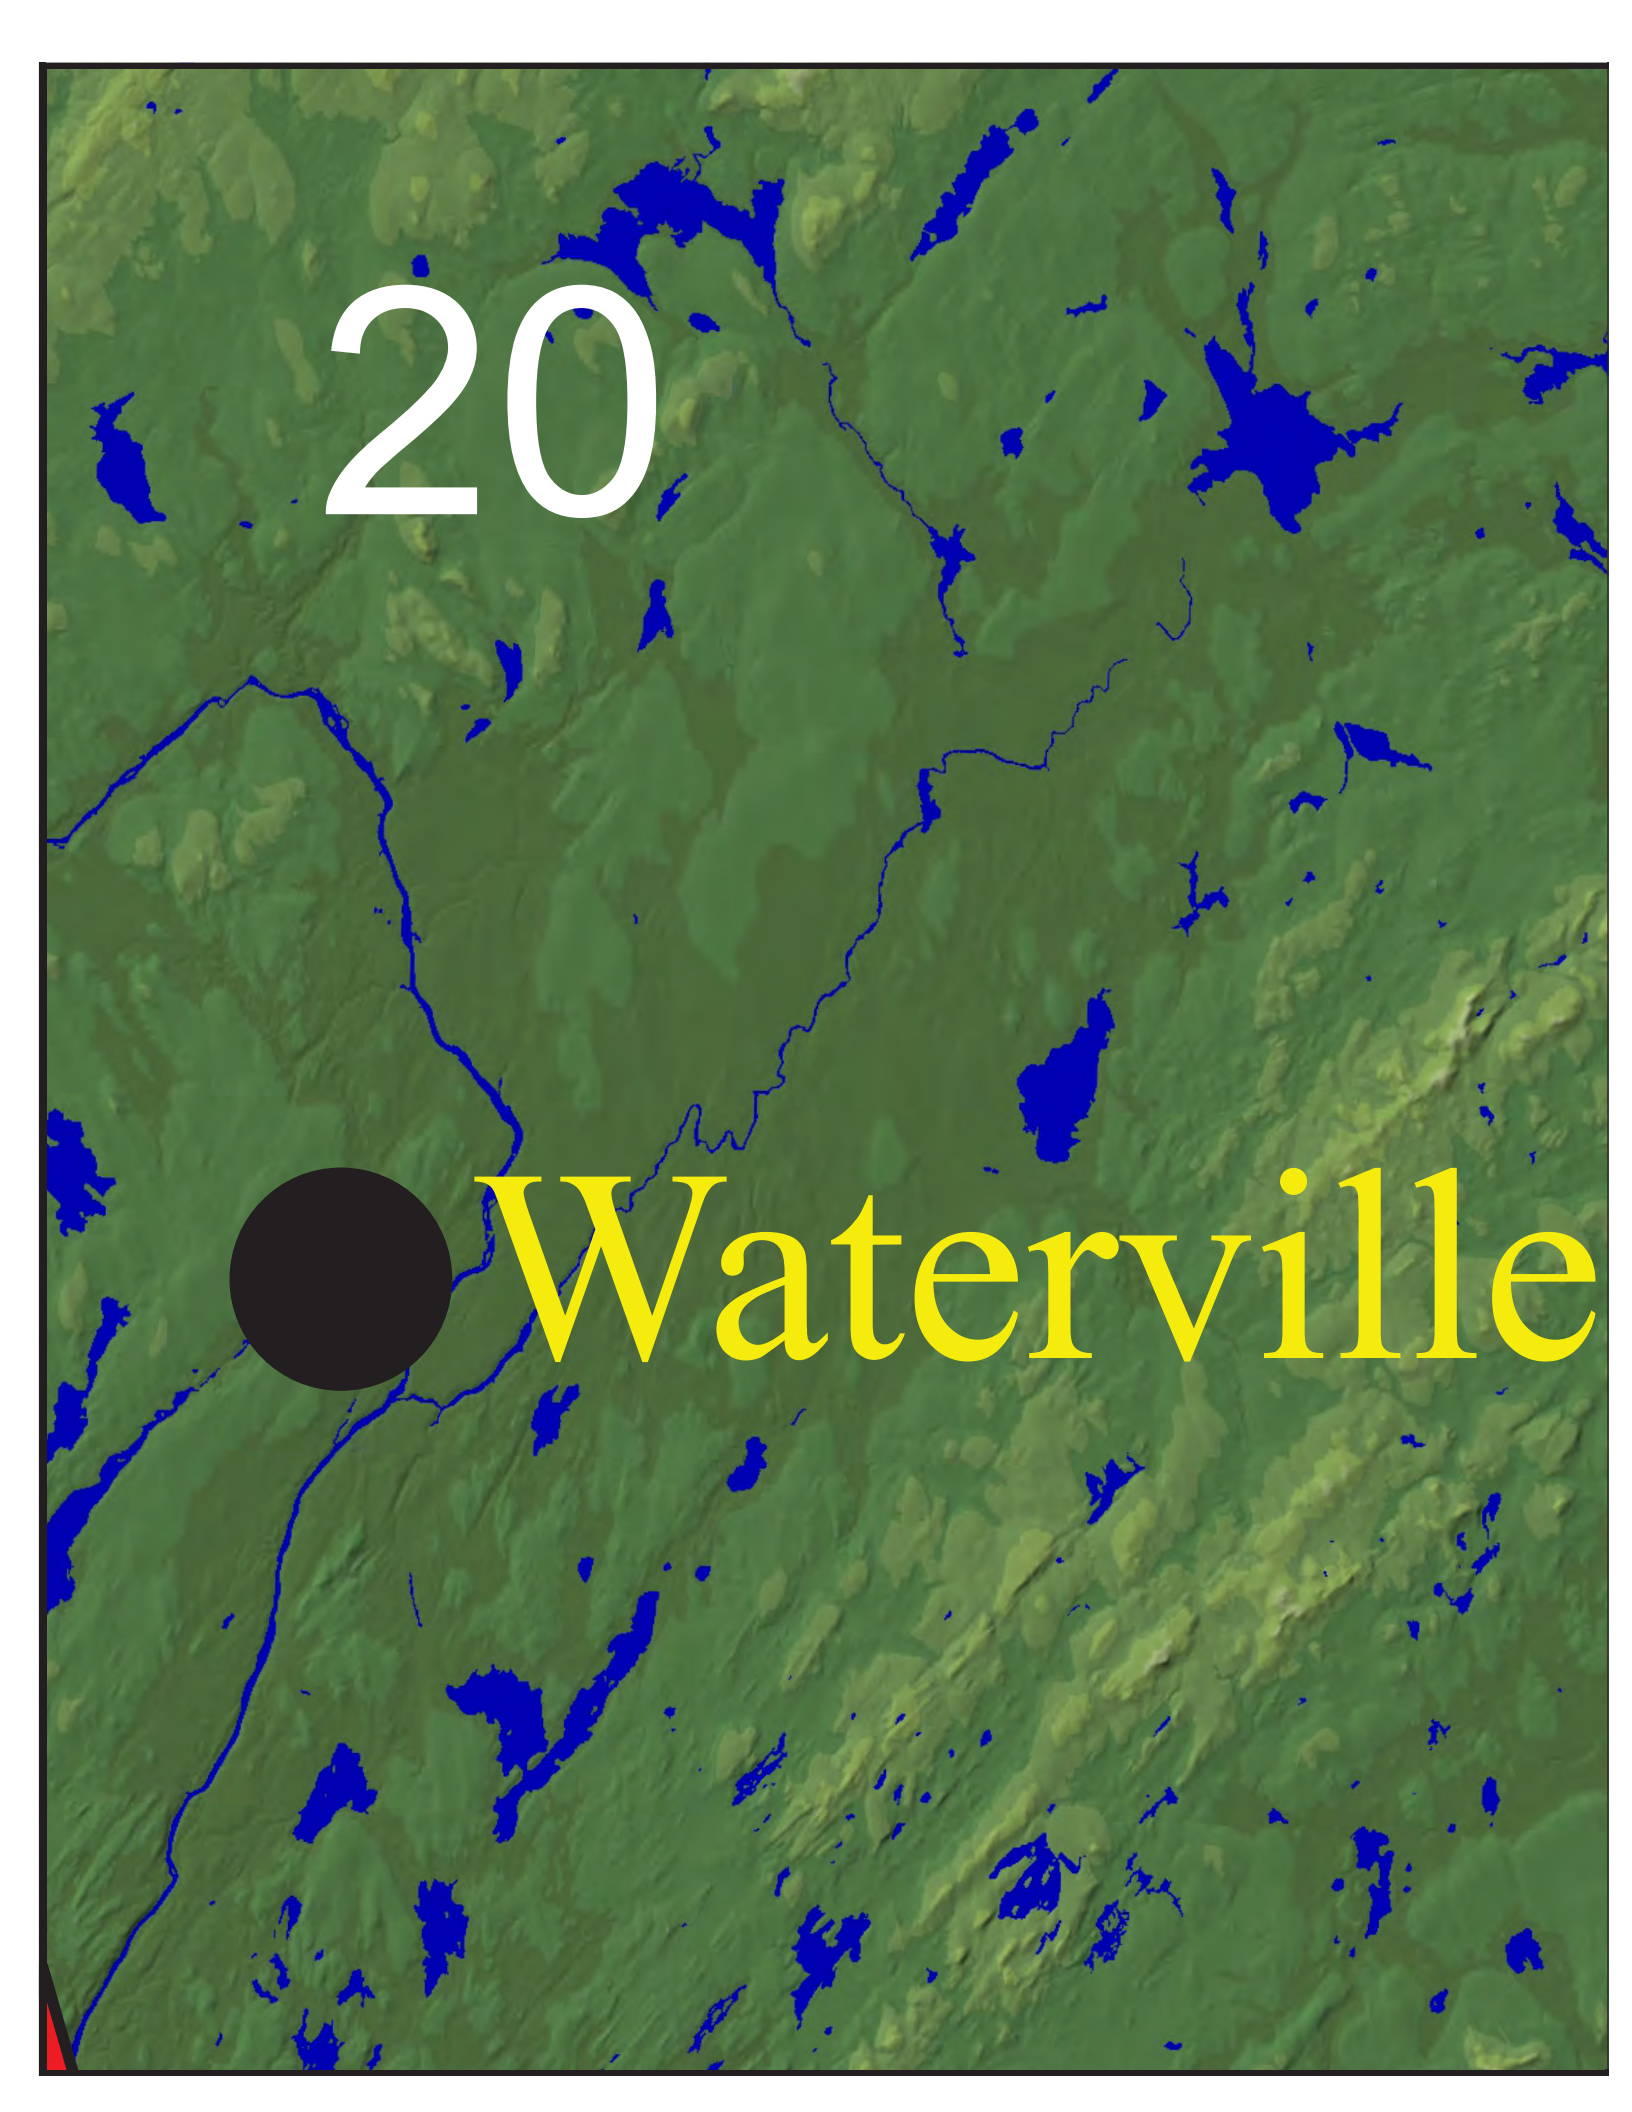

18

19

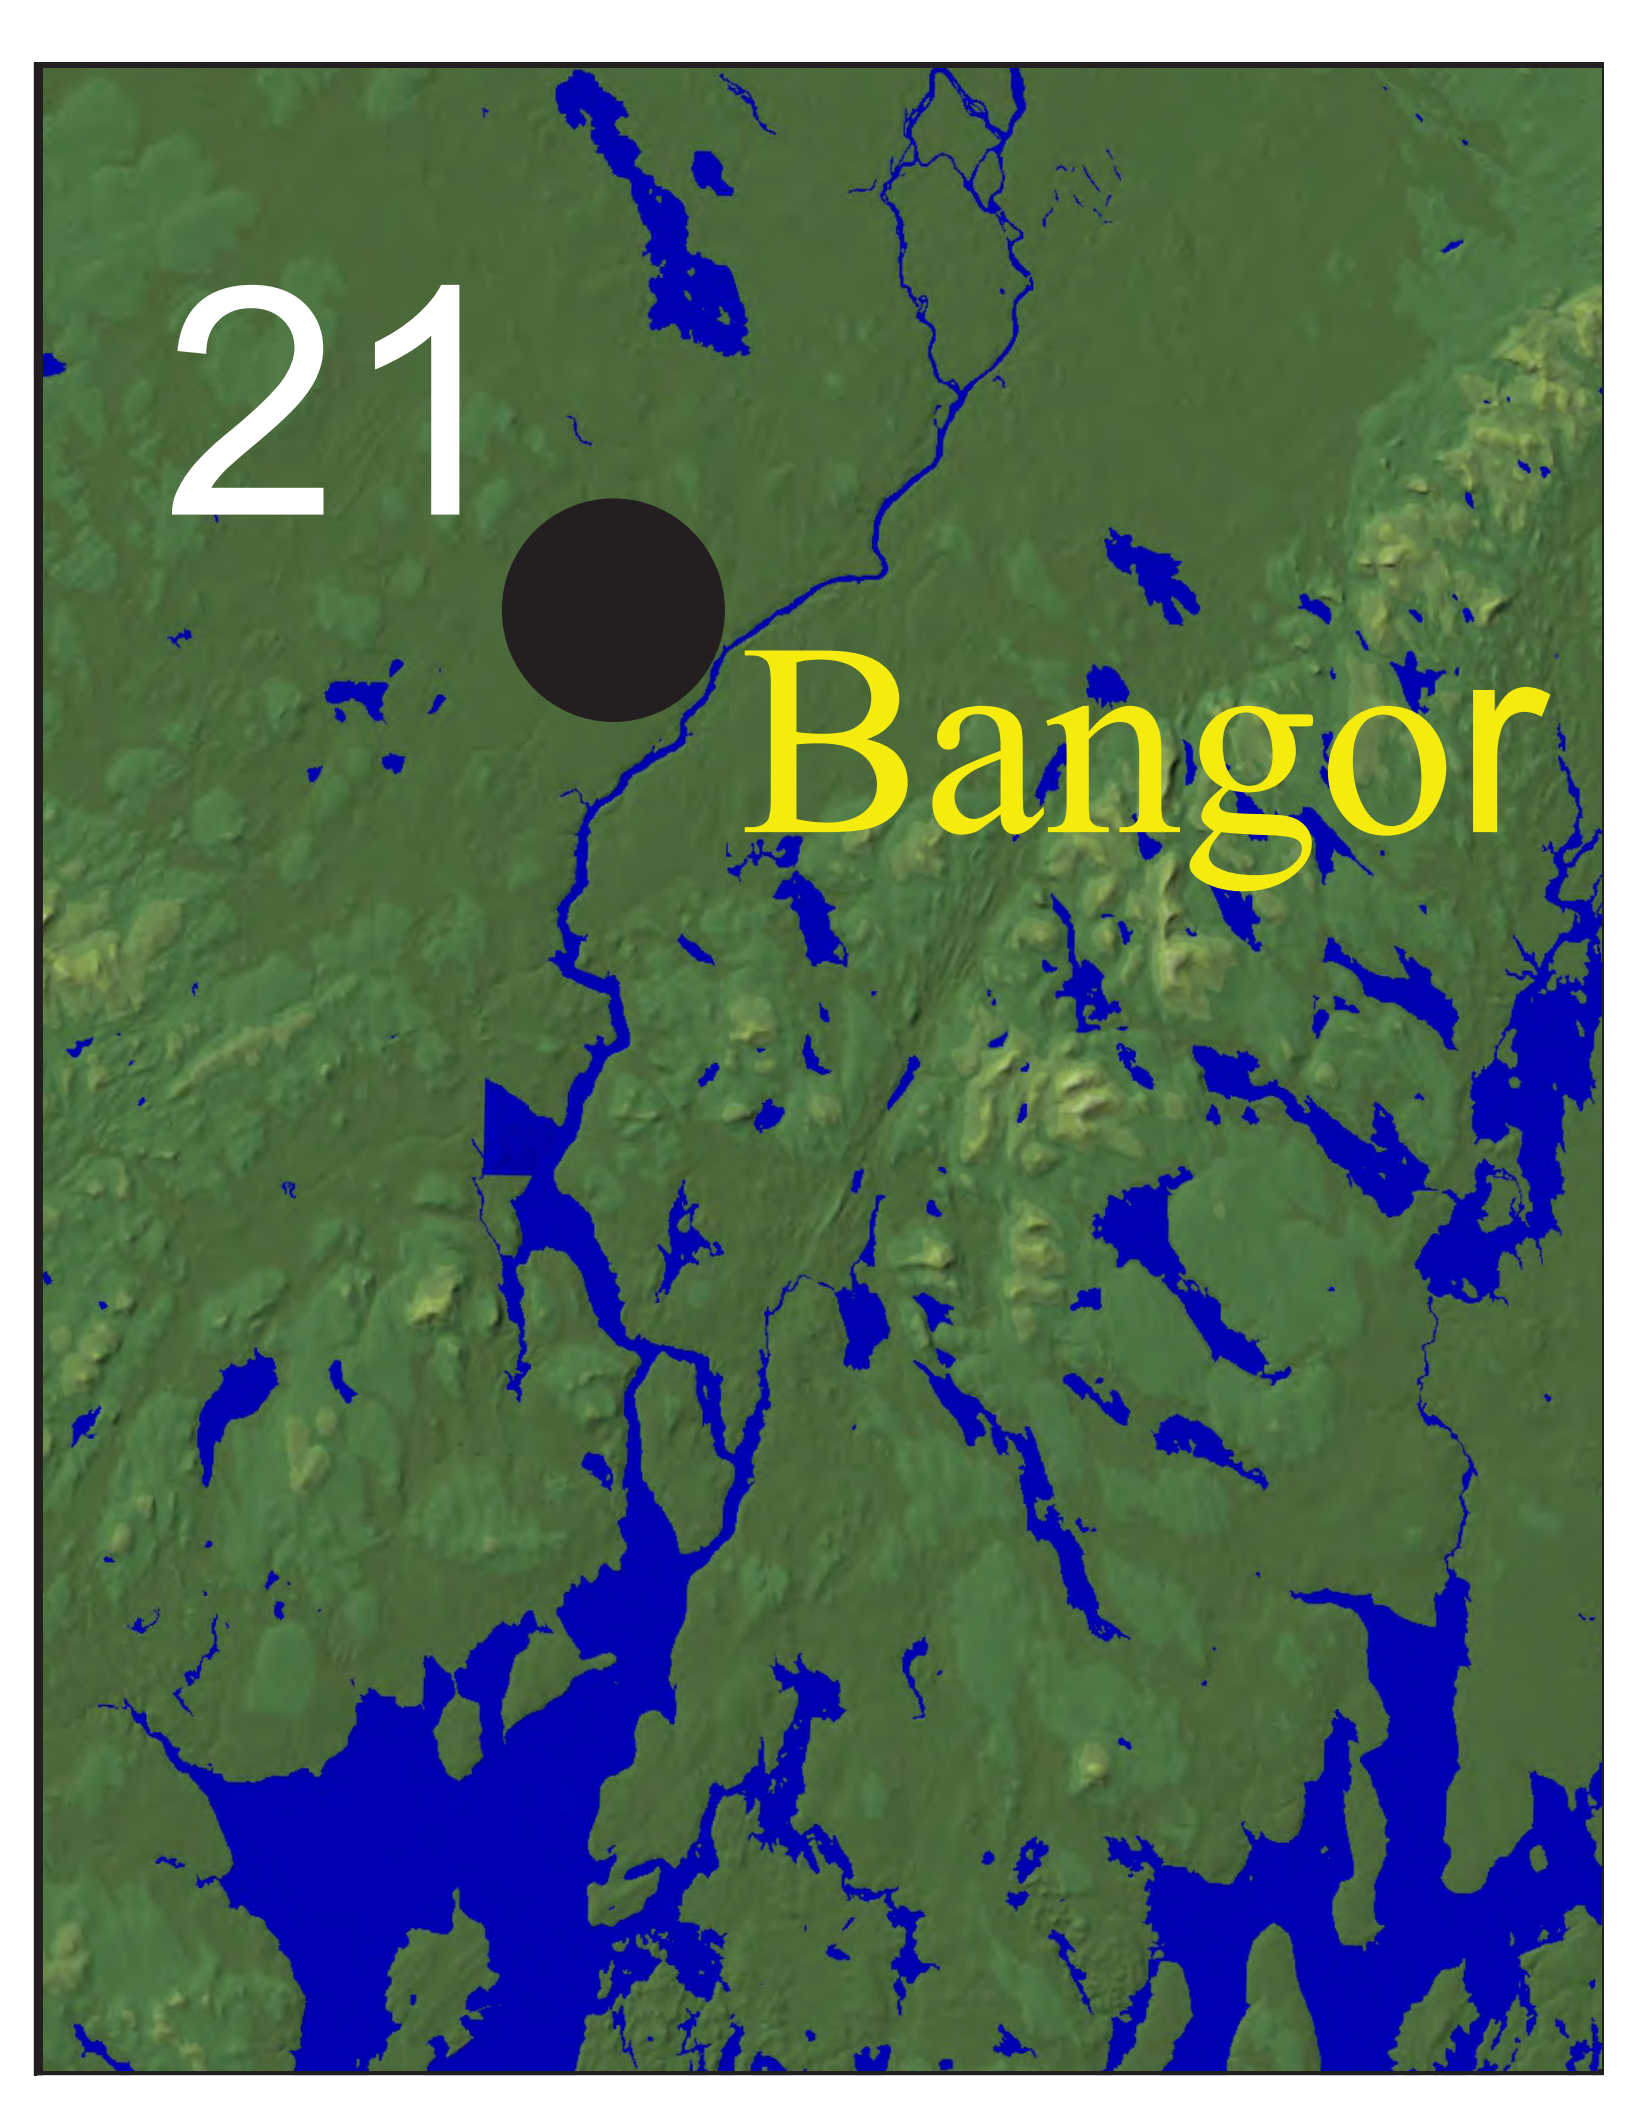

A topographic map of a mountainous region, likely in the Adirondacks. The map uses a color gradient where darker greens and blues represent higher elevations and water bodies, while lighter greens and yellows represent lower elevations. A prominent river or stream flows from the upper left towards the bottom left. Numerous smaller lakes and ponds are scattered throughout the landscape.

20

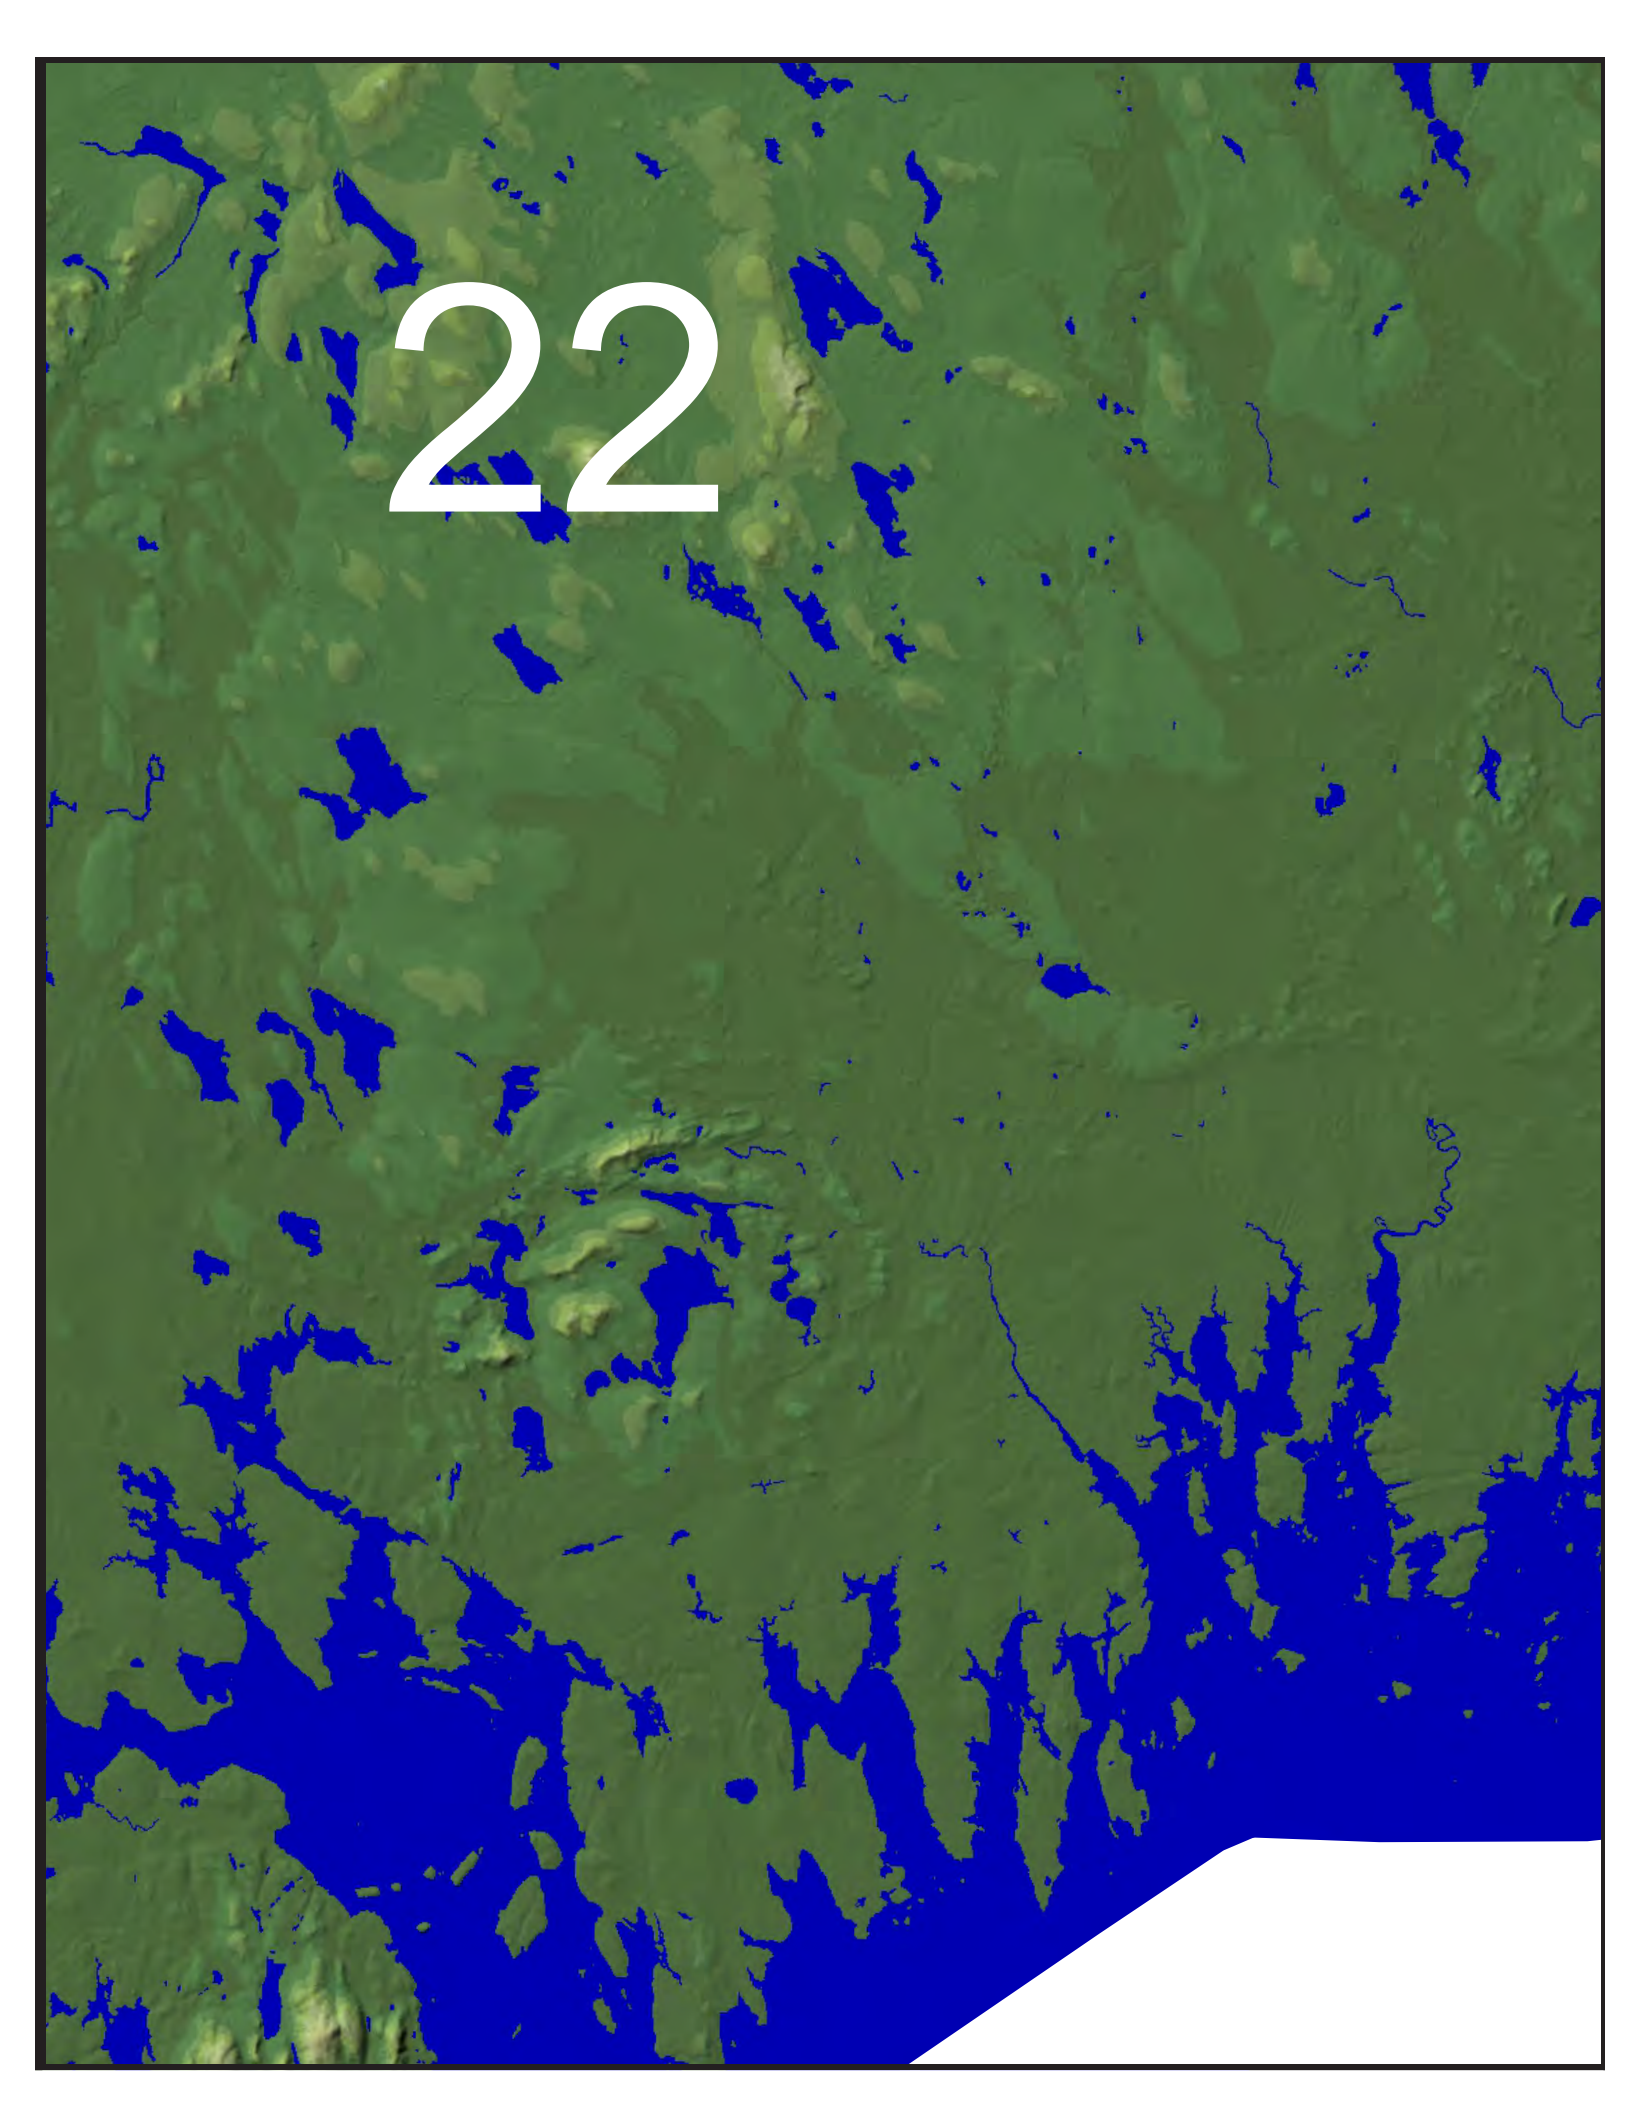

Waterville

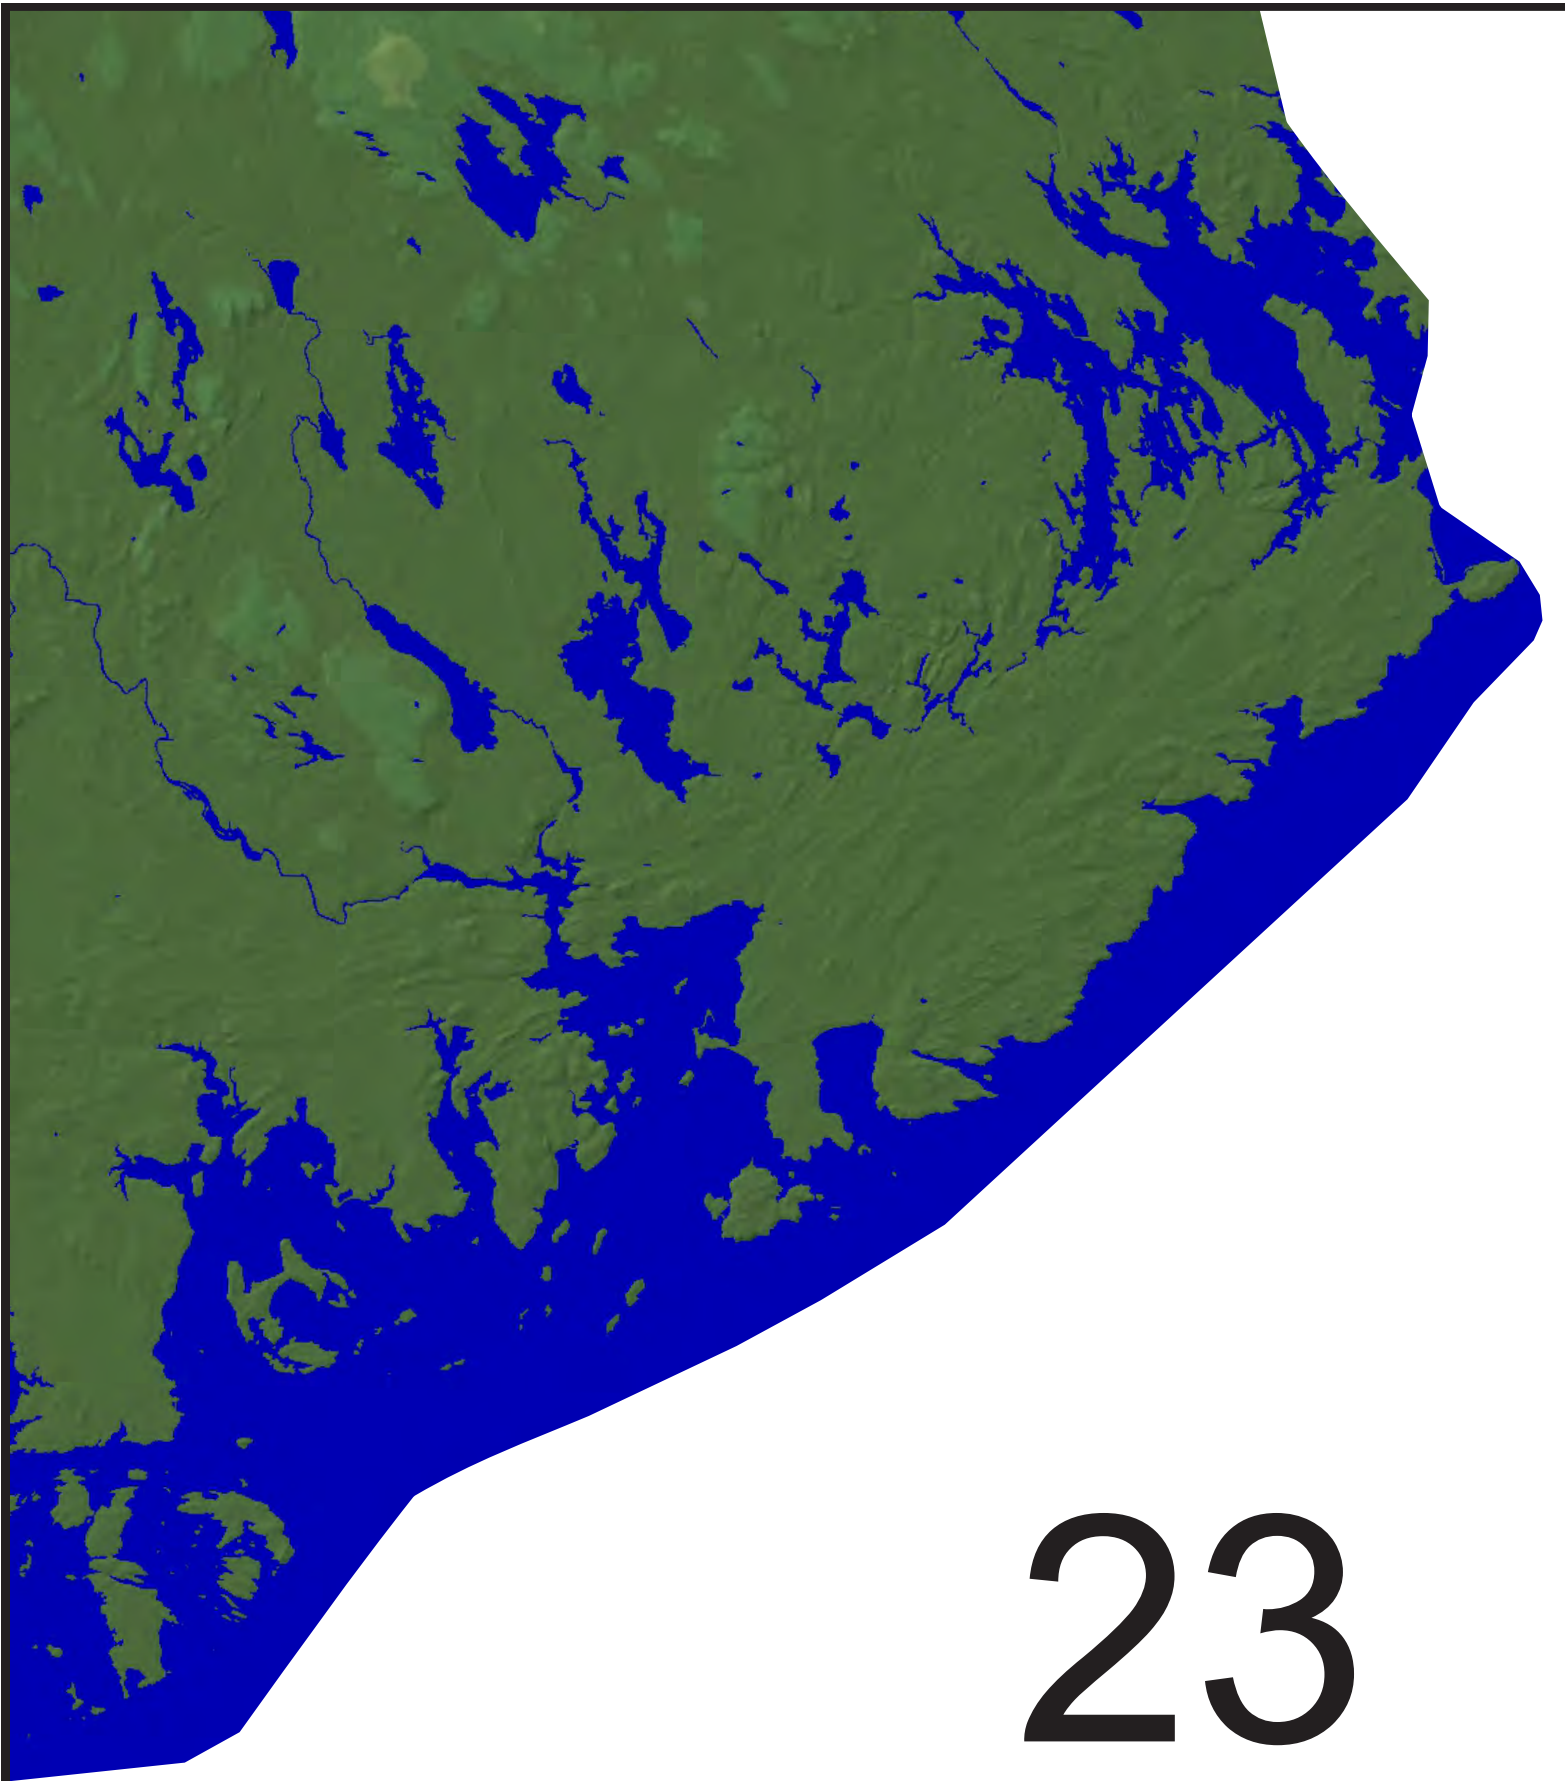

A topographic map of a region, likely in the Pacific Northwest, showing a river and its tributaries. The map uses a color gradient from green to brown to represent elevation. A large black dot is placed on the river, and a yellow triangle is located further downstream. The number '21' is in the top left, and the word 'Bangor' is in the center right.

21

Bangor

An aerial photograph of a coastal region, likely in the Pacific Northwest, showing a complex network of fjords, inlets, and islands. The land is covered in dense green forest, and the water is a deep blue. A large, white, serif number '22' is overlaid in the upper left quadrant of the image. The bottom right corner of the image is cut off by a white diagonal line, suggesting it's a page from a book or document.

26

27

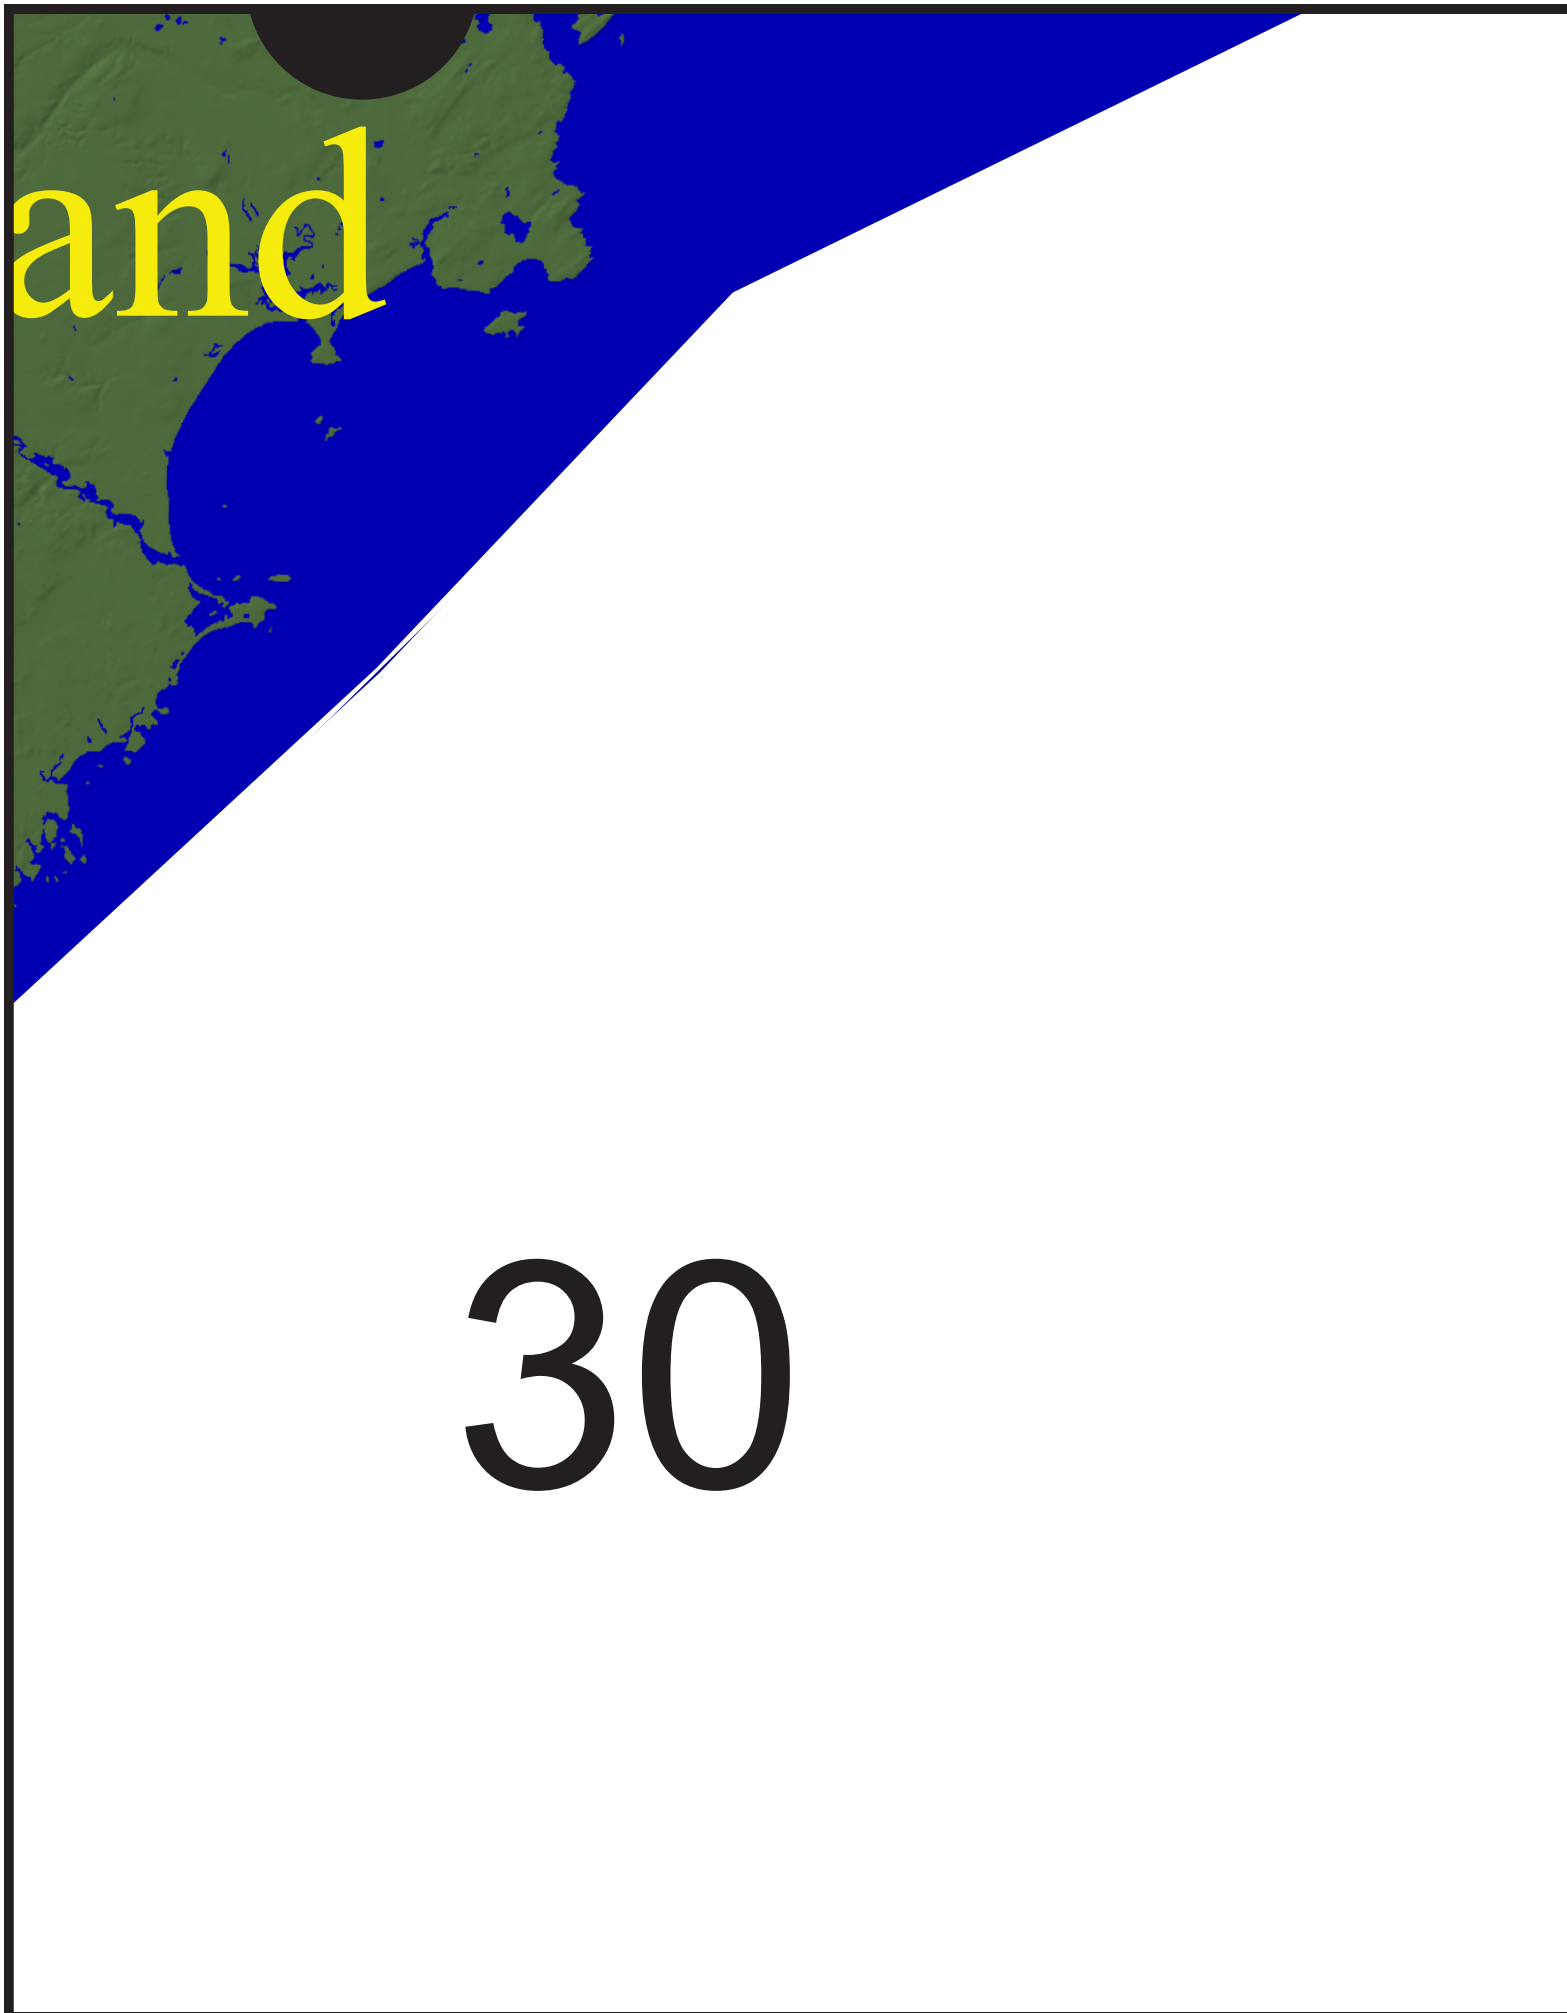

28

A topographic map of a region, likely a coastal area, showing green terrain with various shades of green and blue water bodies. The map is framed by a black border. The text 'Portl' is written in yellow in the upper right, and '29' is written in black in the lower left. A small number '23' is visible near the coastline.

29

23

and

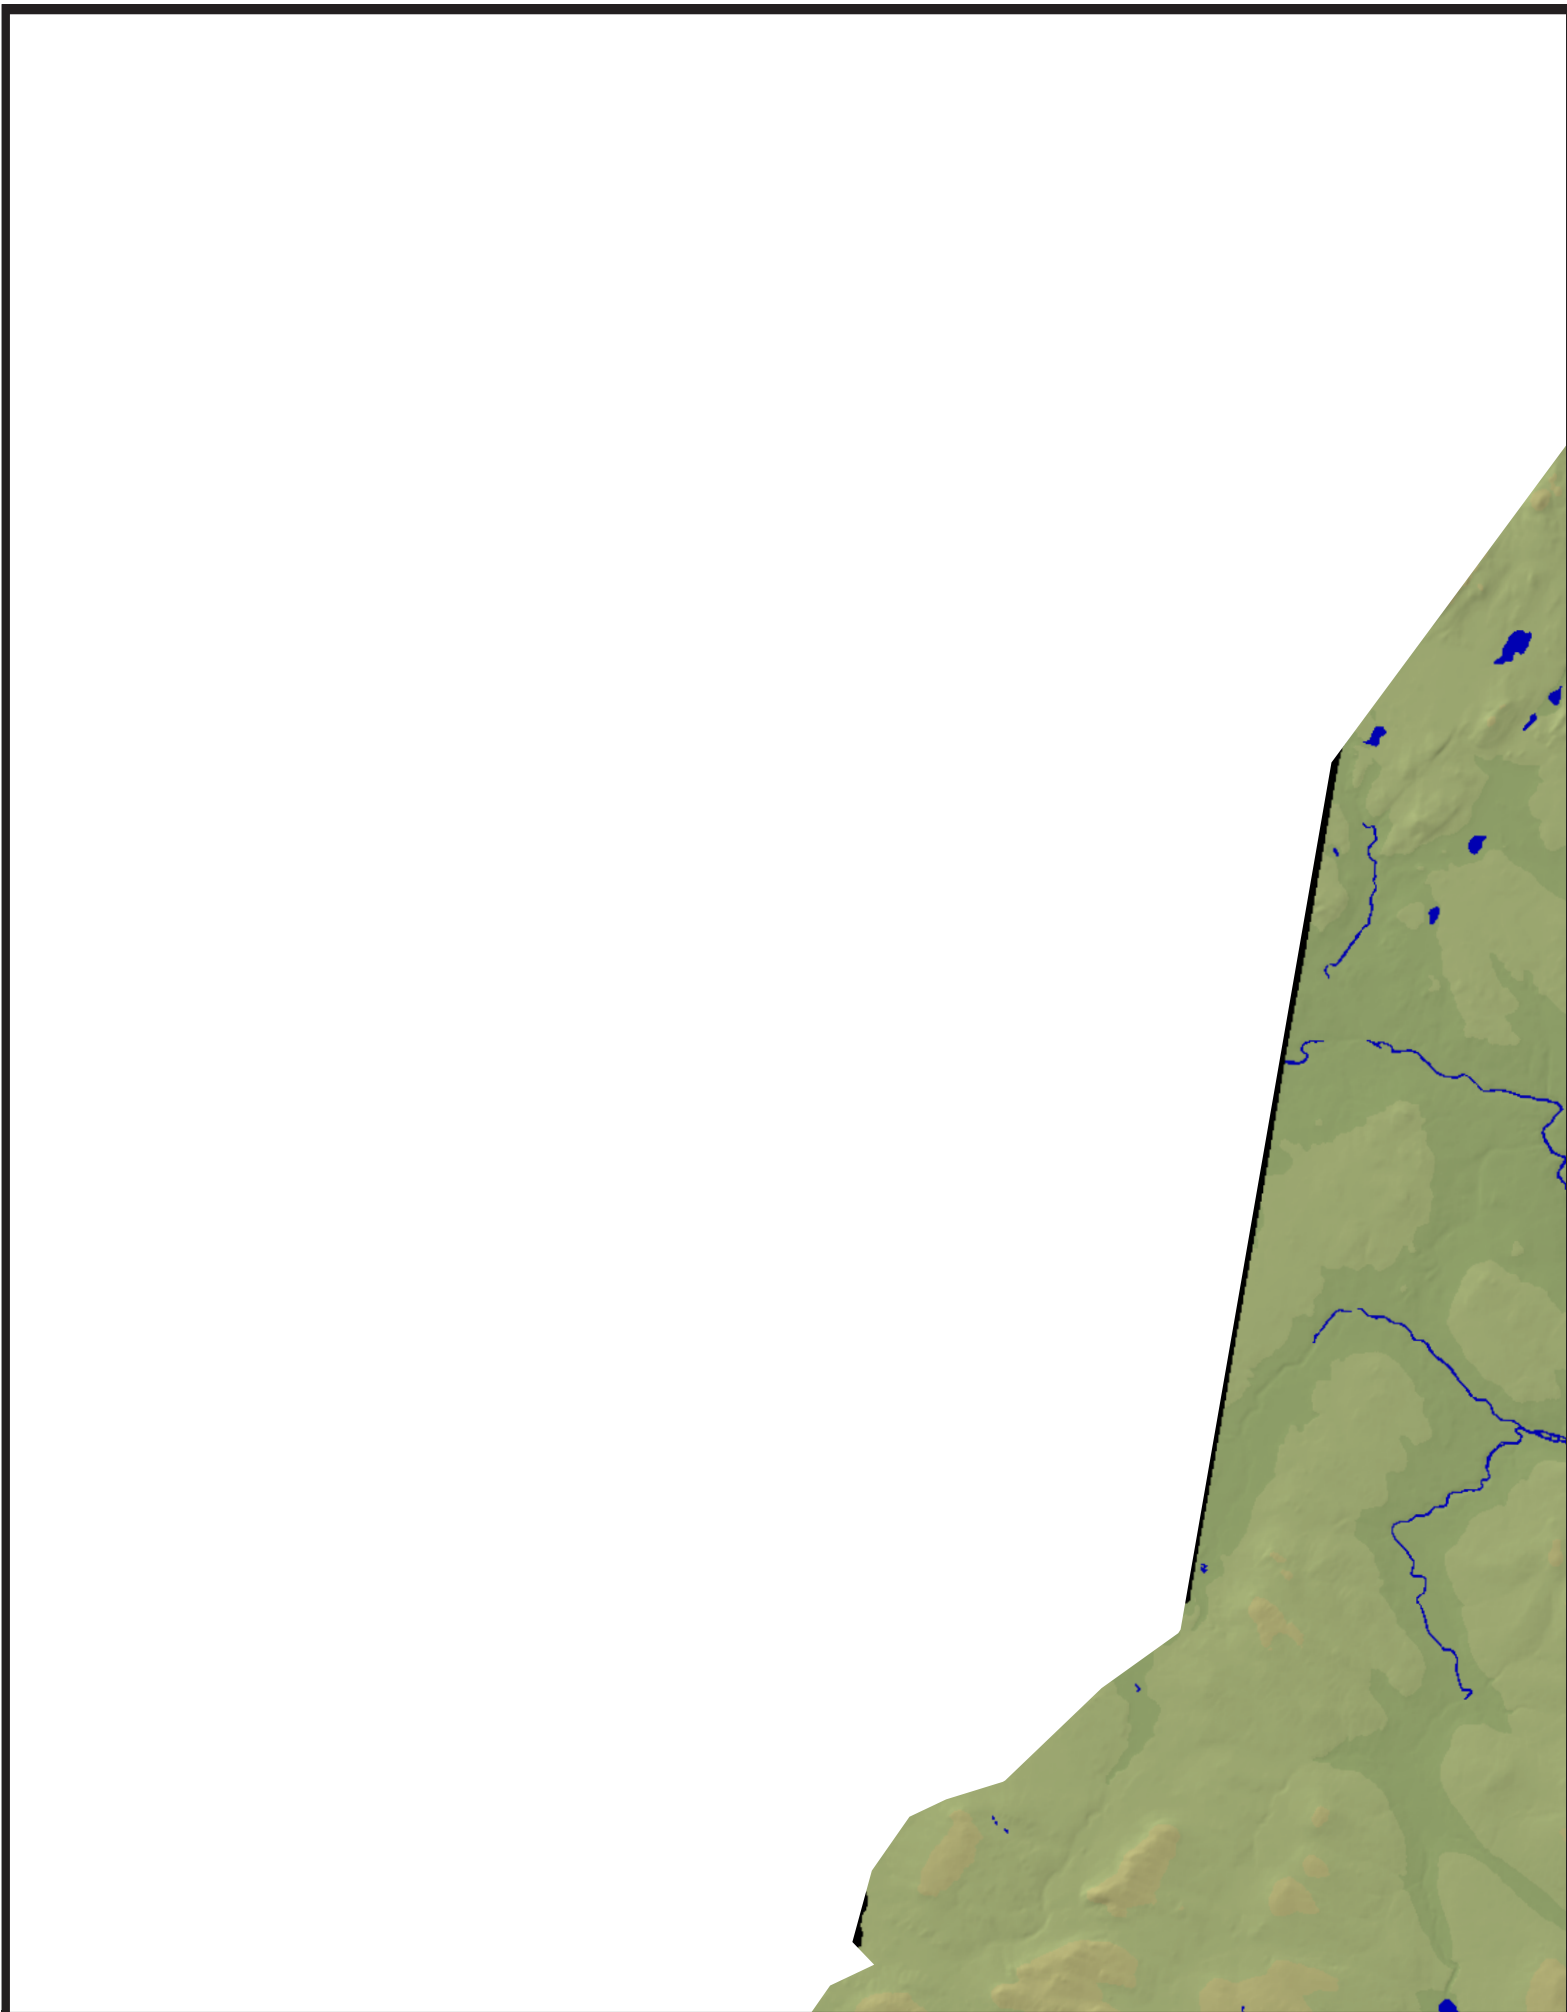

30

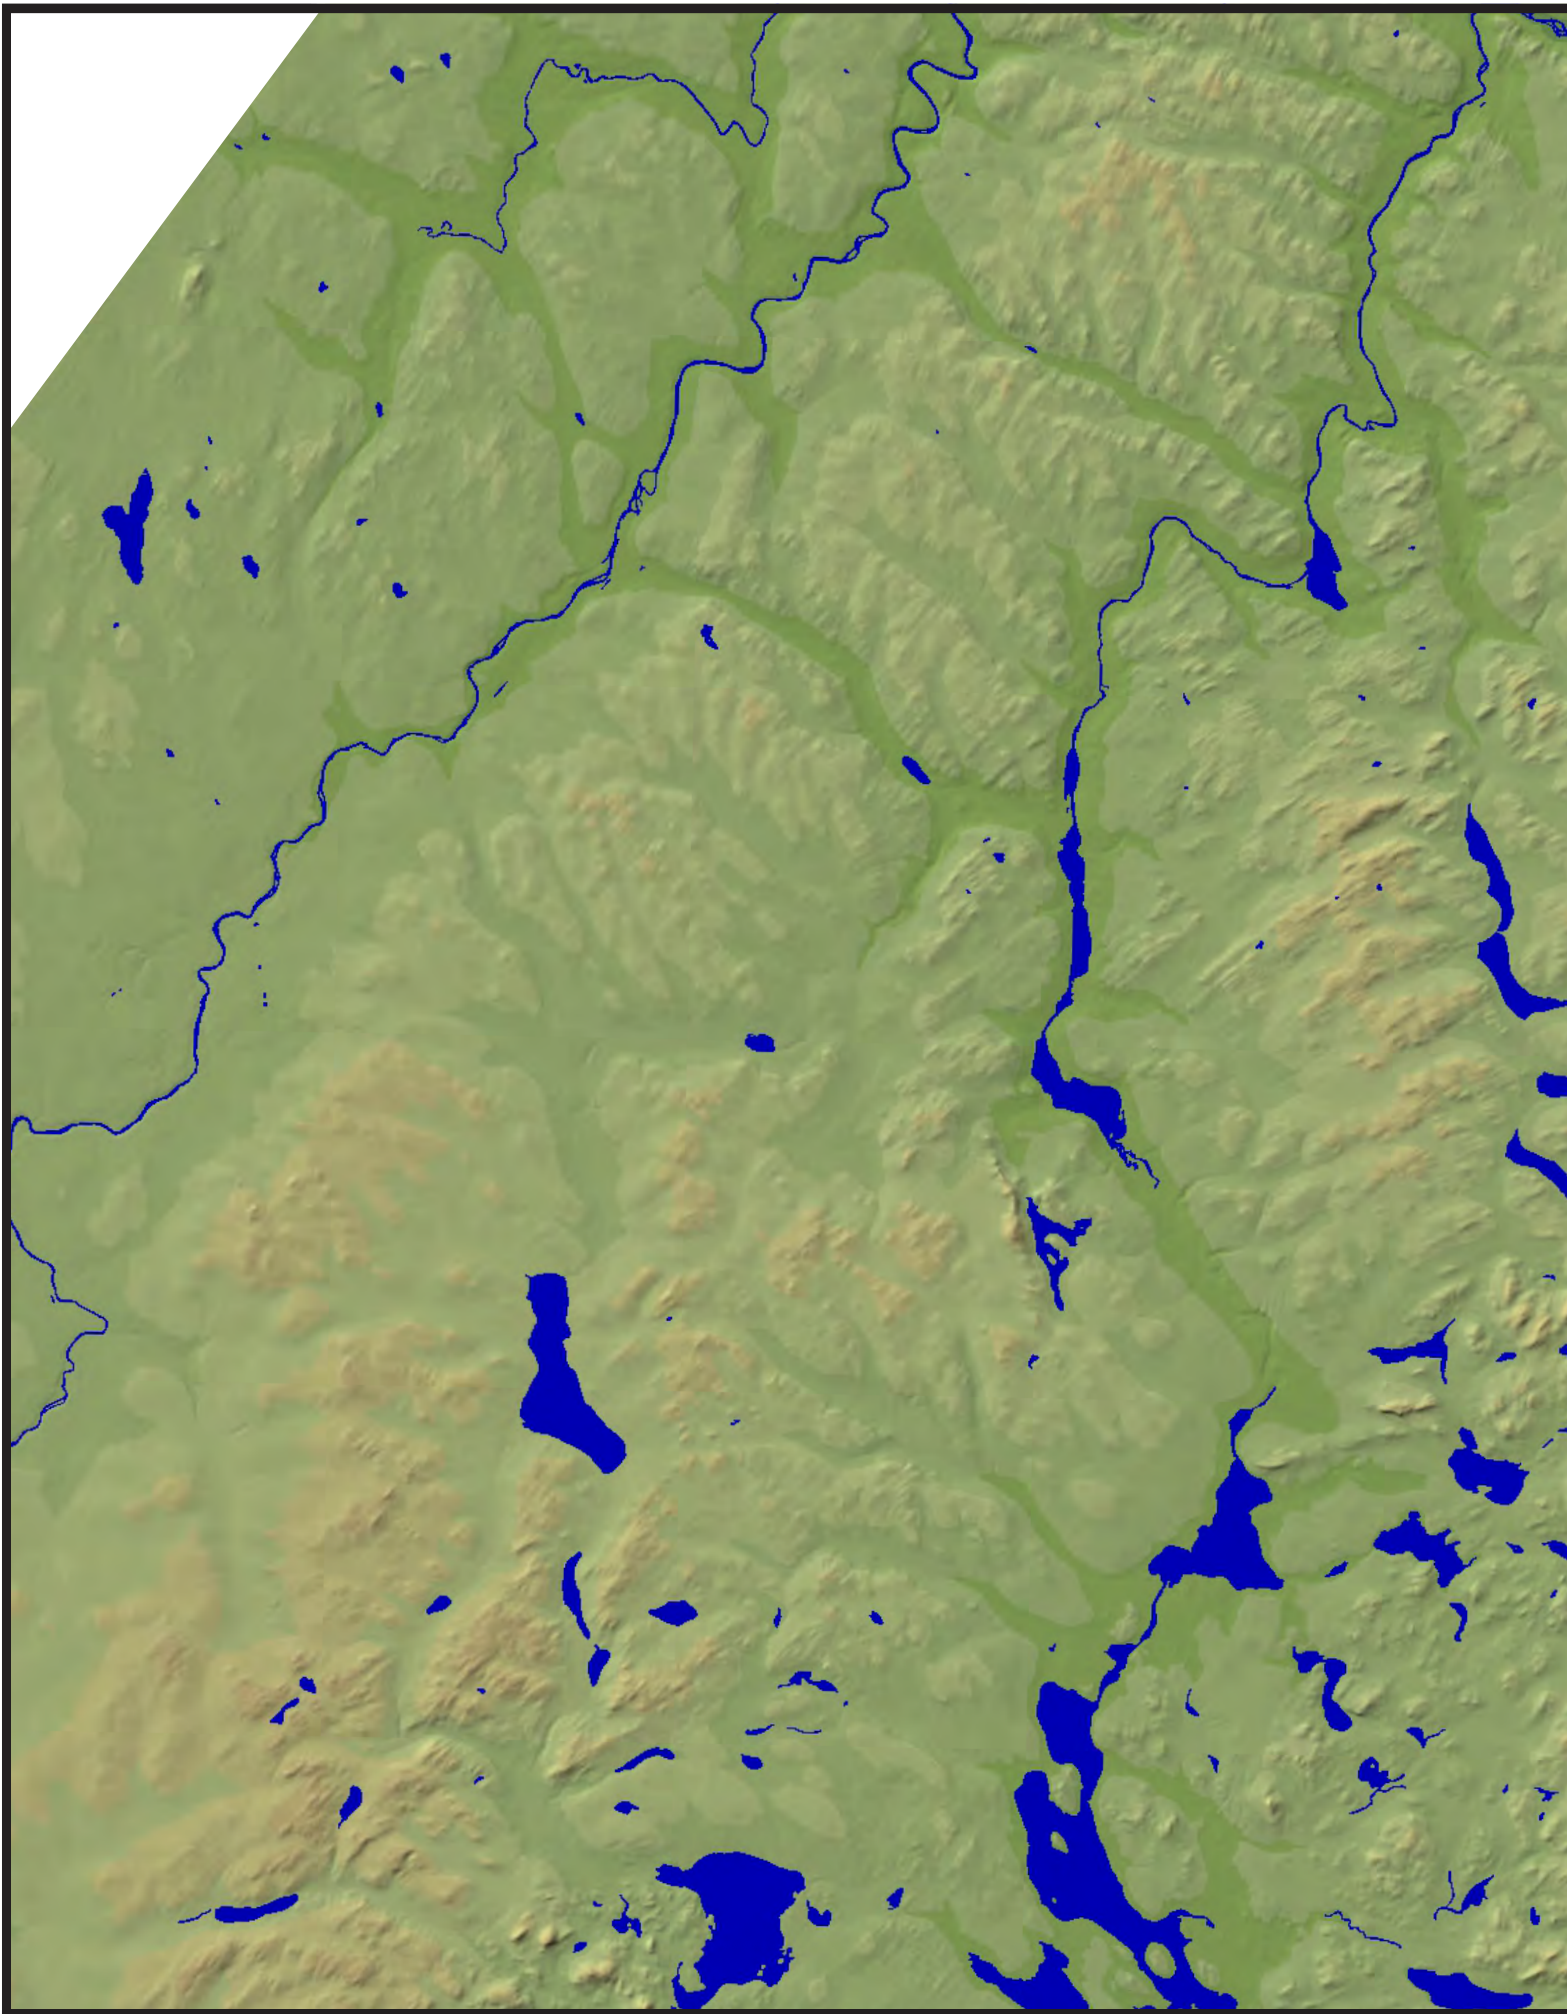

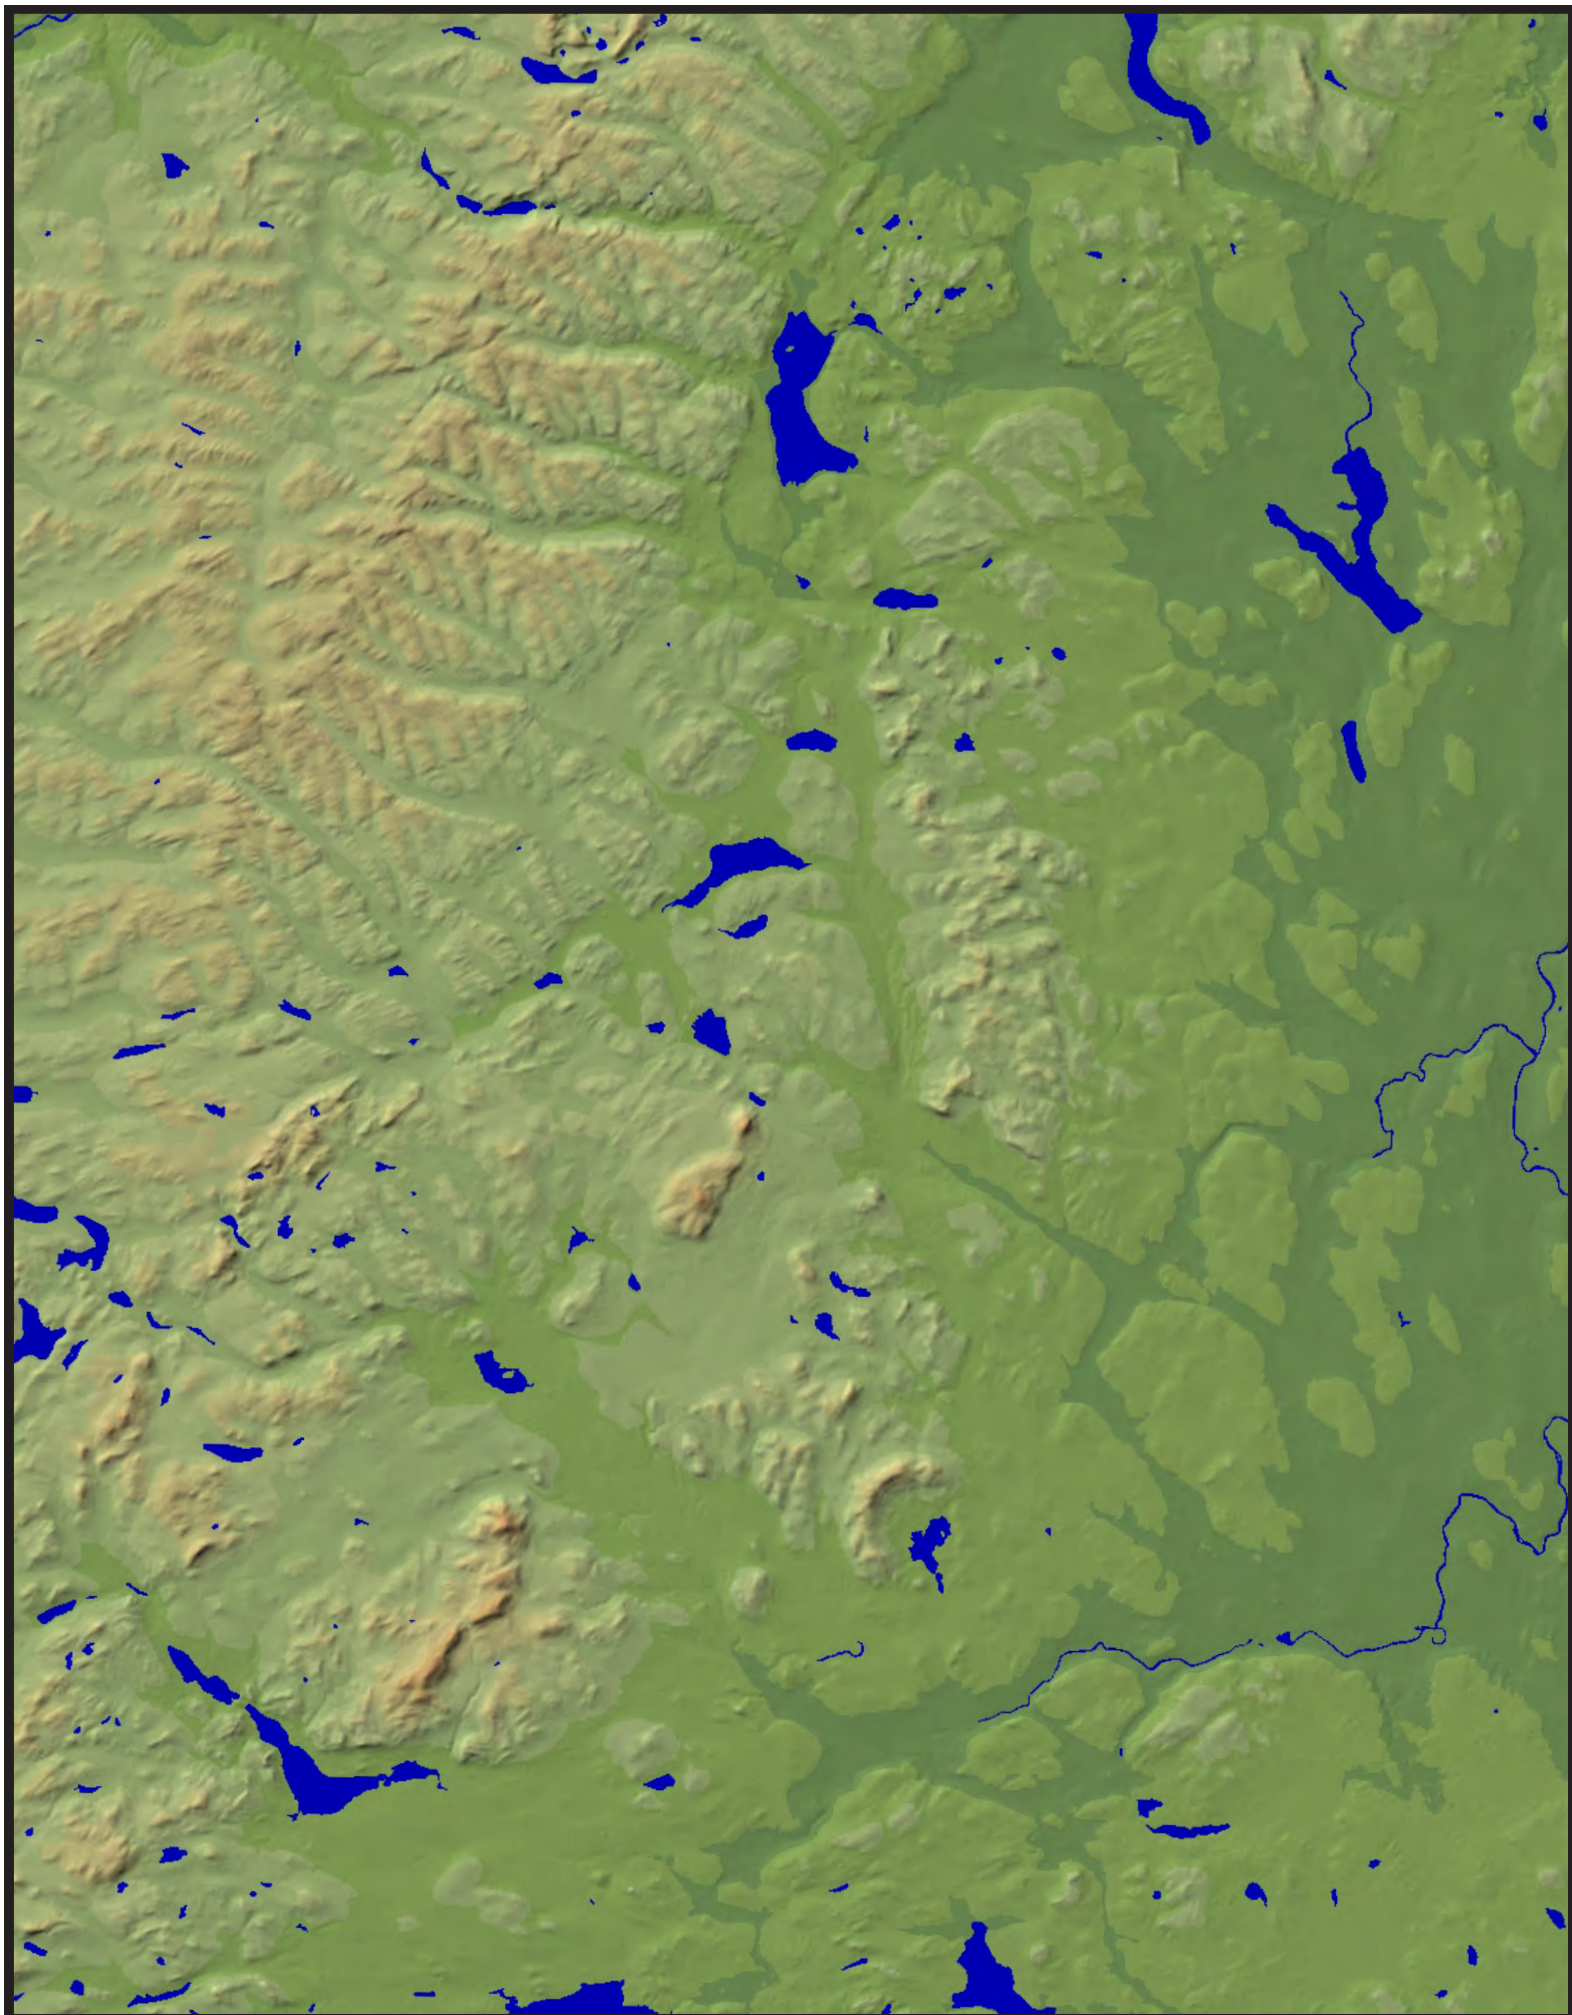

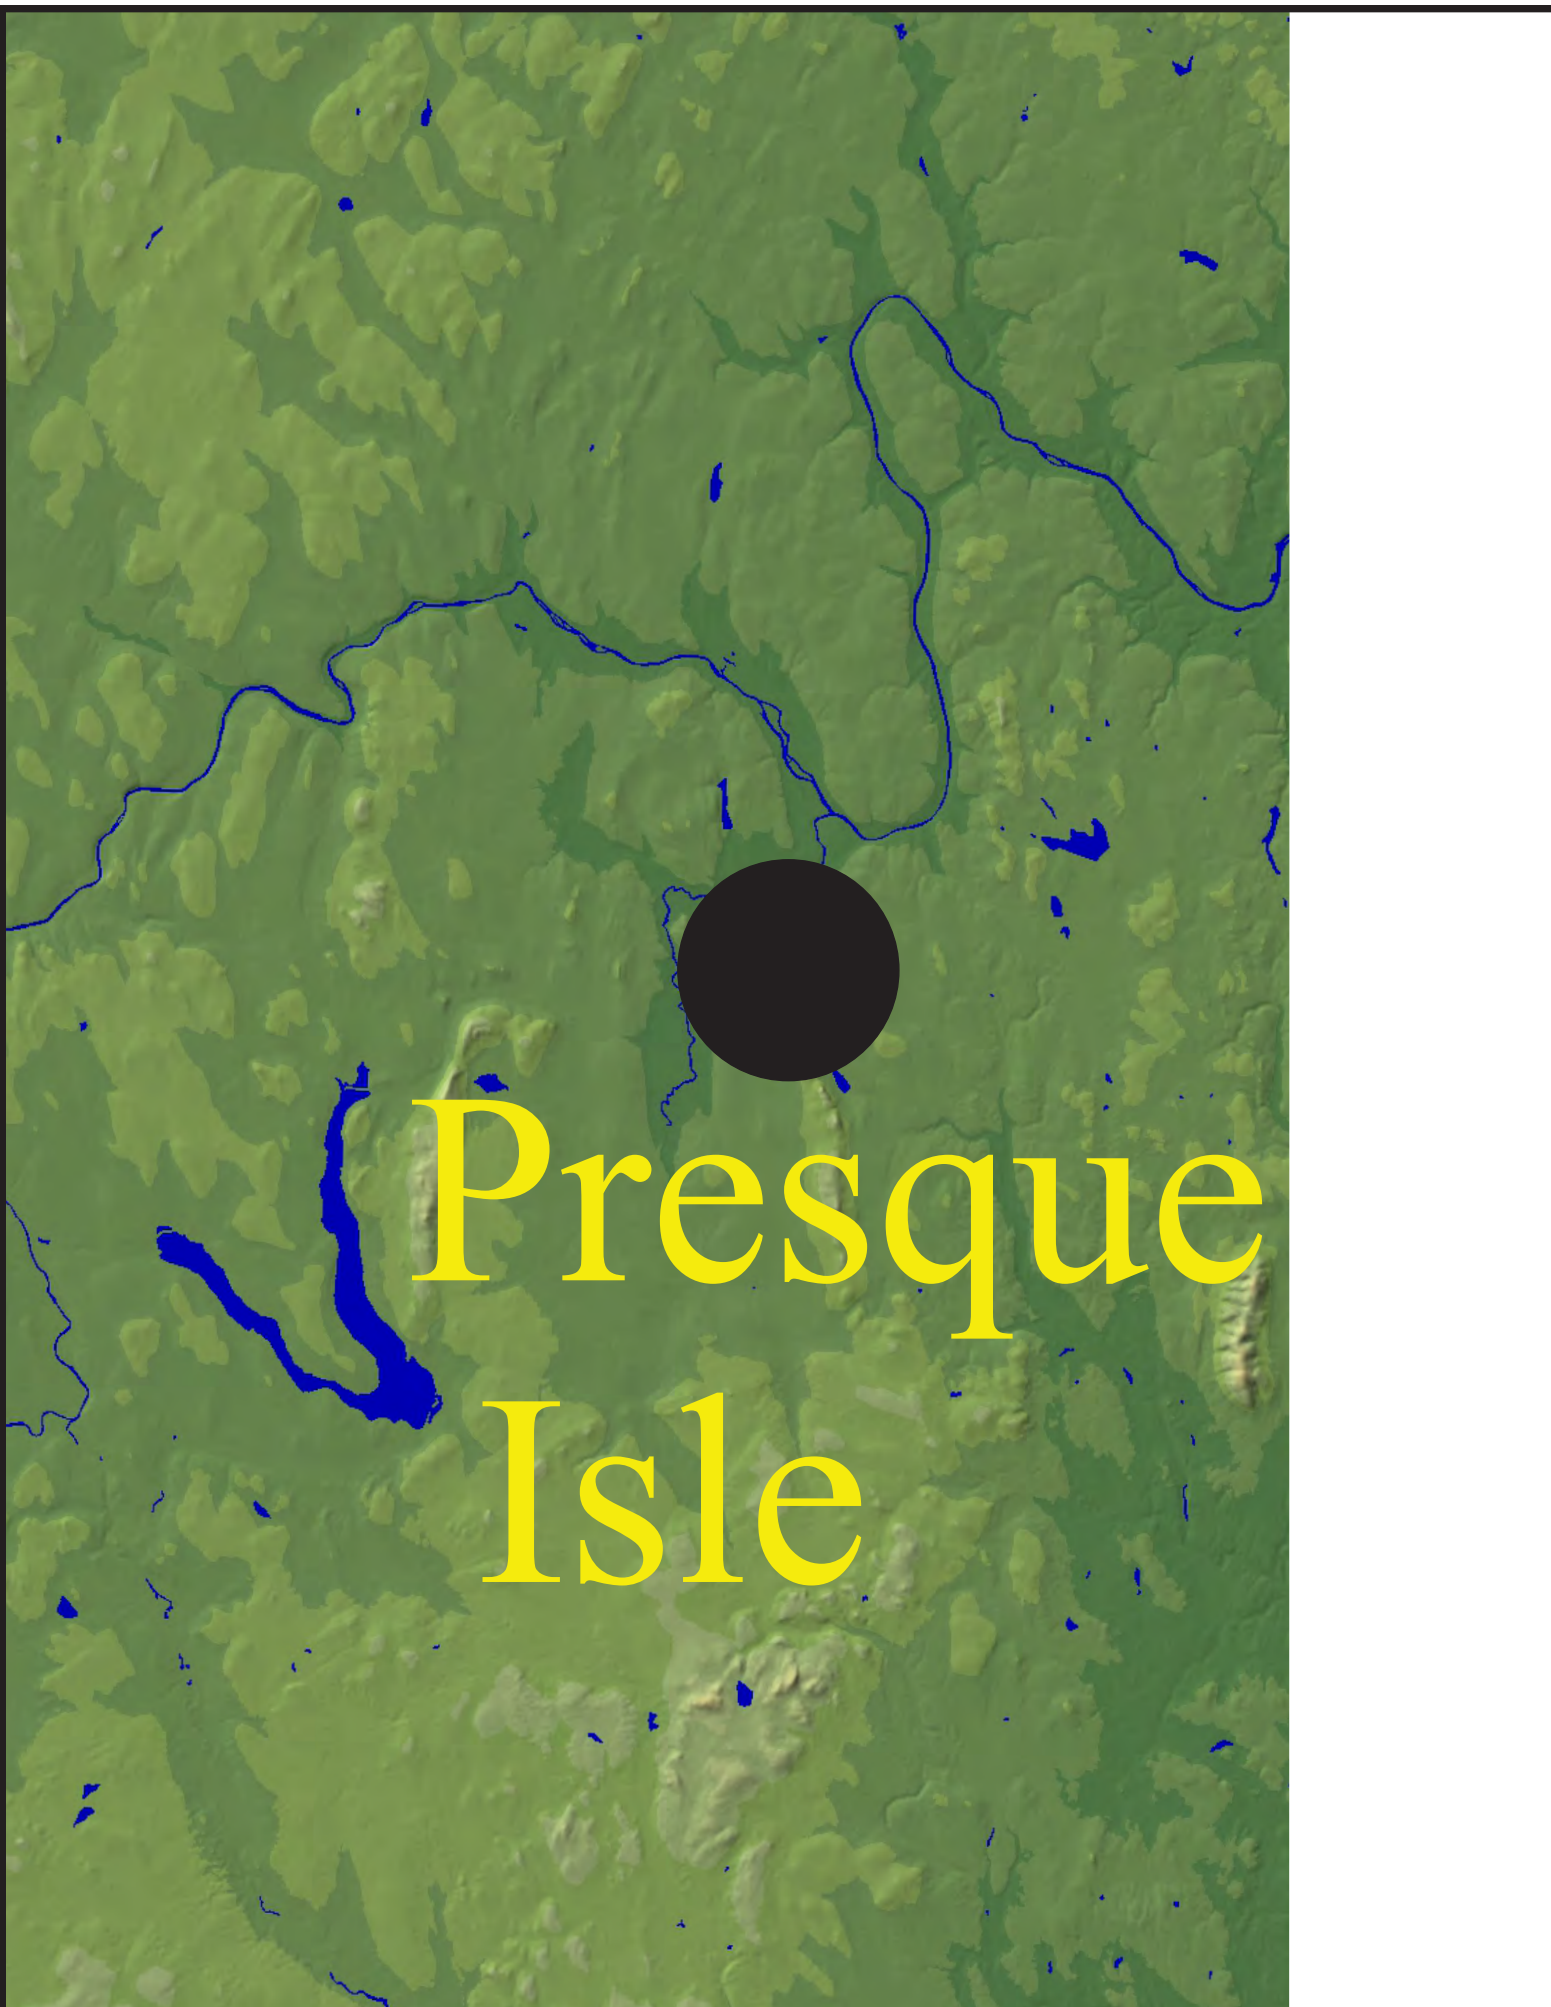

North Kent

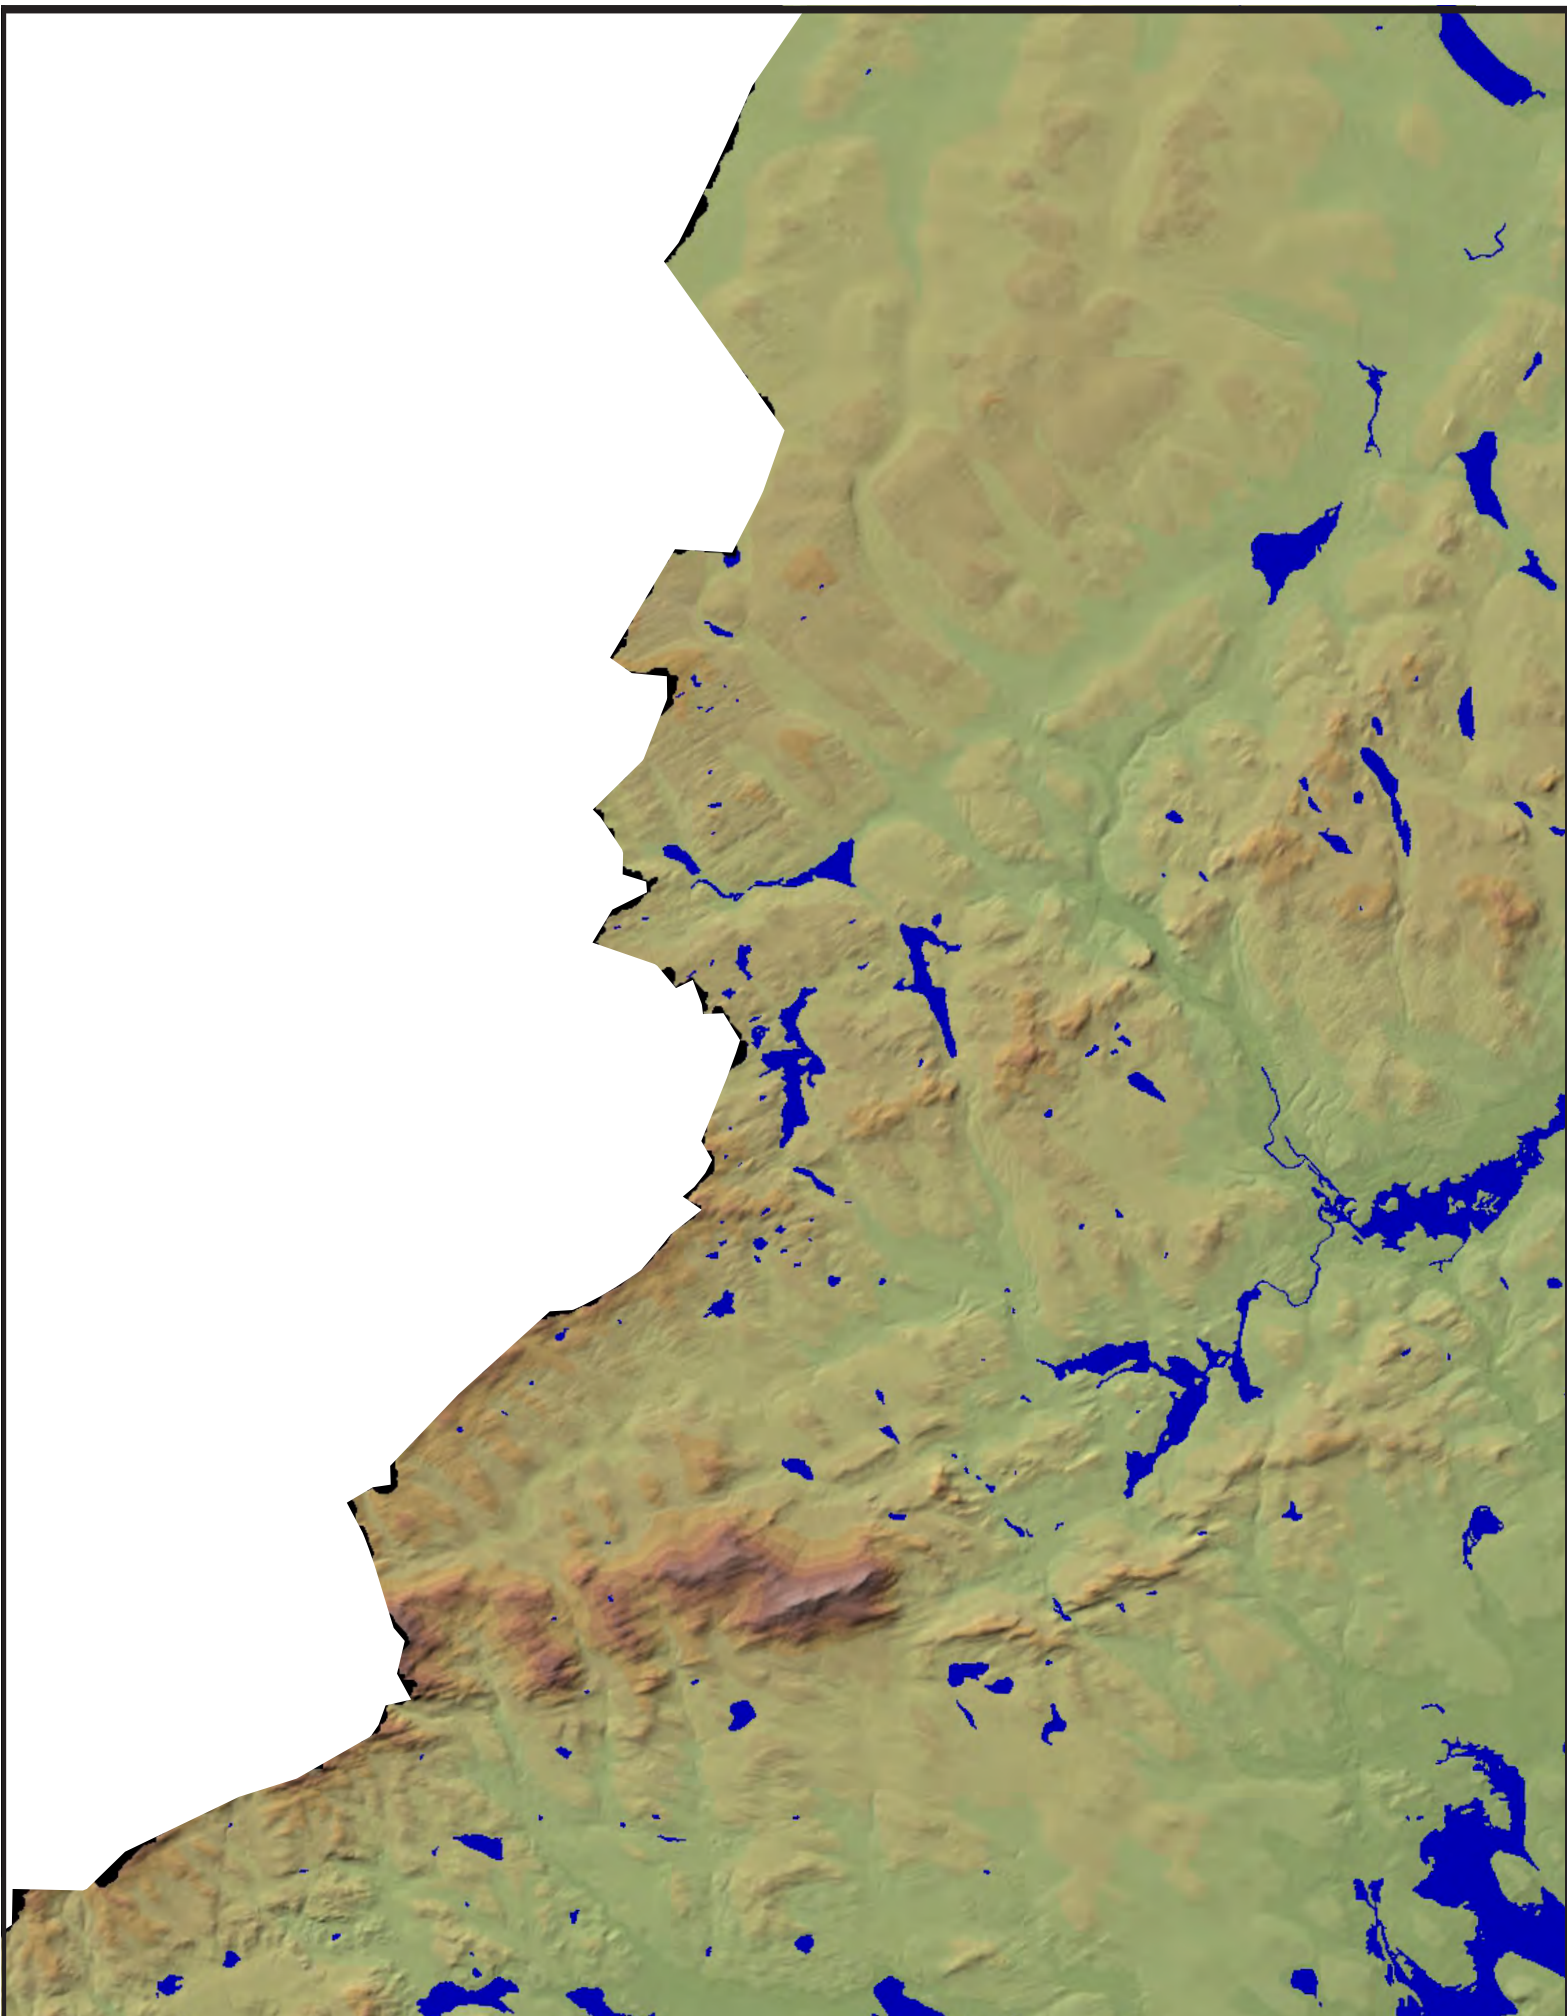

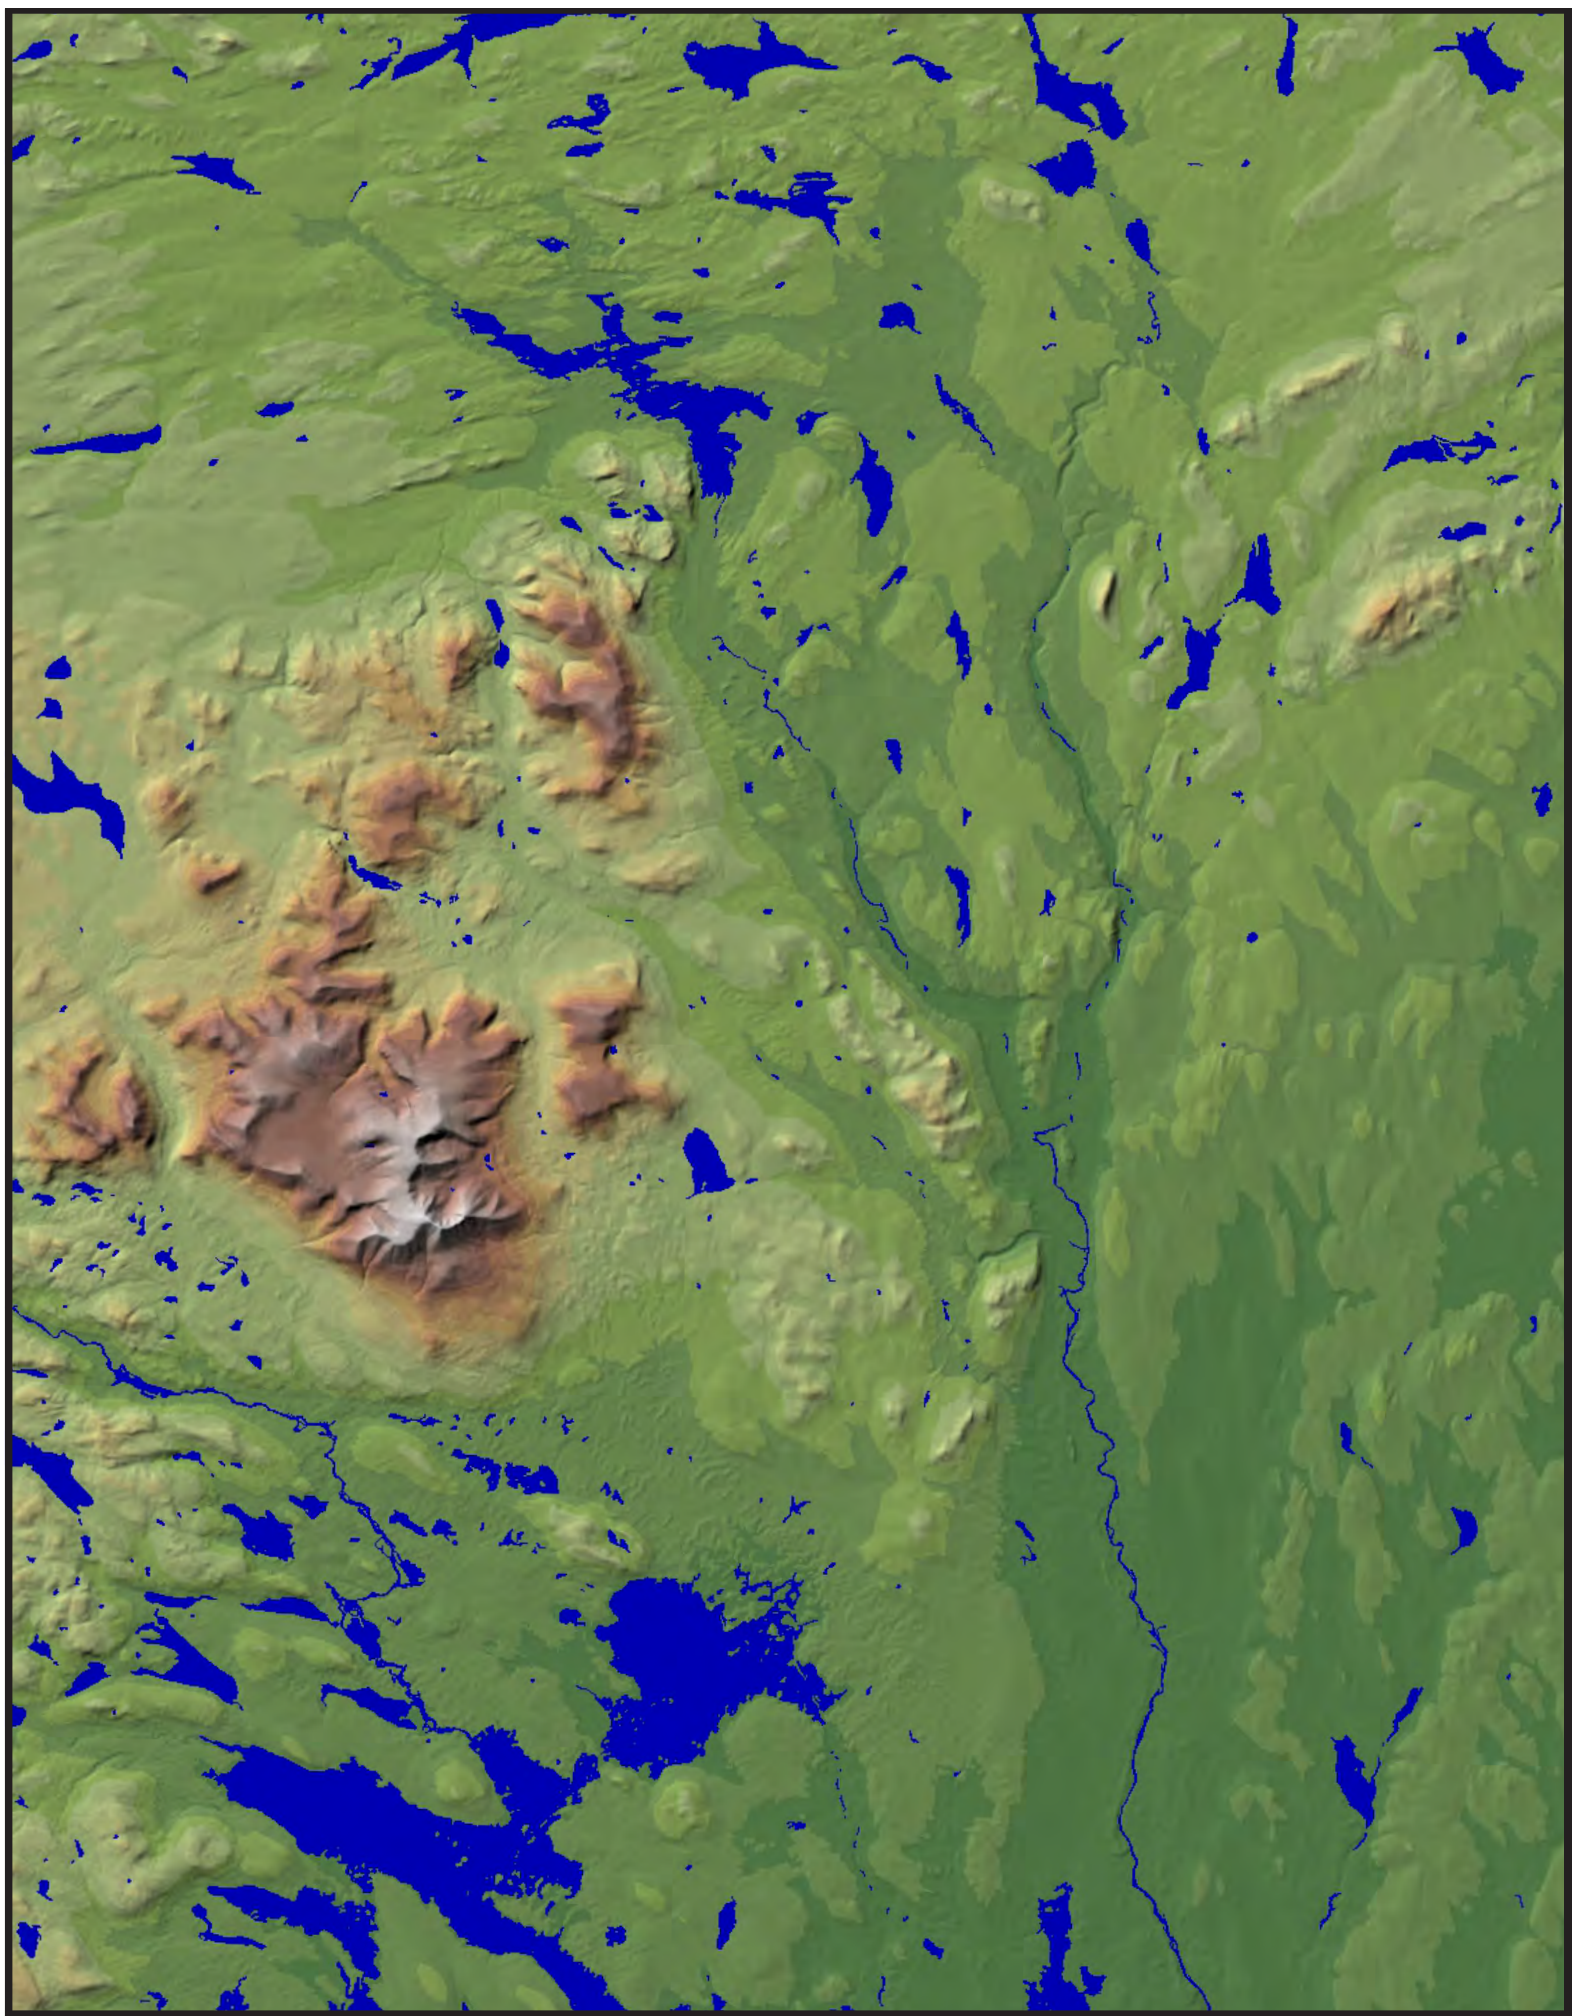

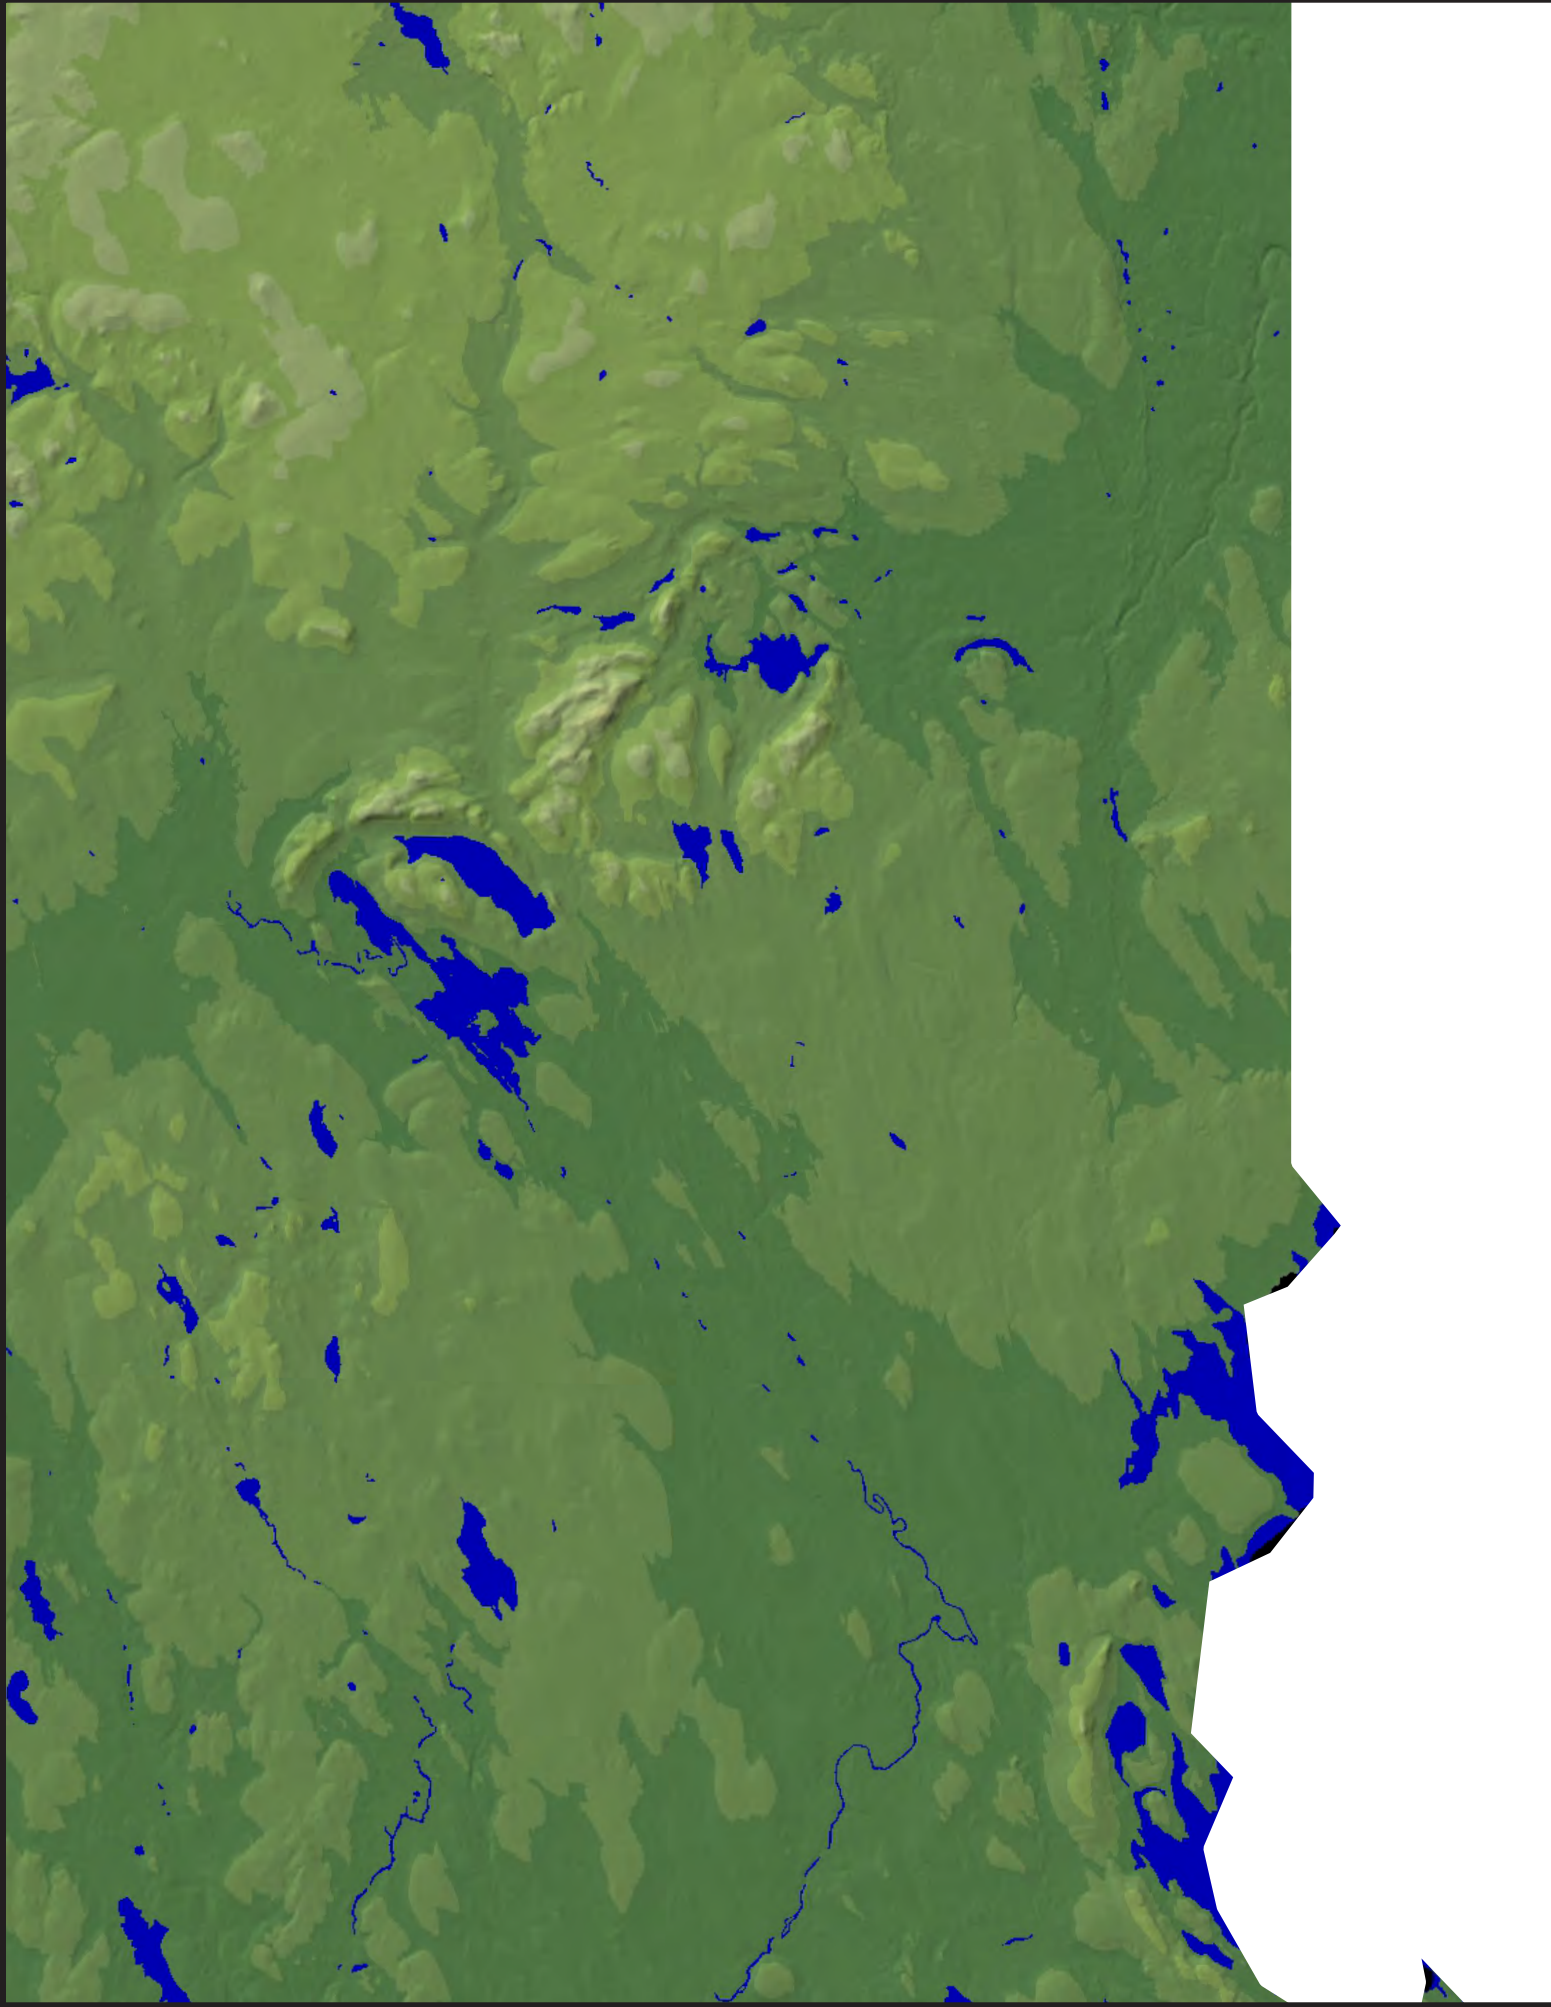

A topographic map of a region, likely in Maine, showing a network of rivers and lakes. A prominent black dot is placed on a river in the upper-middle section of the map. The text 'Presque Isle' is written in a large, yellow, serif font, centered over the lower half of the map. The map uses green and brown tones to represent elevation and vegetation, with blue lines for water bodies.

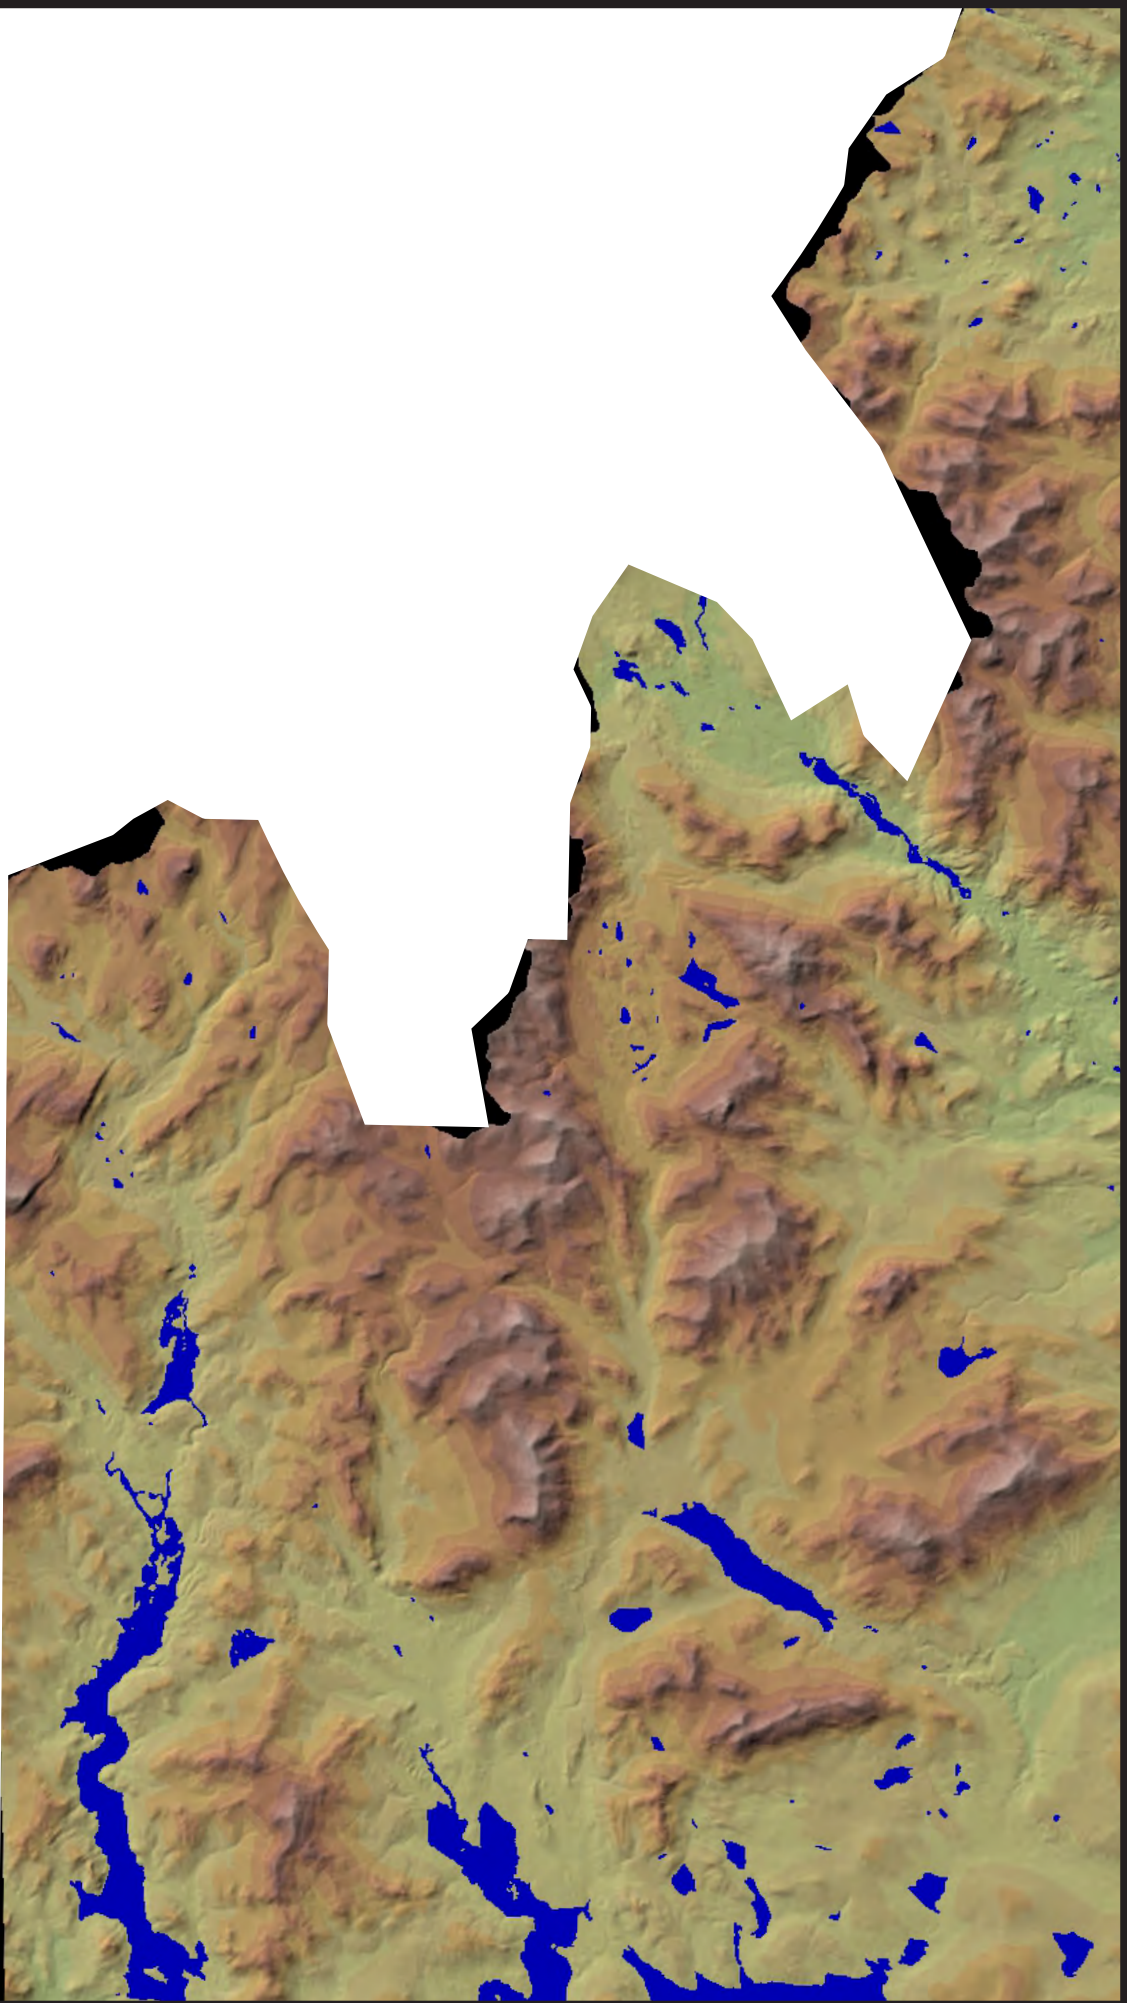

Presque Isle

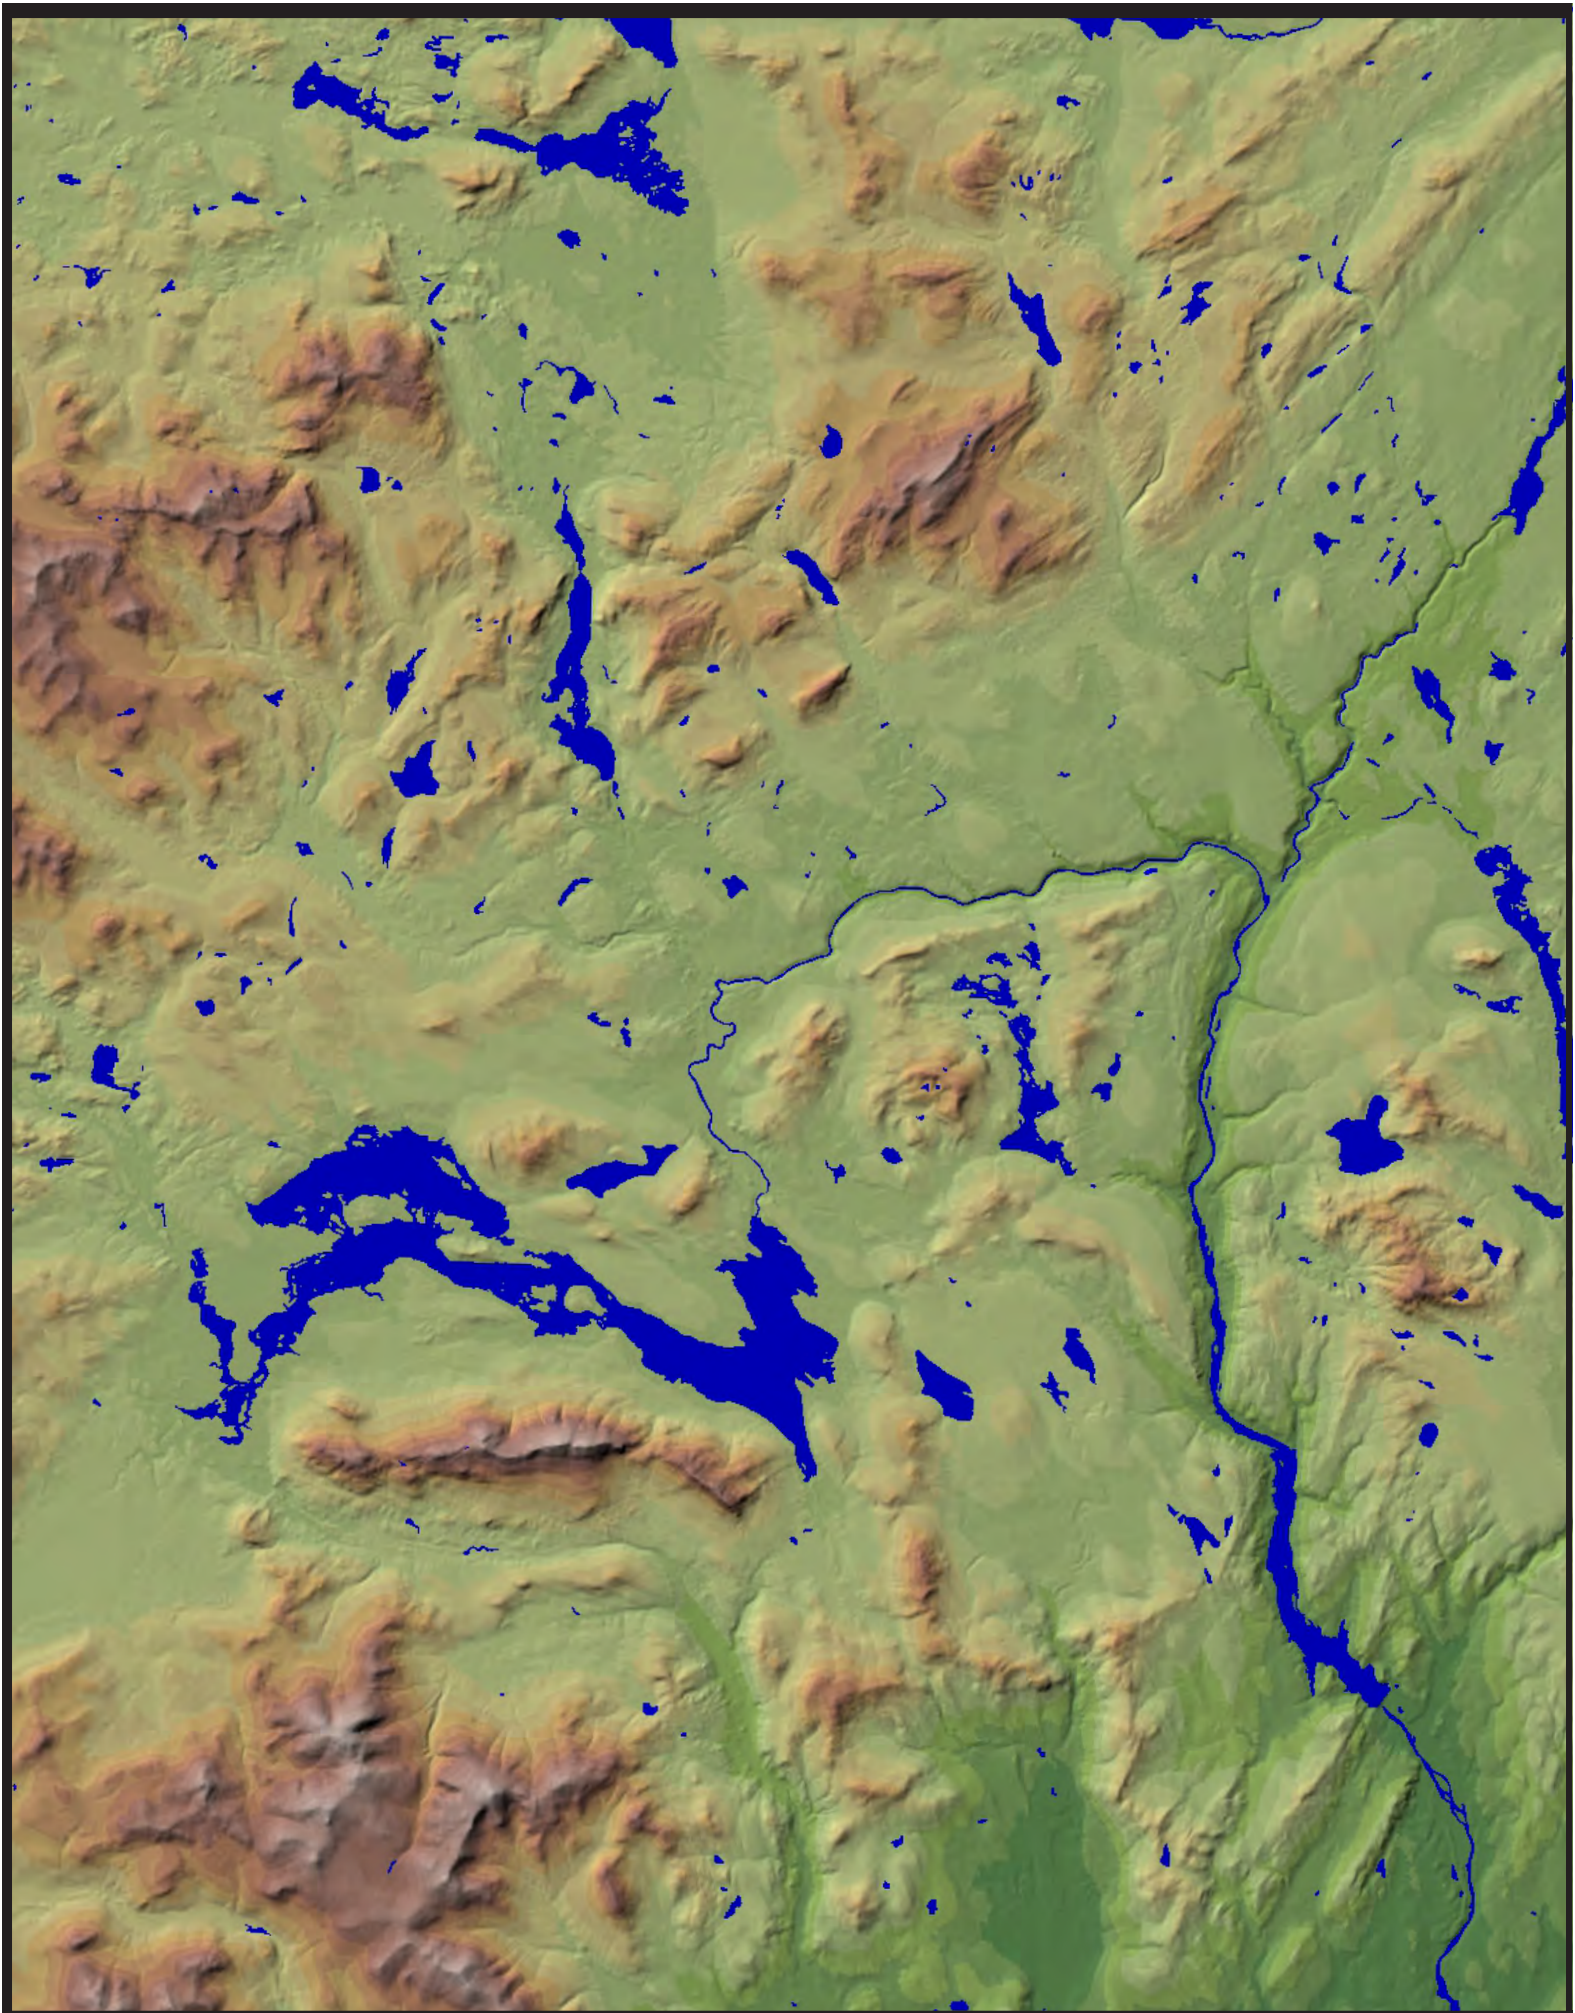

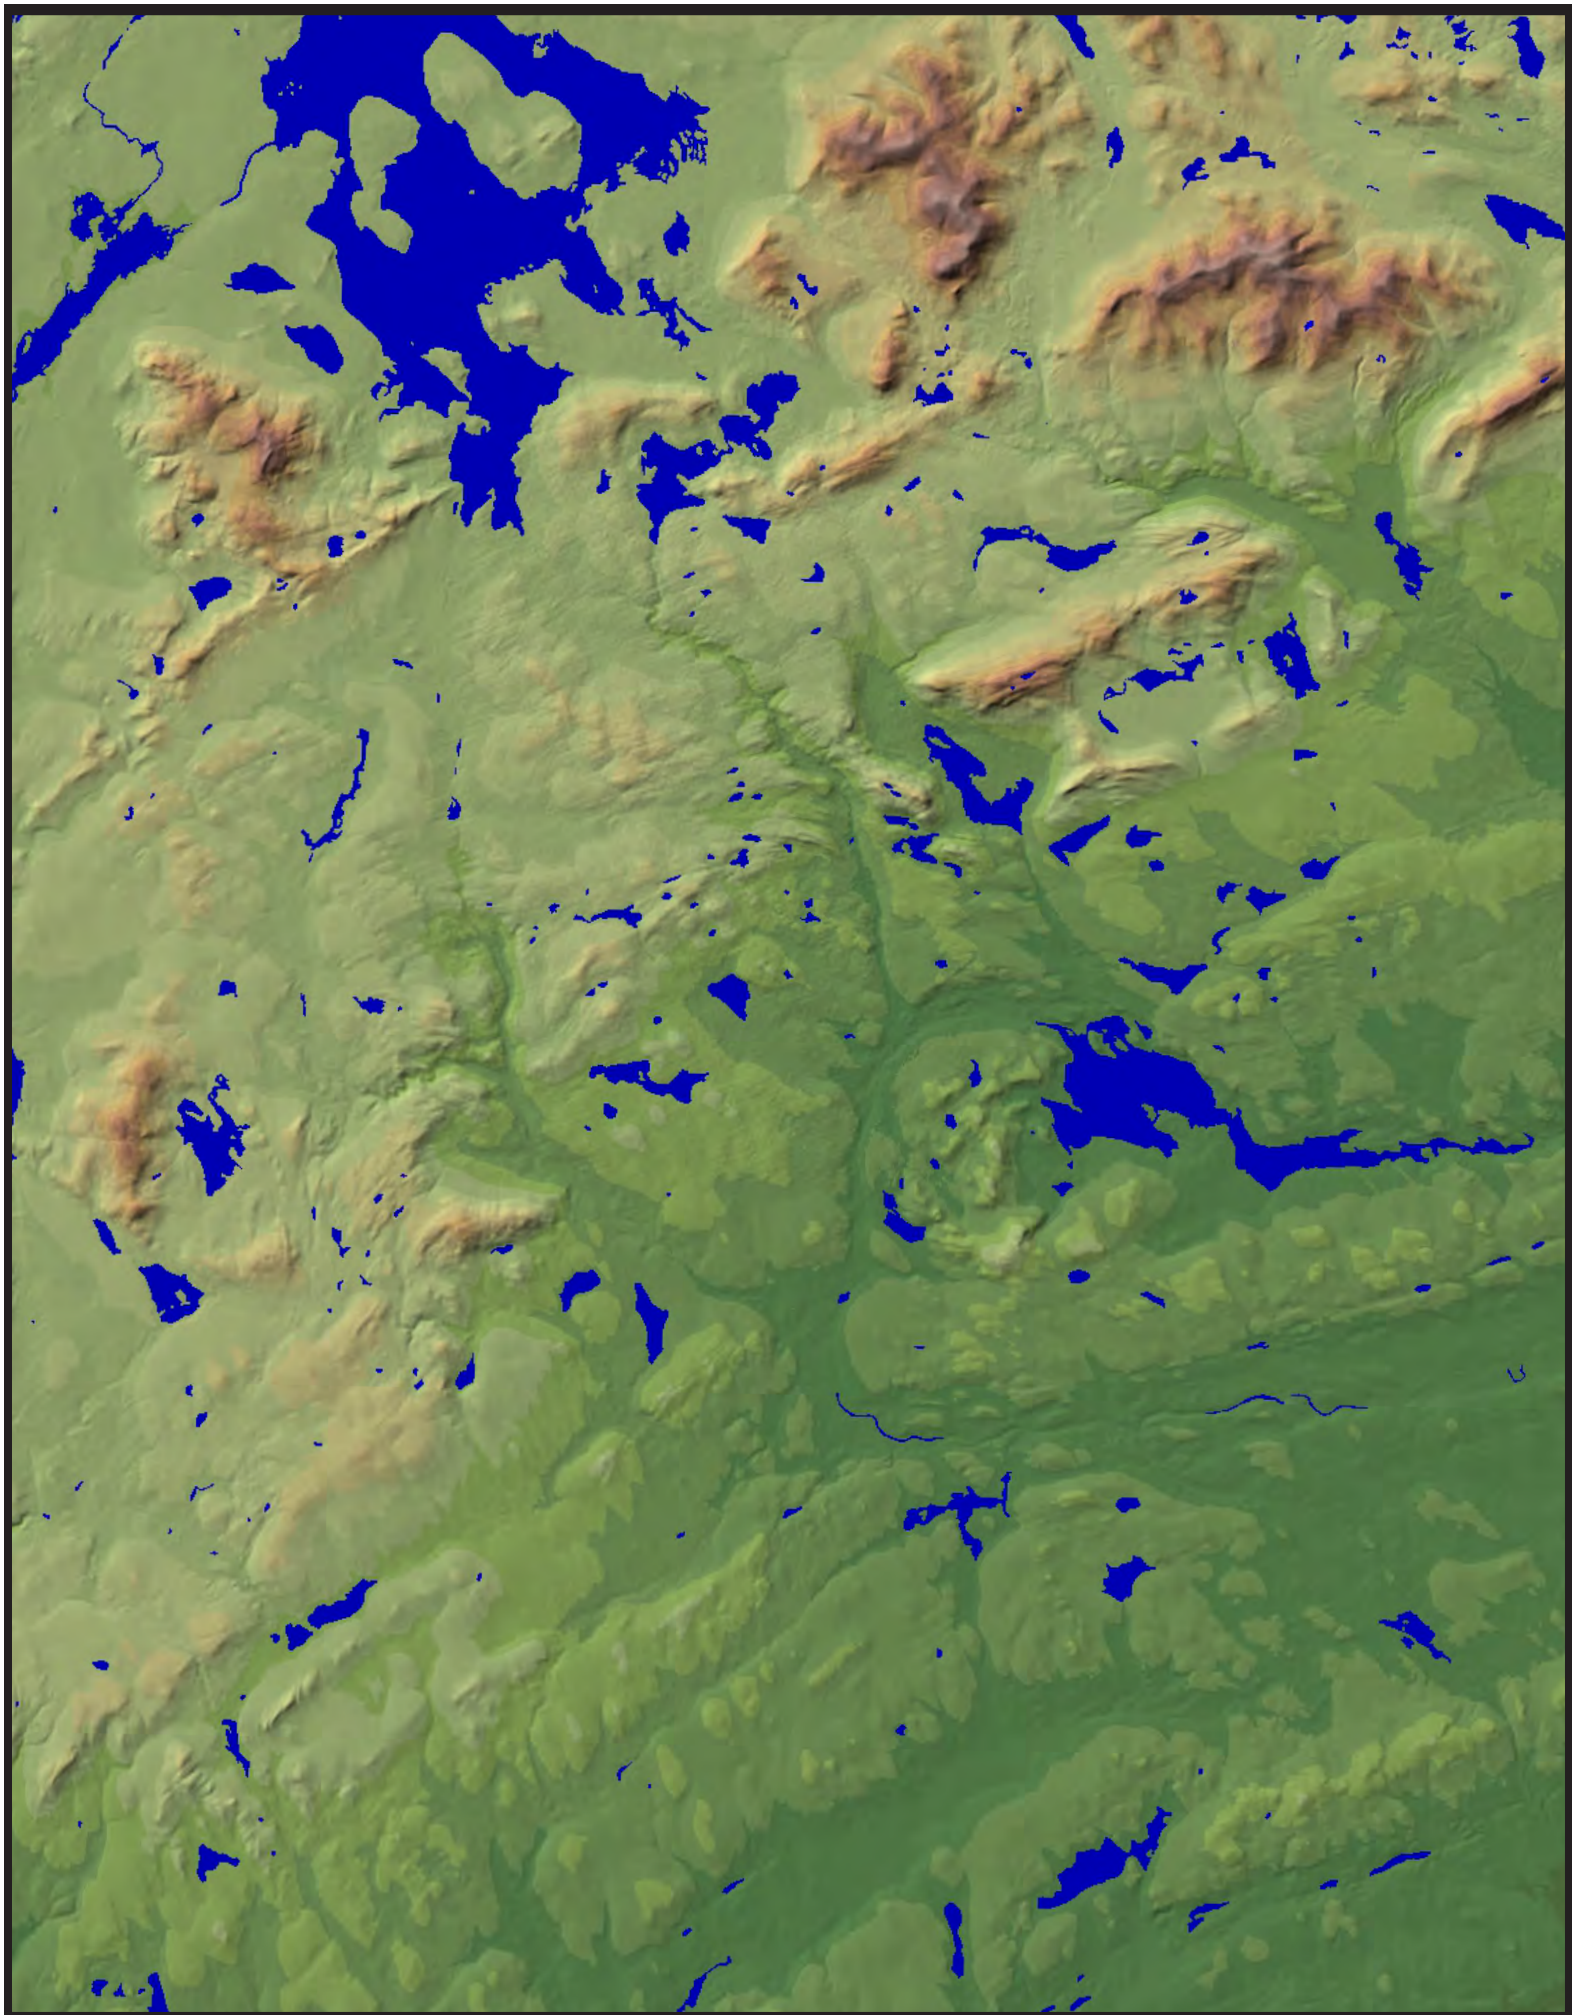

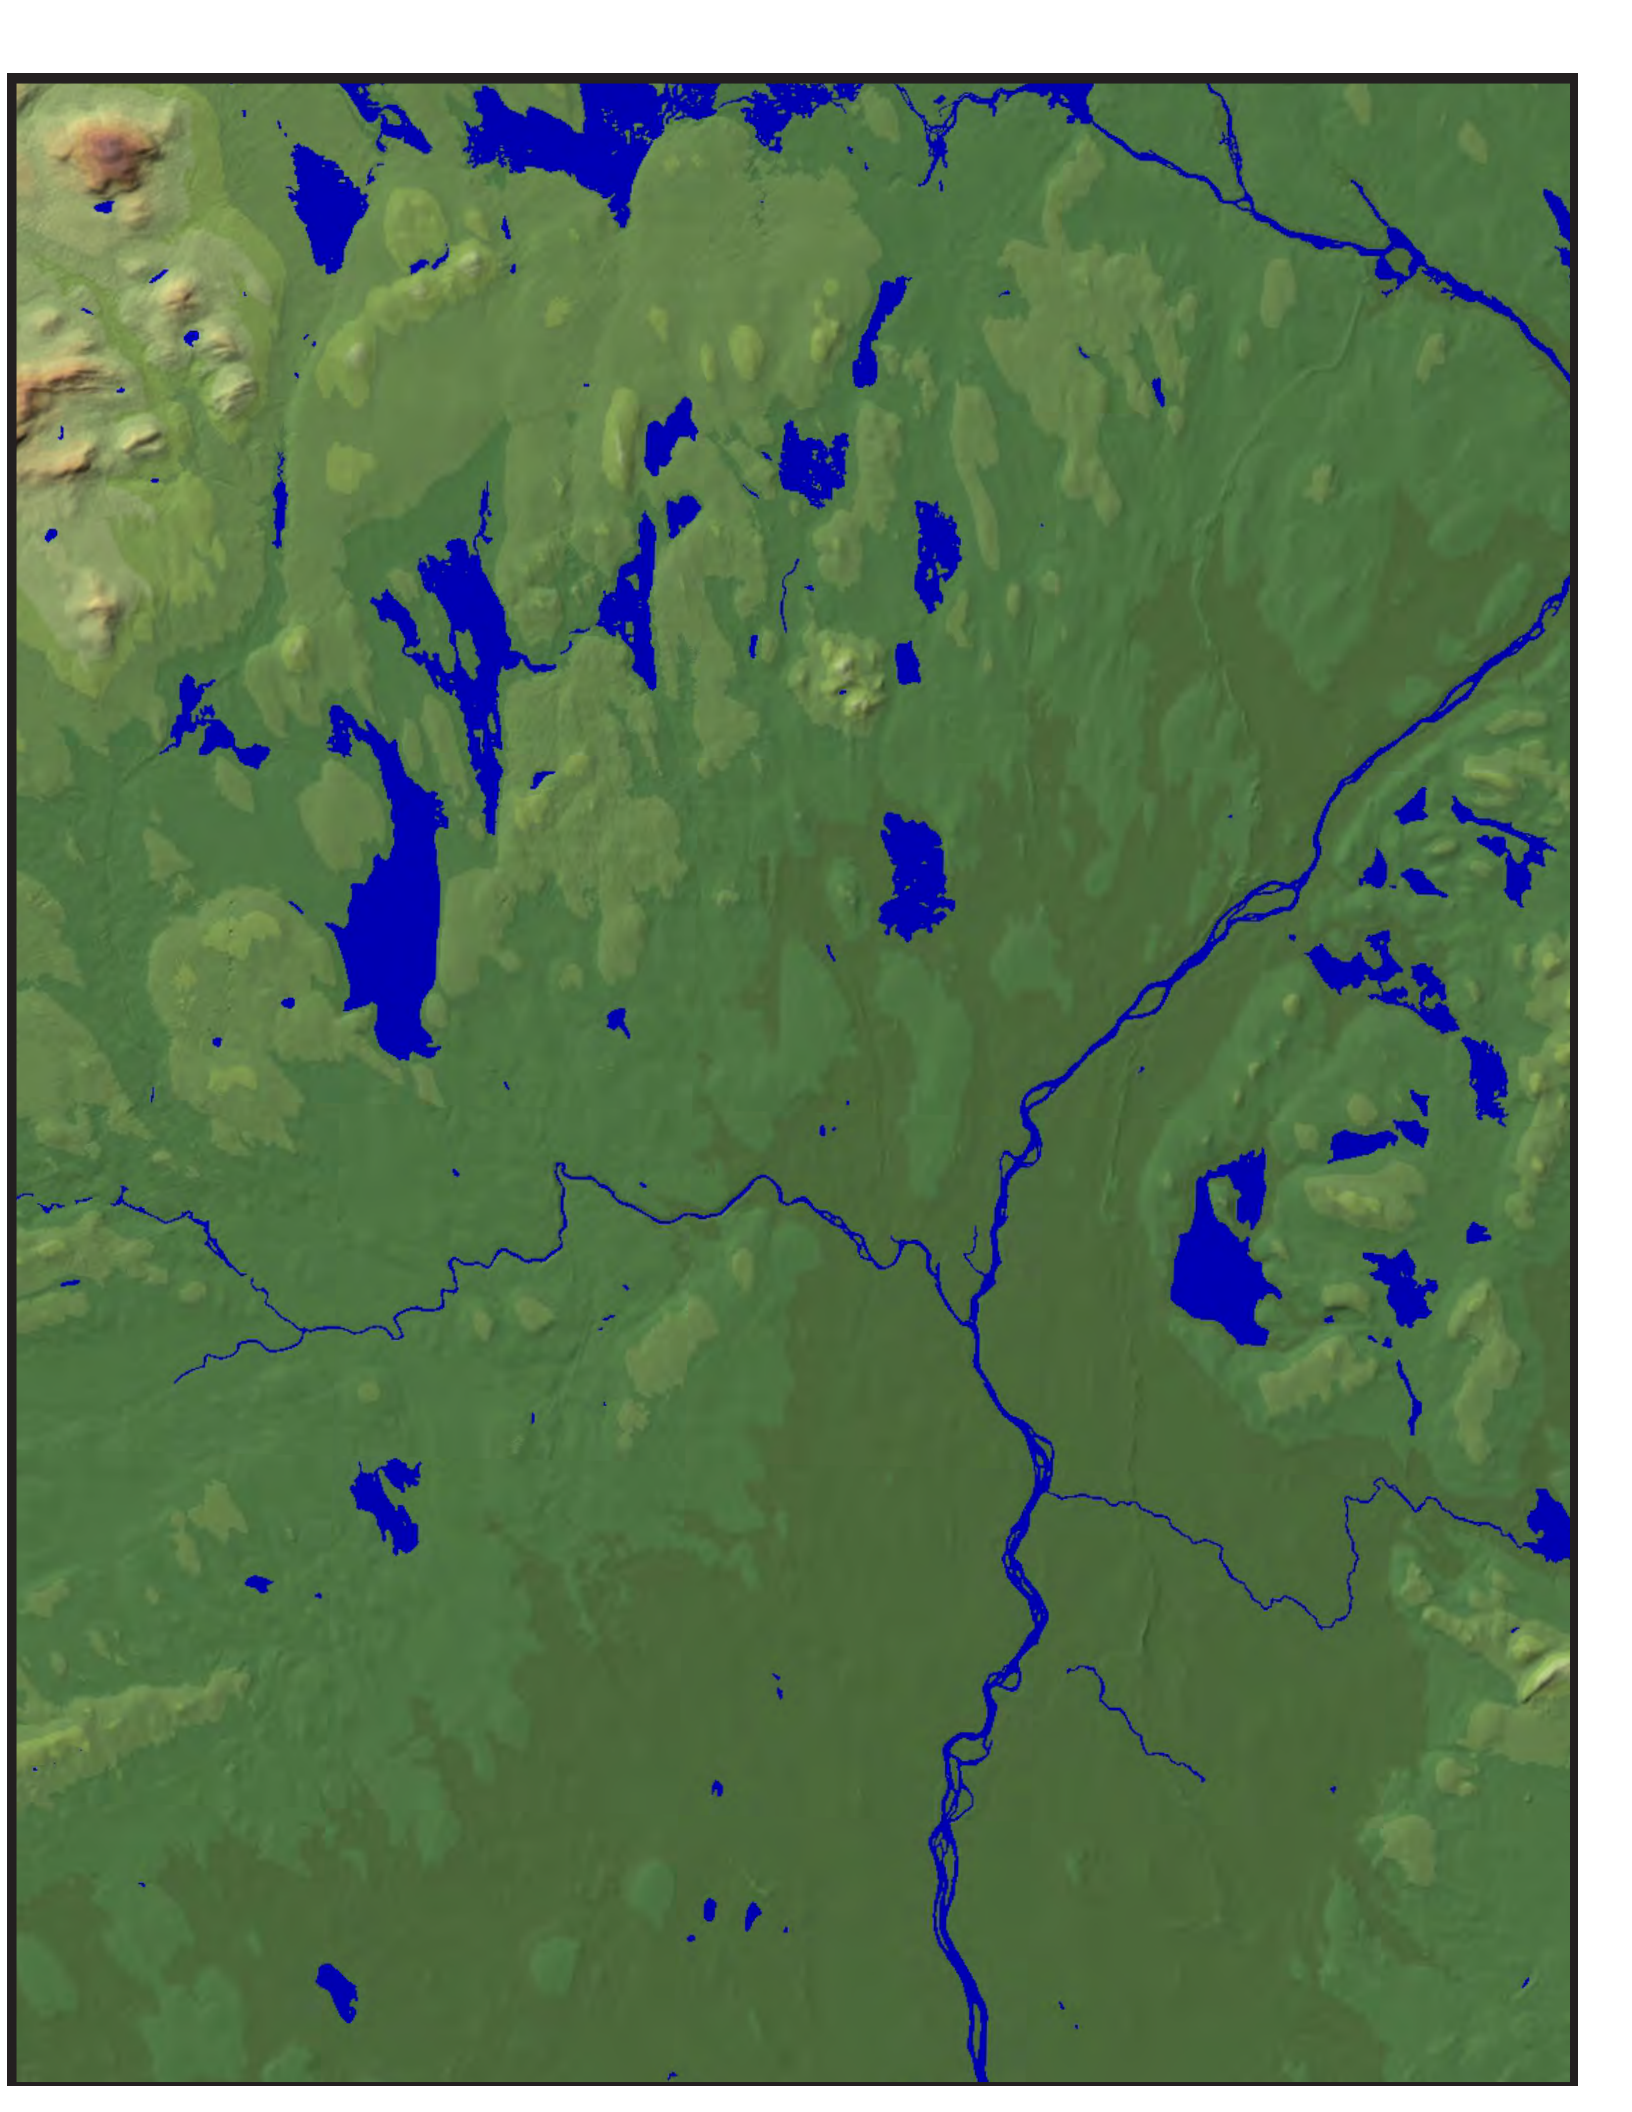

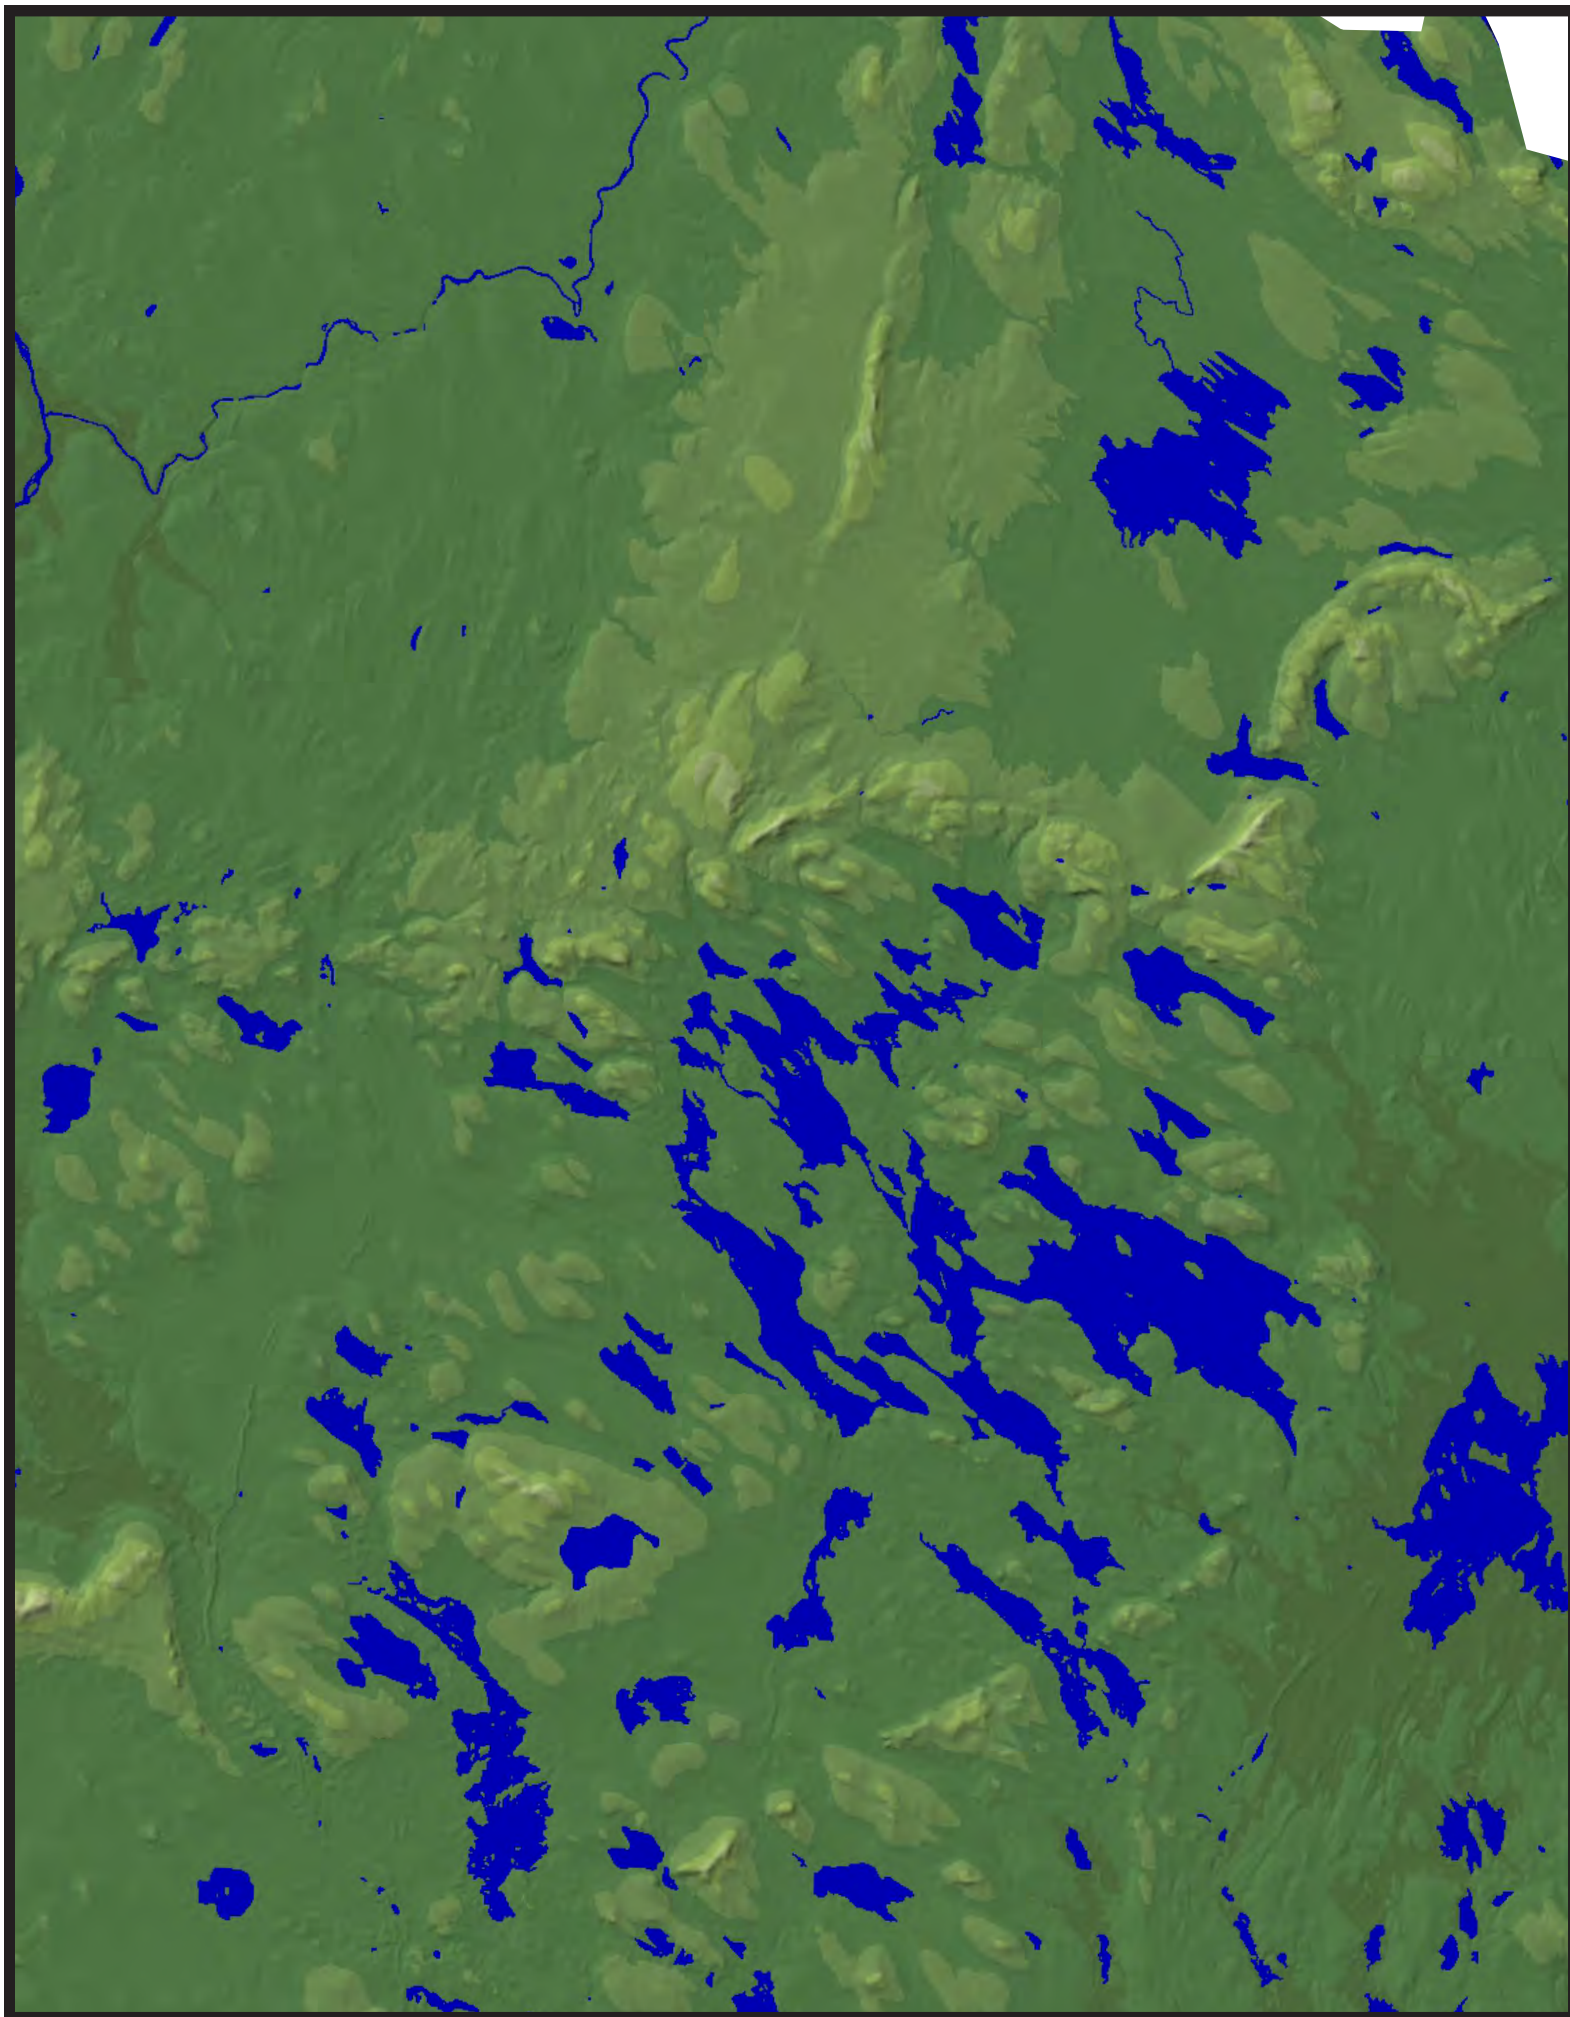

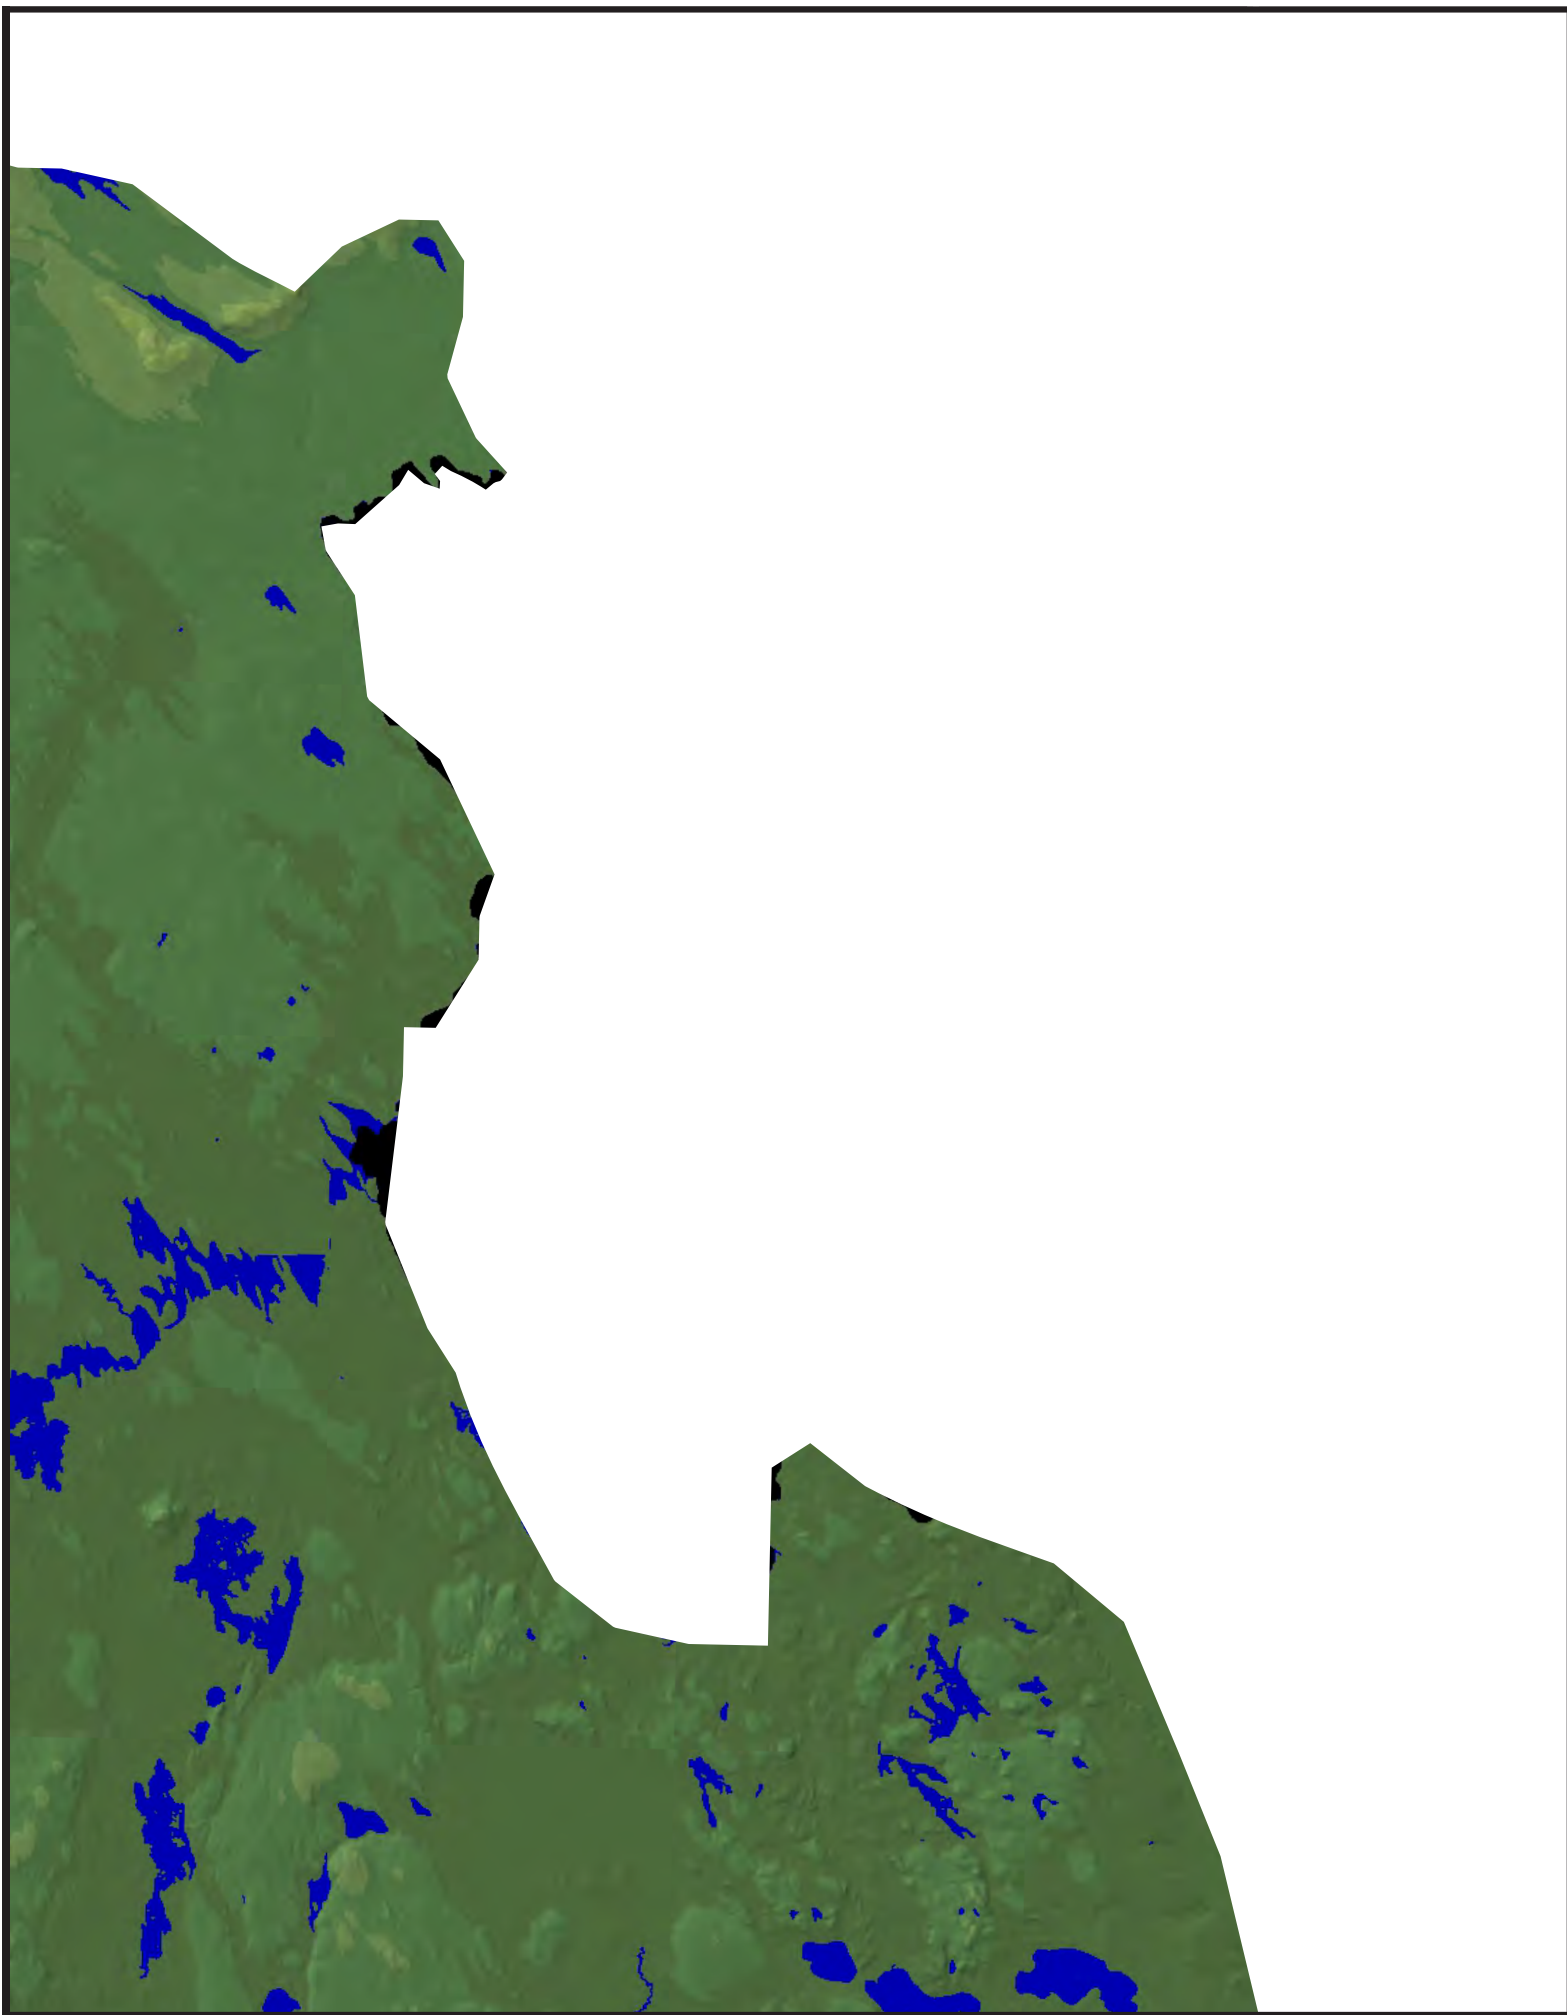

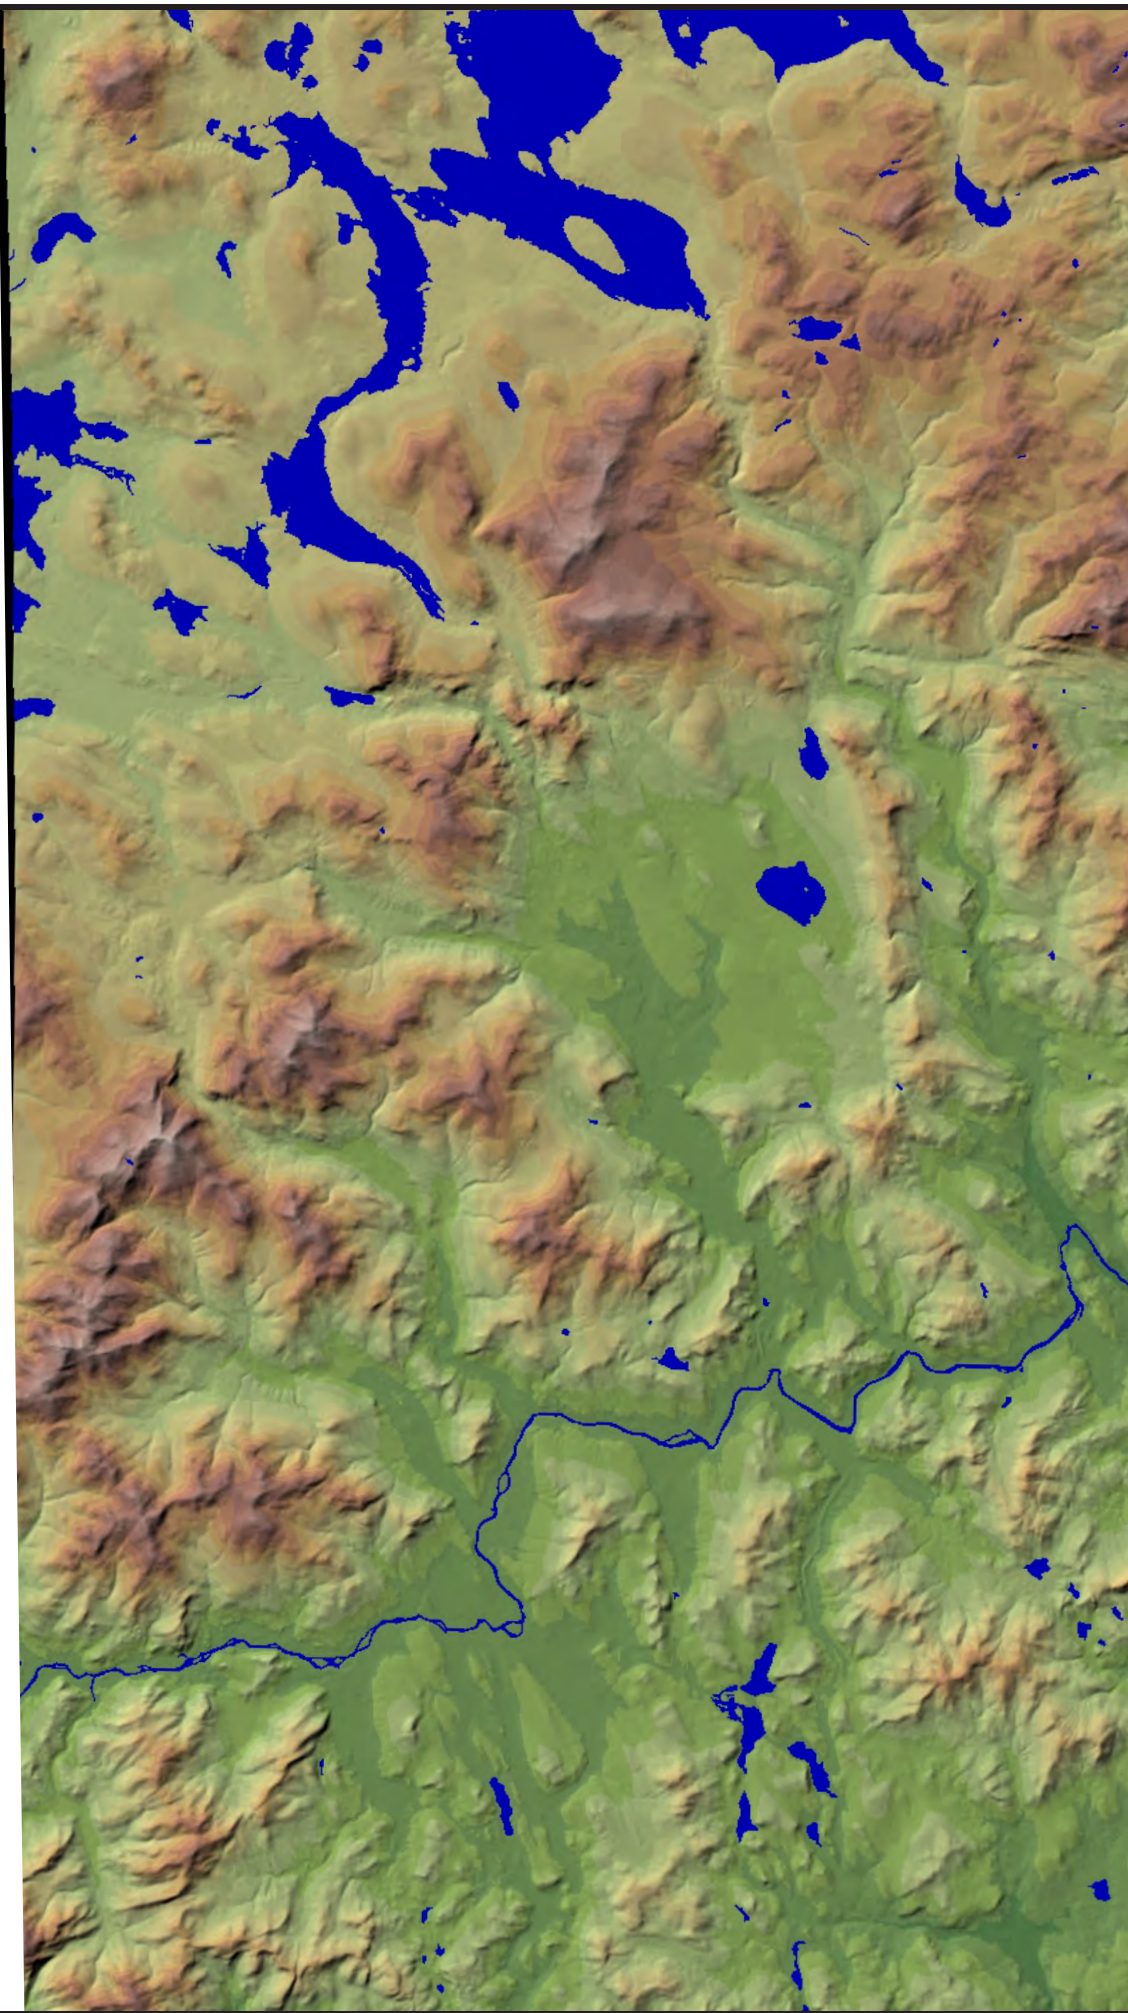

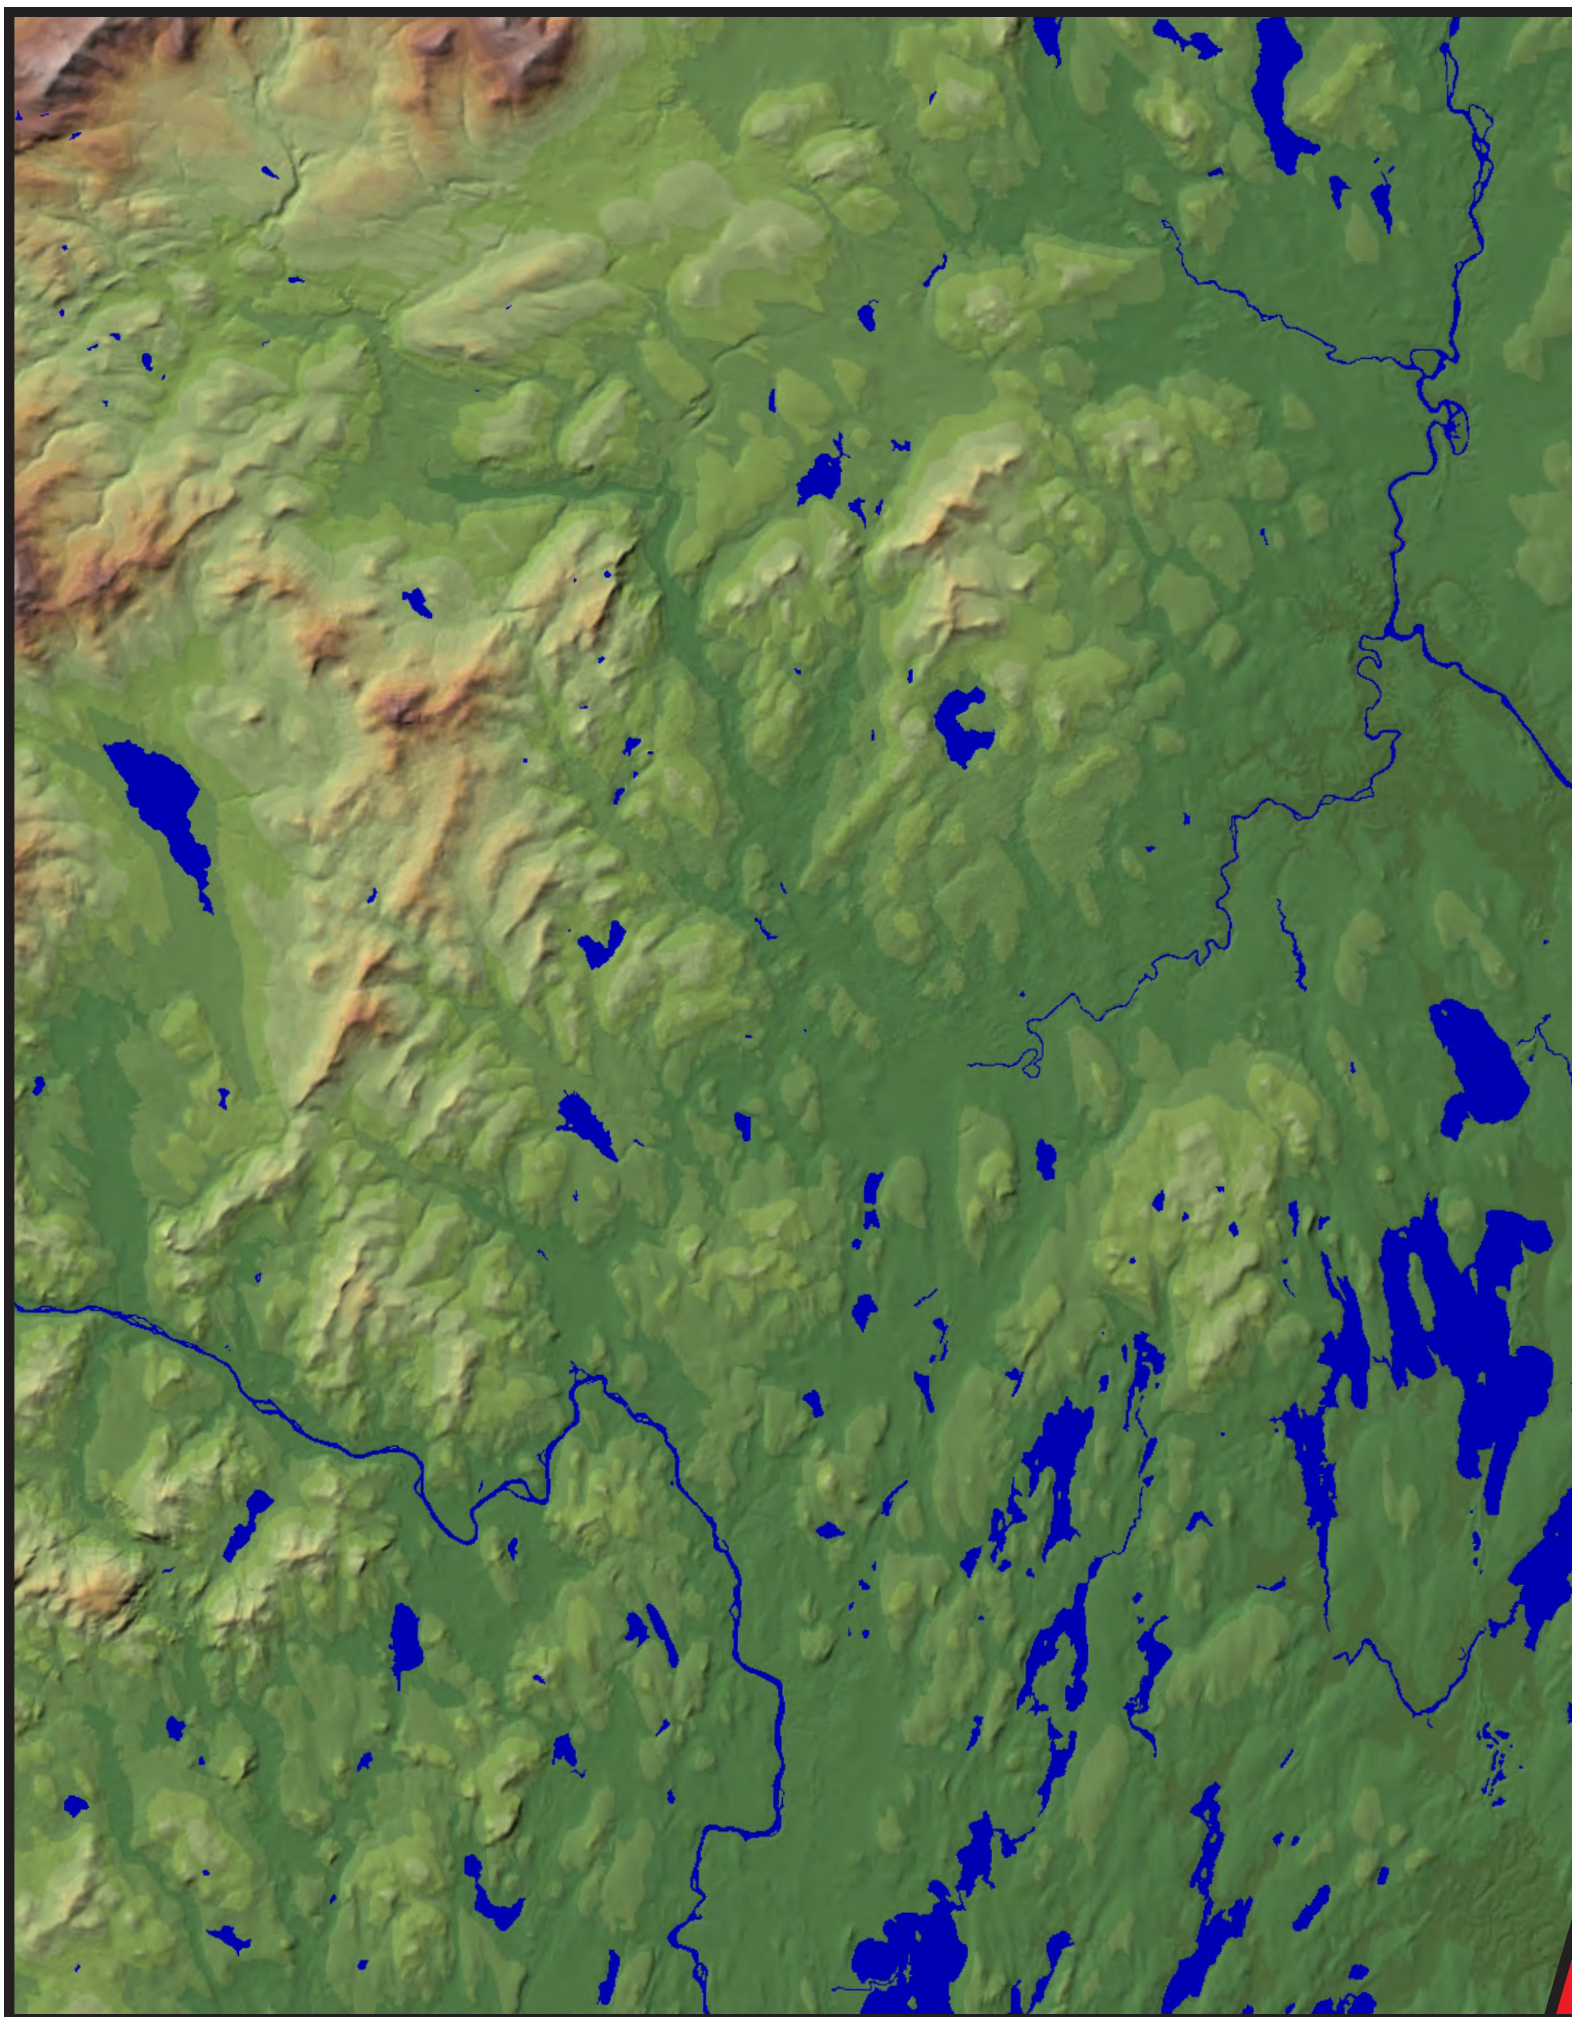

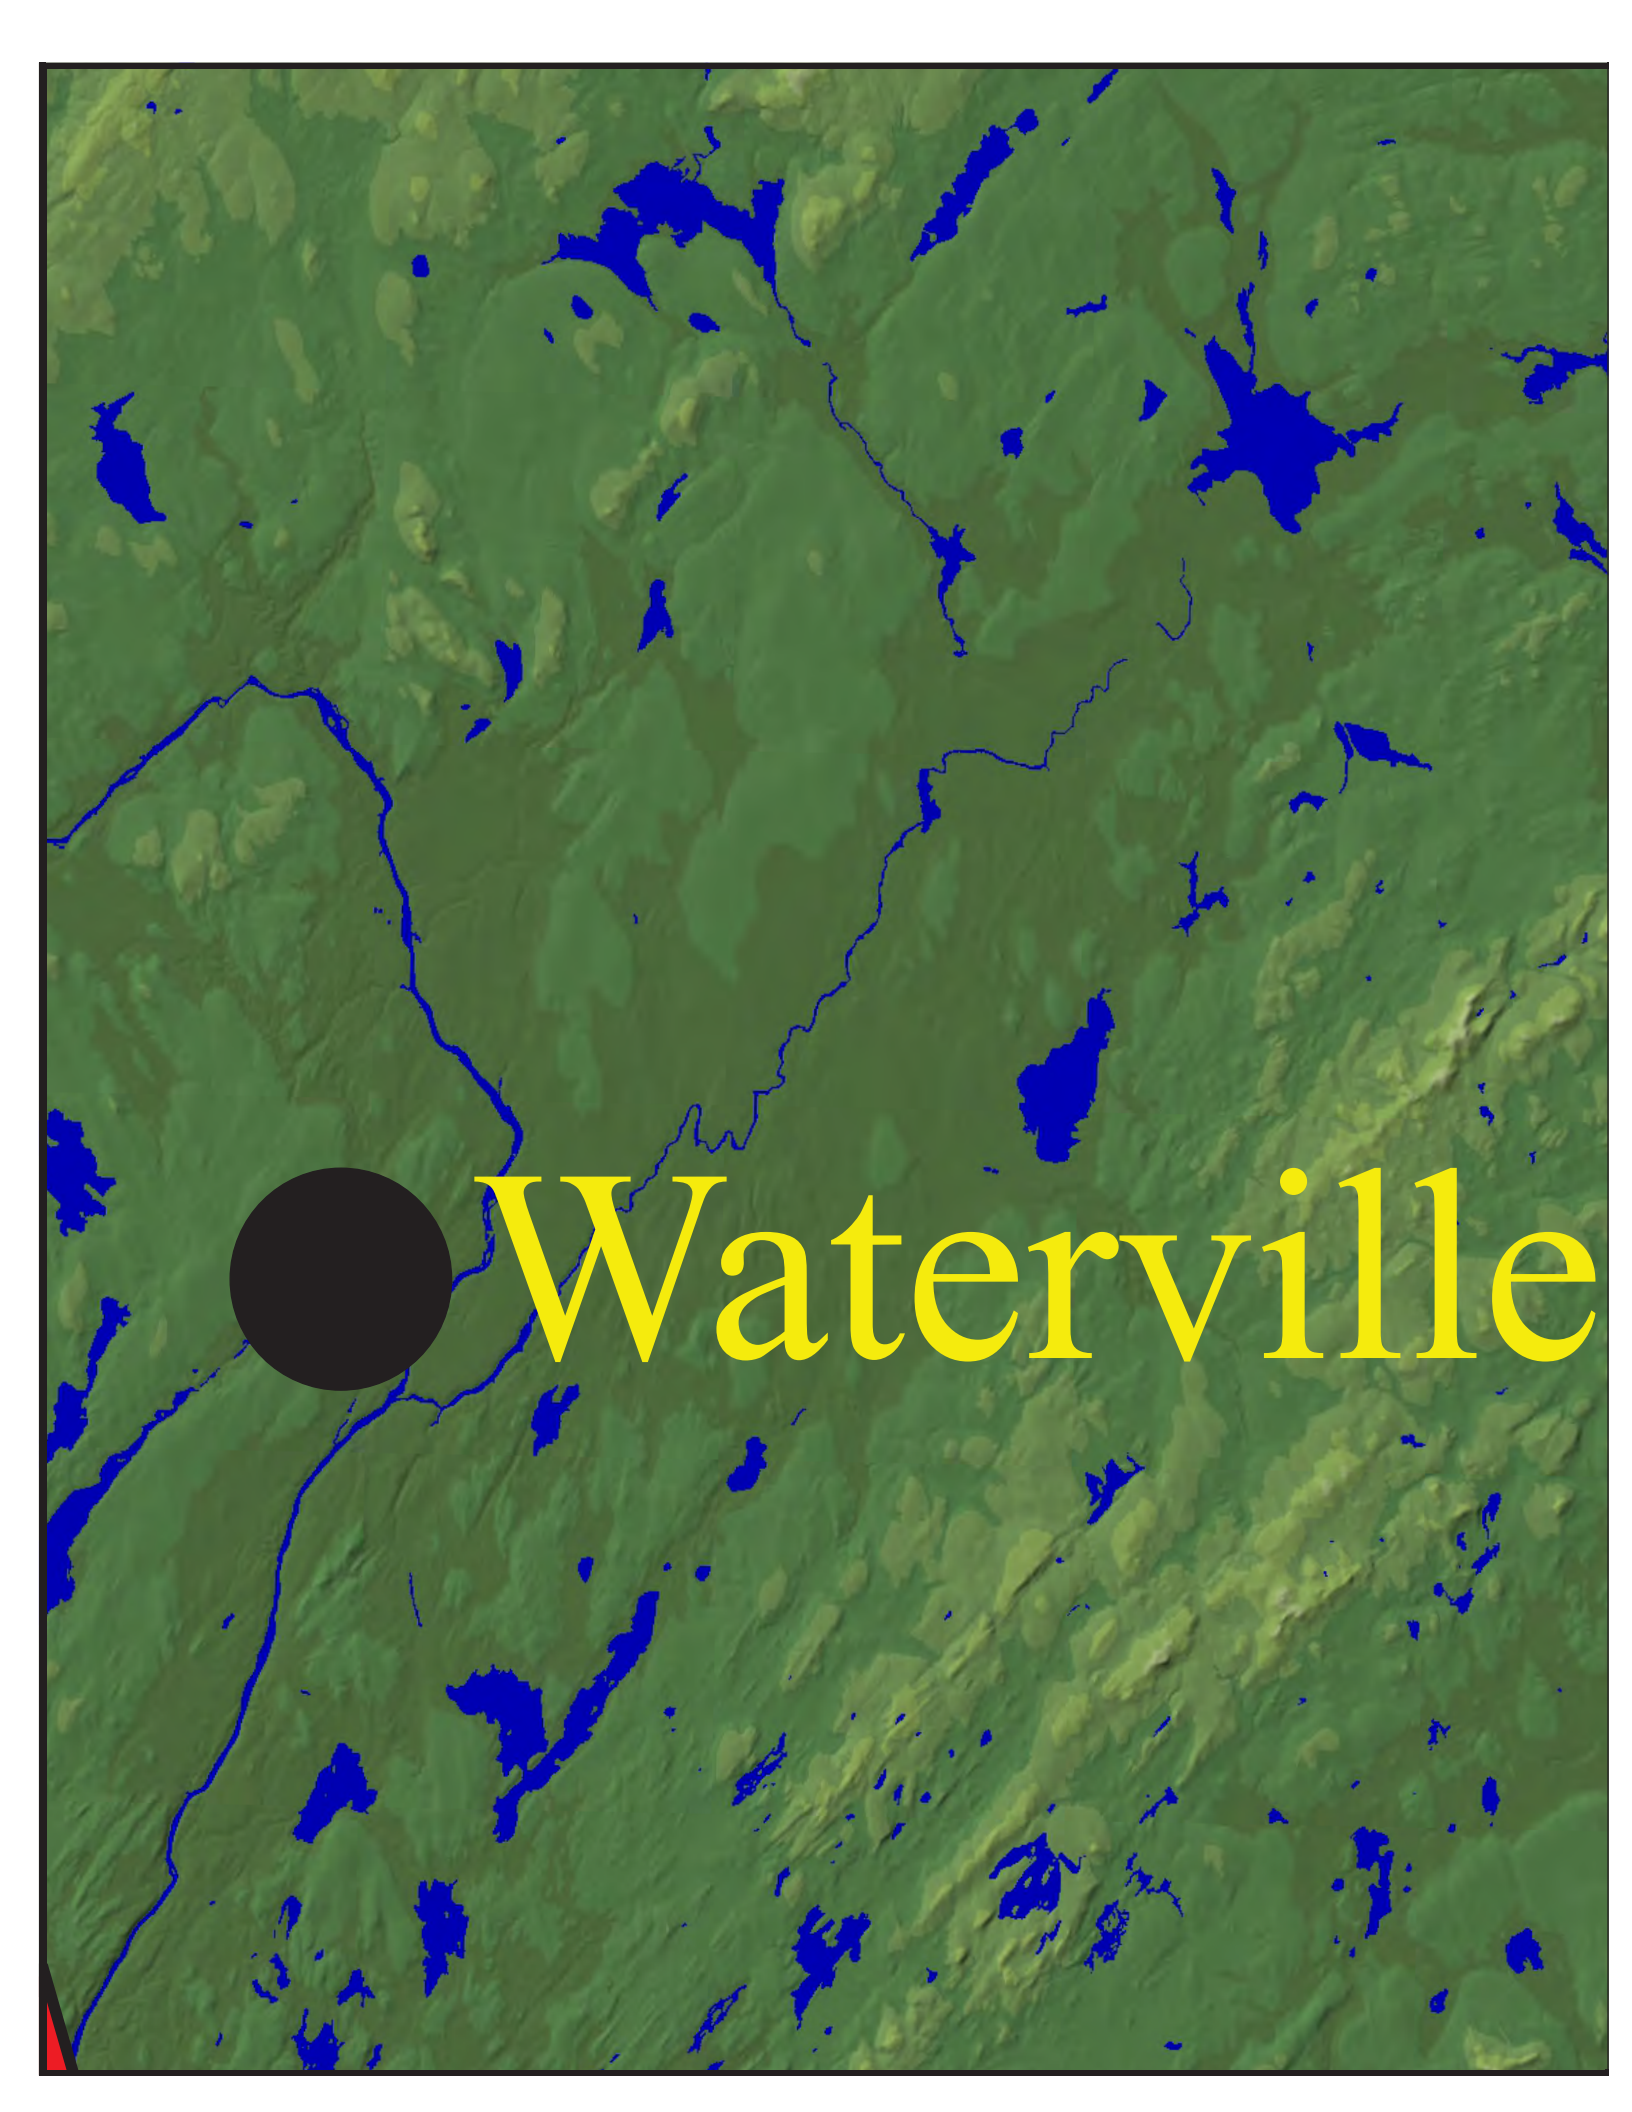

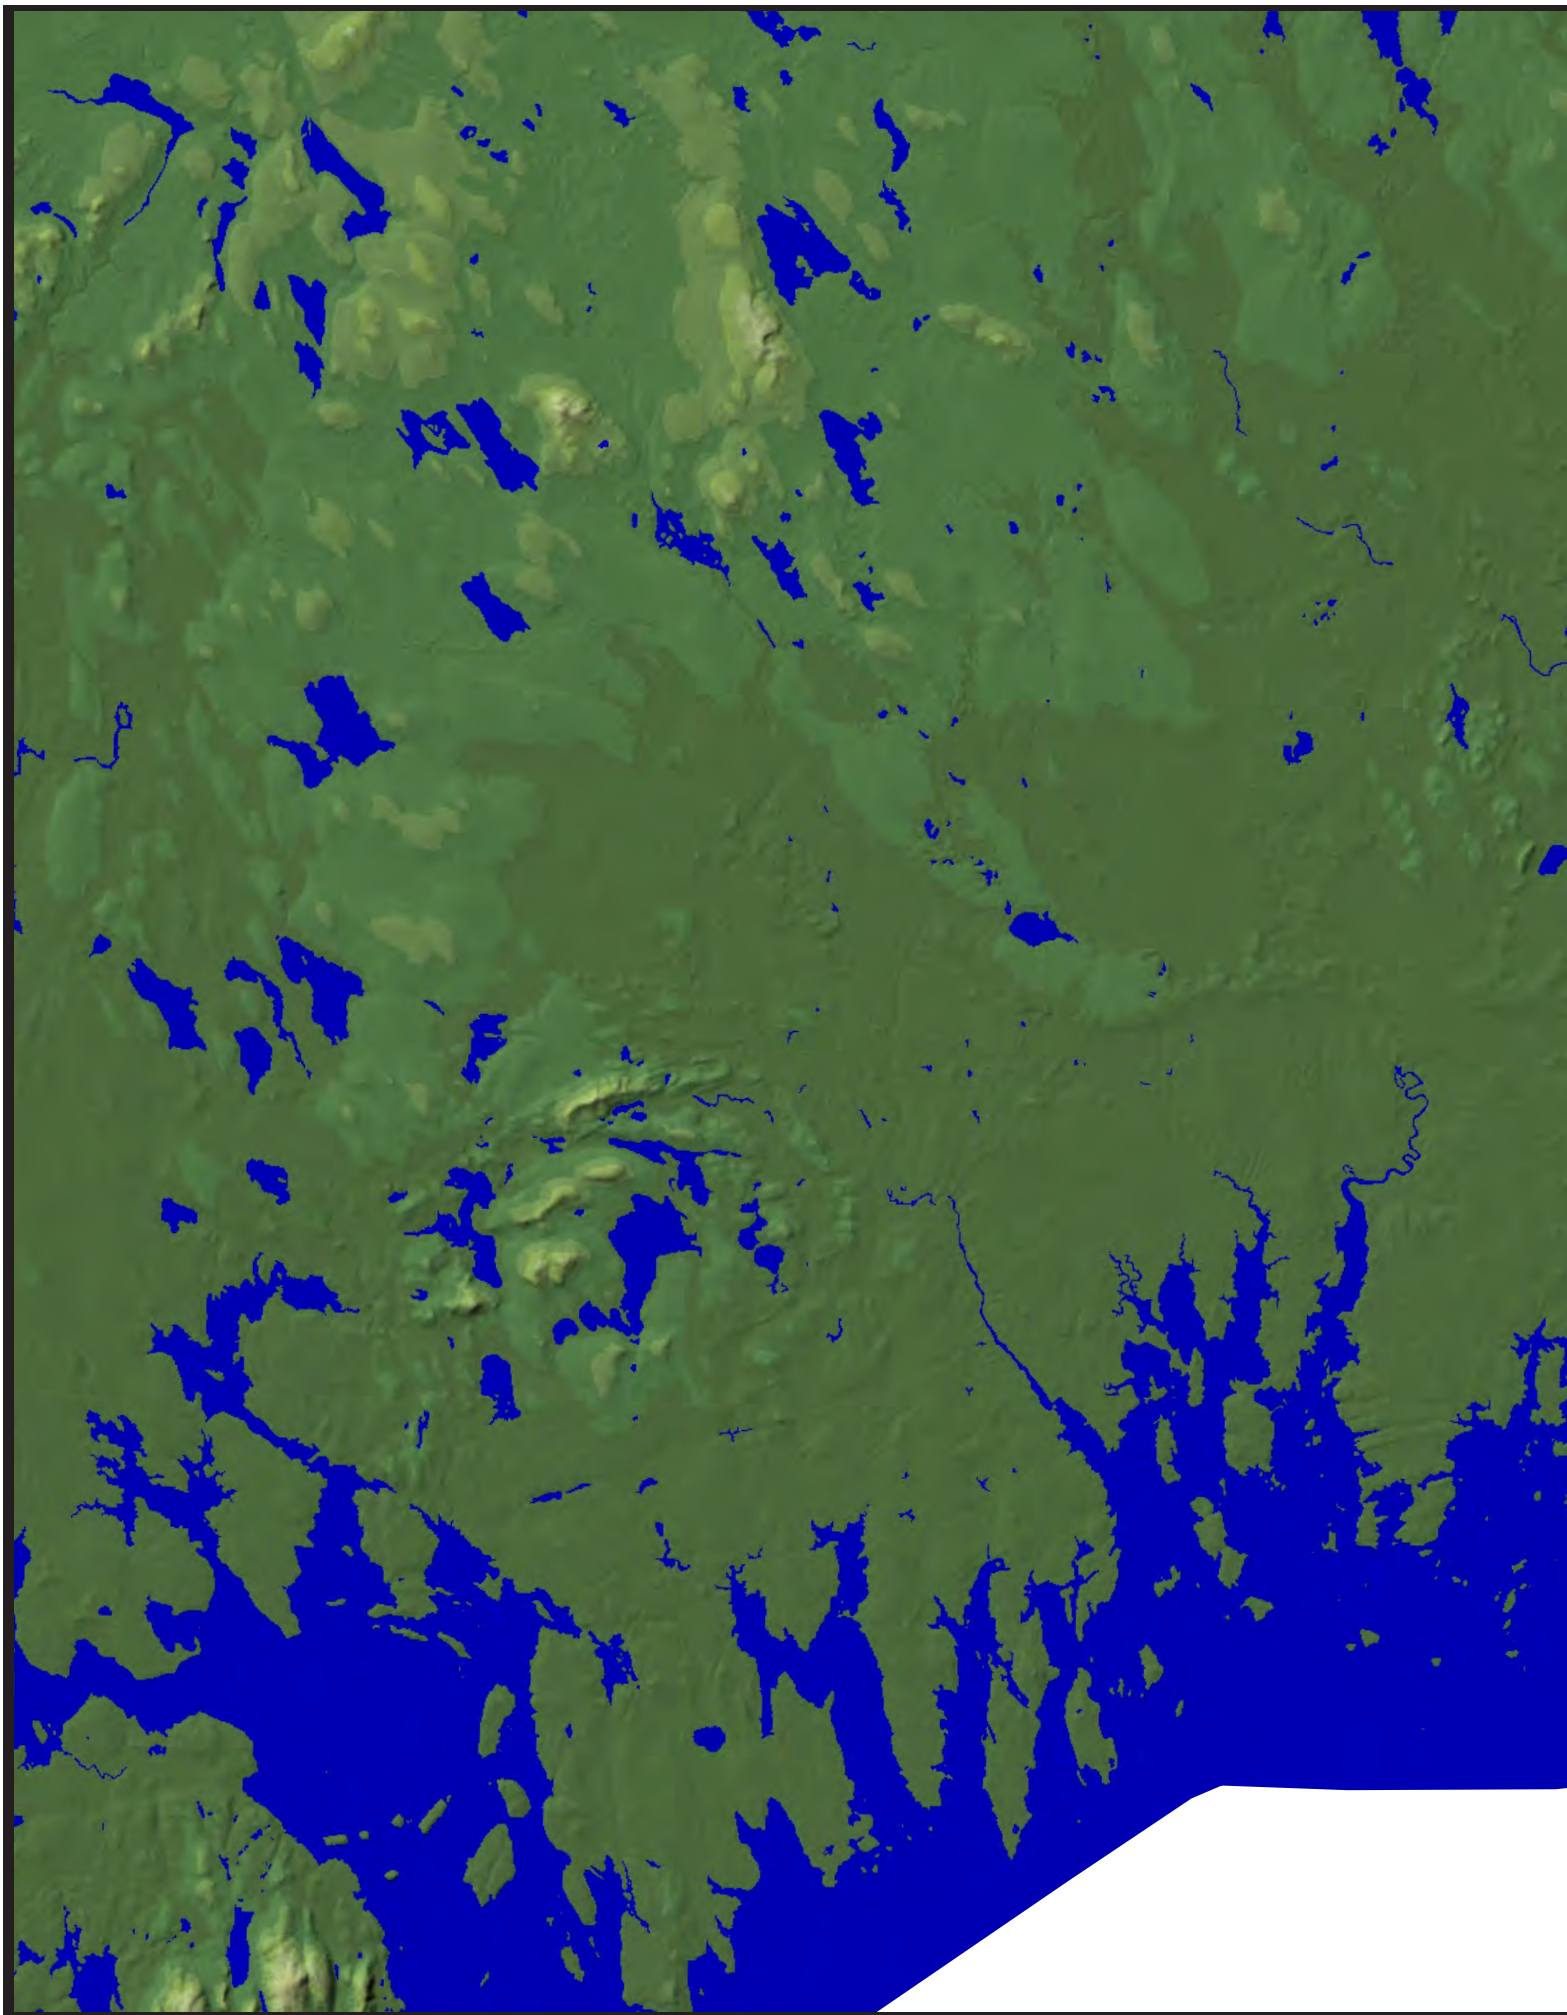

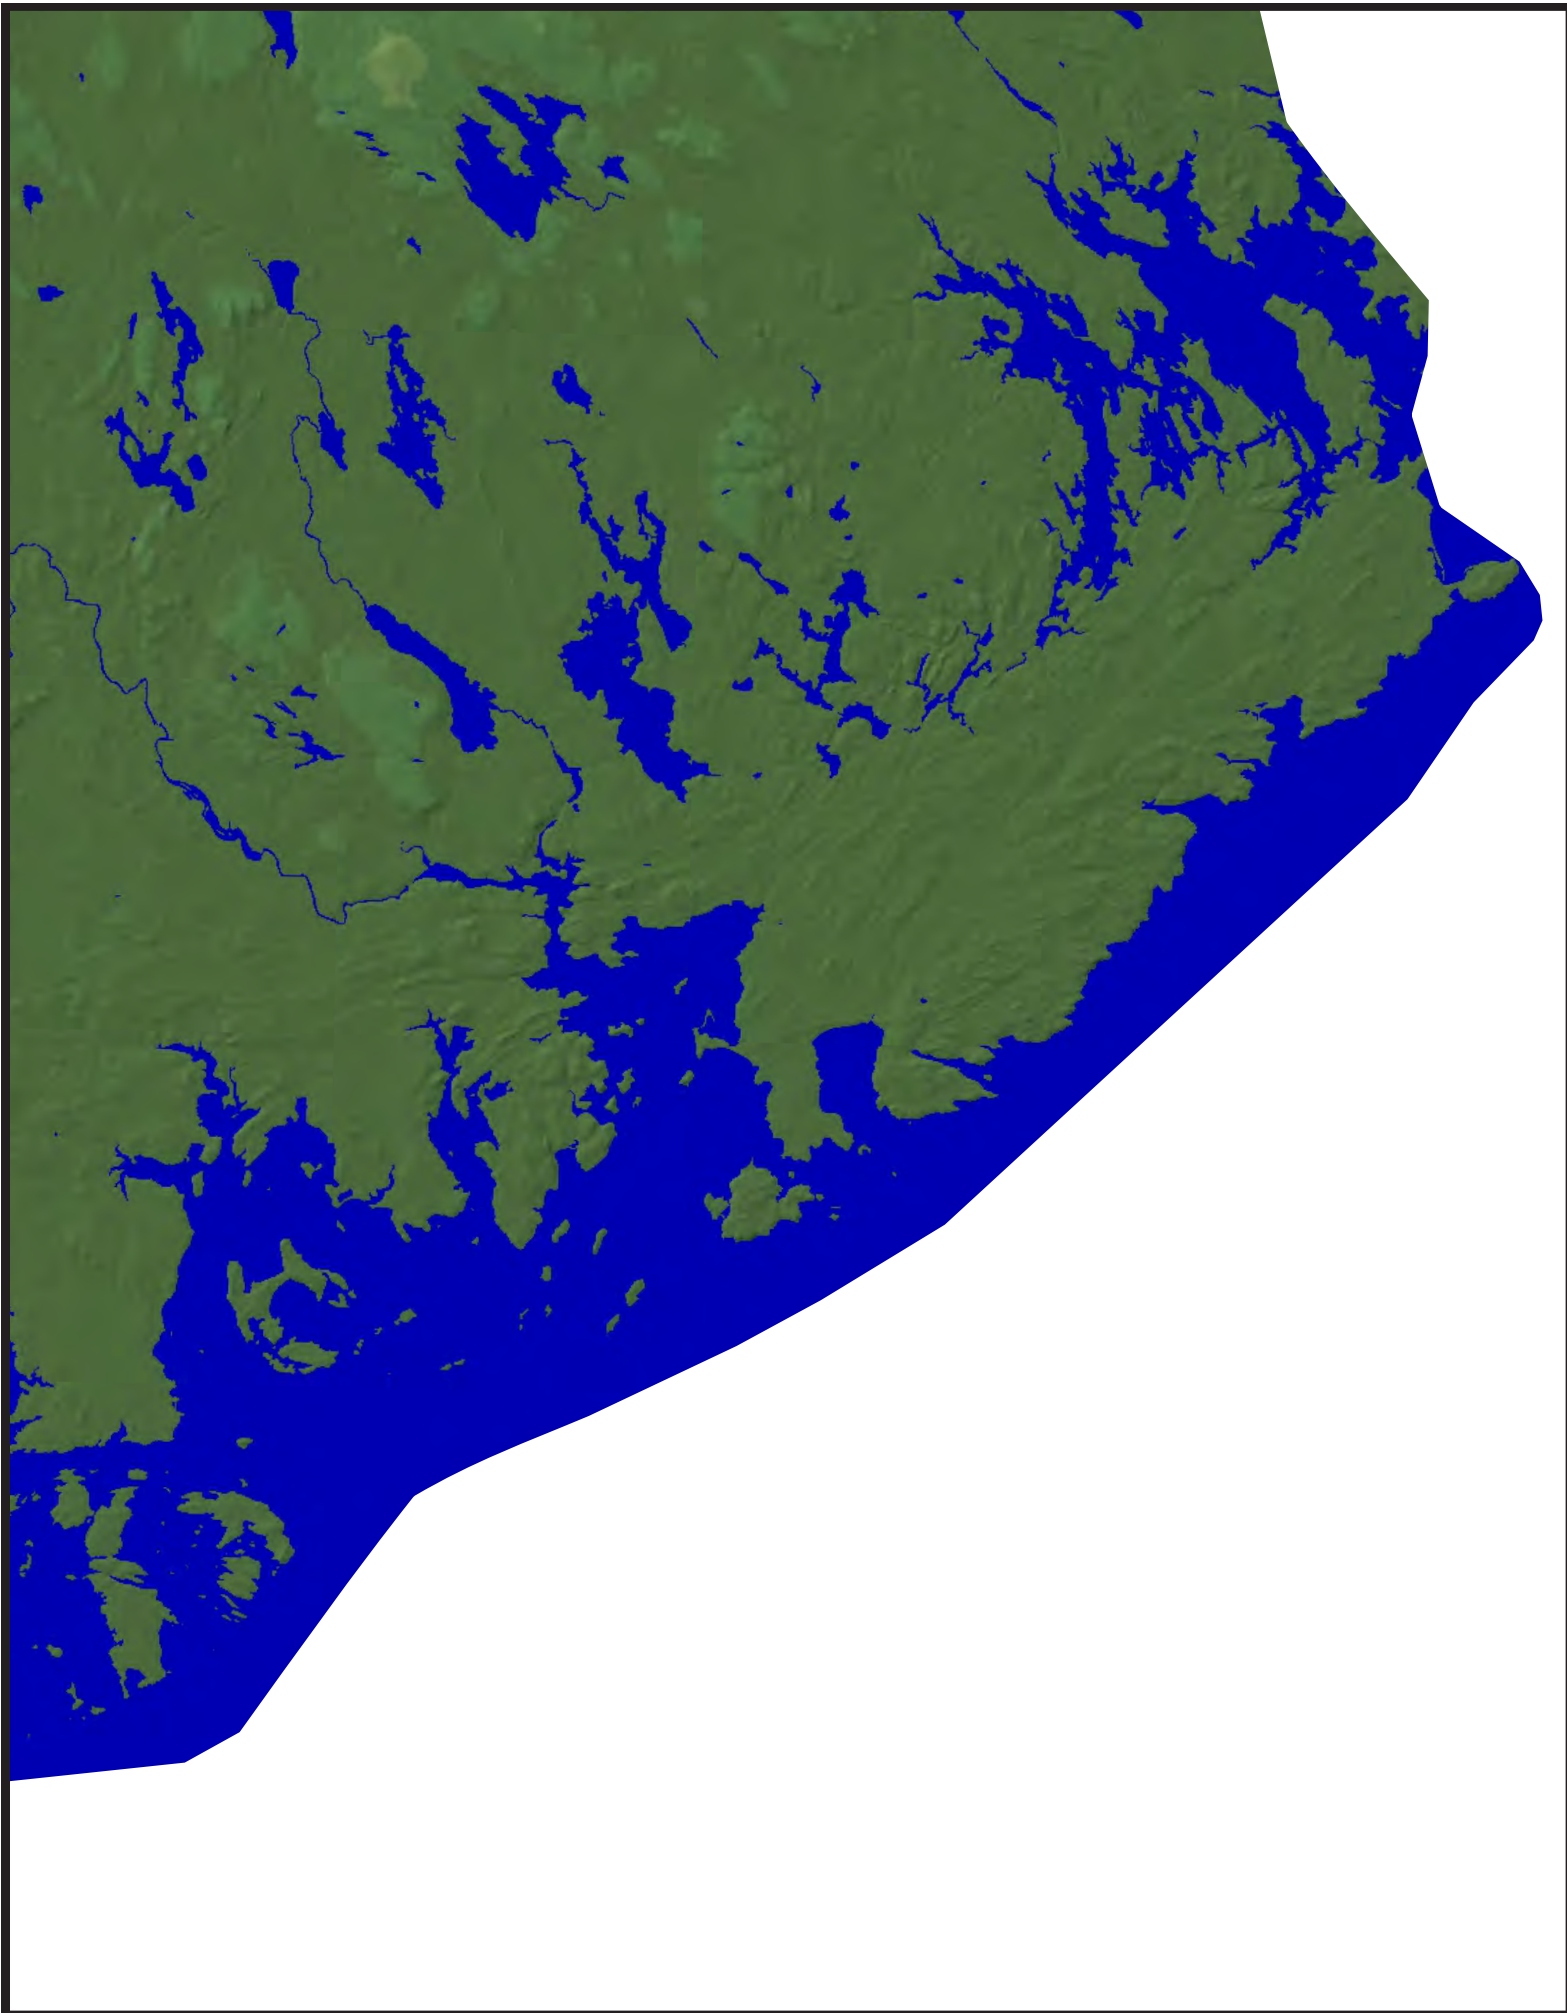

A topographic map of Waterville, Maine, showing the Kennebec River and surrounding terrain. The map uses a color gradient from green to brown to represent elevation. A large black circle is placed on the left side of the map, partially overlapping the river. The word "Waterville" is written in a large, yellow, serif font across the center of the map.
